

RAIL PEACE PARLEYS BROKEN OFF

Bombs Hurlled in Railroad Strike

BOMBINGS FOLLOW NIGHT OF RAIL GREASING AND HOSE CUTTING

Two Explosions Near Roundhouse in Illinois Town—Bomb Bursts Near Quarters of R. R. Workers—Passenger Train Under Fire—Town in Darkness—Other Disorders

CHICAGO, Aug. 25.—The railroad strike reached the end of its eighth week today to the accompaniment of bomb explosions and extensive violence.

Bombings followed a night of rail greasing and the cutting of air hoses at Roundhouse, Ill., division point on the Chicago & Alton. Two explosions occurred near the C. & A. roundhouse.

and another bomb burst near a hotel where railroad workers were quartered. The town was thrown into darkness shortly before the bombs were set off and citizens were described as afraid to leave their homes.

Train Under Fire
Passengers on one of the Alton's fast trains which pulled out of Roundhouse, Ill., were not injured.

MORE THAN 75 P. C. OF LAWRENCE STRIKERS OFFERED OLD WAGES

Katama Mill Follows Lead of Pacific, Monomac Spinning Co. and Acadia Mill and Posts Notices Announcing Restoration of Old Wages

LAWRENCE, Aug. 25.—Notices were posted at the Katama Mill today that the rate of wages paid before the reduction that led to the textile strike would become effective beginning next Monday. With this announcement, it was estimated that more than 75 per cent of the textile workers who have been on strike since March had been offered their old wages. The Monomac Spinning Company, the Acadia Mill and the Pacific Mills Company had previously announced restoration of the former scale.

De Valera at Head of Large Rebel Force

LONDON, Aug. 25.—(By the Associated Press).—Eamon De Valera, Irish Republican leader, has emerged from seclusion since the death of Michael Collins and is reported to be active with a large force of rebels, the Belfast correspondent for the Evening News today said he had learned.

One Killed, Heavy Property Loss in Storm

LOUISVILLE, Ky., Aug. 25.—One person dead, three seriously injured and a property loss variously estimated from \$150,000 to \$250,000 was the toll of a terrific wind storm which swept a part of Louisville and Jeffersonville, Ind., early today, following a rain and electrical disturbance.

Three Die in Haskell, Okla., Fire

HASKELL, Okla., Aug. 25.—Three persons were reported dead, a score injured, in a fire which burned half the business district here today. The fire was believed to have been caused by the ignition of gas fumes by a cigaret.

NEW YORK, CLEARINGS
NEW YORK, Aug. 25.—Exchanges, \$626,500,000; balances, \$2,100,000.

Attempts to End Shopmen's Strike By Separate Settlements With Individual Roads Fail

COAL PARLEYS TO BE REOPENED

Negotiations Between Hard Coal Operators and Union Officials to Be Resumed

Result of Overtures Made on Behalf of Administration

WASHINGTON, Aug. 25.—(By the Associated Press).—Negotiations between anthracite operators and United Mine Workers' officials to end the suspension of mining operations are expected by officials close to President Harding to be resumed within a week as the result of overtures made on behalf of the administration.

The influence of the administration has been exerted in this direction and has prevailed upon both sides to the controversy, it was officially stated. Where and when the negotiations will be resumed, officials were not prepared to say.

The position of the two parties as understood here, is that union officials are anxious to reach an agreement with the operators which would result in a basic wage to be effective for one, two or three years, while the operators were said to be of the opinion that the miners should return to work at the old wage until March 31, next, by which time a new wage agreement for the ensuing year would be worked out in conference or by arbitration. Officials here are confident.

LOST HUSBAND BECAUSE SHE BOBBED HER HAIR

MOUNT VERNON, N. Y., Aug. 25.—The question of "to bob or not to bob" as applied to women's hair came up today at police headquarters, when Sergeant Wrenn was appealed to by an attractive young matron of Tuckahoe, for a guard to accompany her home while she packed her clothes.

"My husband has left me because I bobbed my hair," she said. "Will you help me? I am afraid to go back home for my clothes without an escort because I fear my husband may come in and beat me. He was awful mad over my having my hair bobbed."

Sergeant Wrenn, after getting the long and short of the situation, told the young woman to go to the Tuckahoe police.

TROTTER GETS DIVORCE

Absolute Decree Granted Nationally Known Evangelist at Grand Rapids

GRAND RAPIDS, Mich., Aug. 25.—Judge Major L. Dunham of superior court today awarded a decree of absolute divorce to Melvin E. Trotter, city resident of the Grand Rapids City Rescue mission, and nationally known.

14 WOMEN TO ONE MAN ON ISLAND

Capt. Olsen of Wrecked Ship Tells of Sunny Coral Isle in the South Seas

Population of Tagawa Consists of 190, of Whom 12 Are Men

HONOLULU, Aug. 25.—(By the Associated Press).—A sunny coral isle in the South Seas, where lazy palms fringe the coast and the women, young and beautiful, outnumber the men more than 14 to 1, where 30 cents lasts a month. This is the story told by Captain J. A. T. Olsen, of the American schooner Henriette, wrecked July 15.

Captain Olsen and members of his crew are in Honolulu today with the British steamer Hauraki, which picked them up.

GOING TO CAMP DEVENS

Lowell, Lawrence and Haverhill Companies Will Mobilize at Armory Tonight

Three companies of the Massachusetts National guard will leave this city tonight at 8 o'clock for the state armory in Westford street for Camp Devens where they will begin a 15 days' training period tomorrow with other units of the 151st Infantry.

In addition to Company M, which is made up of Lowell men, Company K of Haverhill and Company L of Lawrence.

LIEUT. GEORGE D. CROWELL

rence will mobilize at the armory. The Haverhill and Lawrence companies will come over the road in auto trucks and are scheduled to arrive here shortly after 3 o'clock.

Company M will be commanded by Lieut. George D. Crowell and will include about 70 men and officers. Last night the baggage of the company was taken to Camp Devens in two large army trucks. The trucks returned late last night and are to be held here until tonight.

This morning the advance guard of the company was delegated to the Ayer cantonment. It consisted of a

SAYS BREAK WAS INEVITABLE

Head of Eastern Strike Conference Announces Peace Negotiations Broken Off

Says "If They'll Quit Fussing Around We'll Beat These Fellows"

NEW YORK, Aug. 25.—(By the Associated Press).—Attempts to end the rail shopmen's strike by separate settlements with individual roads failed today and conferences were broken off.

Daniel Willard, of the Baltimore & Ohio railroad, head of the committee of executives who Wednesday decided to continue negotiations with the mediating brotherhood chiefs to see if separate settlements were possible, and other rail heads, prepared to leave the city.

In announcing the breaking off of negotiations, David Williams, secretary of the general strike committee of the Metropolitan district said nothing else could have happened. He added:

"If they'll quit fussing around we'll beat these fellows."

The break came after the brotherhood leaders, who right along have maintained that the strike must end, because the public demanded it, had spent two hours this morning with executives representing about 30 per cent of the country's mileage.

Shortly before noon, the brotherhood men left the Yale club to confer again at their hotel with the craft leaders, indicating they would resume the session with the executives in the afternoon.

WILL DRAW JURORS
There will be a special meeting of the city council tonight at 8 o'clock at which time jurors will be drawn. As far as is known no other business is scheduled for the meeting and it should be of short duration.

The three companies will pull out of here tonight at 3 o'clock and will be camped at a point one mile and a half this side of West Acton where they will make camp for the night. Early tomorrow morning the men will march on Camp Devens and will carry about 12 miles on foot. Company M roster follows:

First Lieut. George D. Crowell, 2nd Lieut. Frank J. Van Greenberg, 1st Lieut. James A. Tourtellot, Supply Sergeant, William H. Clarke, Sergeant, Alfred S. Gagnon, Sergeant, Herbert A. Dixon, Sergeant, Robert J. Conley, Sergeant, George J. Nash (Mess Sergeant), Sergeant, Porter, Sergeant, Albert A. Home, Sergeant, Allan Angus, Corp. Hugh T. Campbell, Corp. Louis Leonard, Corp. Harold T. Sullivan, Corp. Malcolm P. Fryer, Corp. John E. Fitzgerald, Corp. William P. Bourke, Corp. William Jones, Corp. William Tighe, Privates, first class: Eugene L. Aitchison, first class: Andrew J. Heardon, Peter T. Riley, Edward J. Heardon, Privates, Paul X. Abbott, William Akrigg, Guy A. Bixby, James H. Boland, Gerald Brown, Melville Cheney, George Higgins, Frederick J. H. Curran, Curry, Lester Doherty, Philip Dube, John F. Foley, Georges Chlapantou, John H. Hanley, Charles, Frank C. Hill, Charles J. Lohel, John G. Lawrence, Joseph A. Lavoie, Nanney C. Marshall, William W. Marzee, Joseph A. Moran, Daniel W. Nowell, James H. O'Donnell, John H. Quinn, Francis G. Reeves, Frank J. Rutledge, Walter Schaefer (bugler), William Todd, Harry L. Wadsworth, Arthur White (assistant cook), Henry J. Wilson, Frank Peterson, George Primeau, Alfred E. Aldrich.

LOWELL BOY CITED FOR BRAVE ACT WITH BATTERY B

Wilbur Doherty Saves Life of William Gannon During Review at Camp Perkins—Local Commander Receives Citation From Headquarters of Artillery For Him

Utterly disregarding his own personal safety and realizing that a comrade, pal and buddy was in danger of possibly losing his life and powerlessness to protect himself because of his unconscious condition, First Class Private Wilbur H. Doherty, 64 Nichols street, youthful member of Battery B, risked his life, like a true soldier that he is, when he rescued William J. Gannon, 250 Middlesex street, from under the feet of galloping horses. The incident occurred on August 14 while Battery B was in training at Camp Perkins in West Barnstable, during a review before the governor, but the aftermath came today when Capt. George J. Falstaff, commander of the battery received a citation from the commanding officer of the 102d field artillery. In glowing terms the citation speaks of the heroism of the local boy in saving the life of his comrade. His is the highest praise that can be bestowed from the artillery headquarters, but in view of his act, which has caused a great deal of favorable comment from all quarters, the local lad may be further rewarded for his brave deed.

It was on a sunny afternoon that Battery B, together with the other battalions, came today when Capt. George J. Falstaff, commander of the battery received a citation from the commanding officer of the 102d field artillery. In glowing terms the citation speaks of the heroism of the local boy in saving the life of his comrade. His is the highest praise that can be bestowed from the artillery headquarters, but in view of his act, which has caused a great deal of favorable comment from all quarters, the local lad may be further rewarded for his brave deed.

THE FIRST PRINTING PRESS EVER USED IN THE UNITED STATES

A crowd of the curious gathered in front of the Sun building at noon today to view an antiquated but interesting printing press, the first ever used in the United States. It is the old Stephen Daye press and was brought to Boston in 1638 and set up in Cambridge. Later it passed into the hands of Samuel Green, whose descendants took it to New London, Conn., where it remained until 1773. It was then taken to Norwich, Conn. Five years later it was removed to Dresden, now Hanover, N. H. From there it was taken to Westminster, Vt., where on Feb. 2, 1781, it was used in printing the Vermont Gazette or Green Mountain Post Boy, the first newspaper published in Vermont. In 1783 it was moved to Windsor, Vt., and used for printing the Vermont Journal and Universal Advertiser.

The press was transported to this city from Norwich, where it was on exhibition earlier in the day. Accompanied by Mr. Arthur E. Ham, treasurer and director of the Boston exposition, which is the present destination of the place, the "primery" arrived in Lowell on Monday. A special Packard truck, donated for the occasion by the Packard Co., accompanied the press on its journey from Montpelier, Vt. The press will be on exhibition at the Boston house from August 23 to September 2. Mr. Ham has in his possession several extracts produced by the unique printing press, among them being a complete sermon preached in 1777 by Rev. Aaron Hutchinson of Pomfret, Vt., and also the first 33 numbers of the Vermont Journal, dating back to 1783-84.

Old-time pressmen who viewed the apparatus today said that it was a remarkable machine, being constructed wholly of wood and other metal. It was kept intact on the truck by means of rope and a hoisted casing, assuring its preservation over the lengthy 203-mile trip. These precautions were taken in view of the fact that this is only the second time in its history that the press has been taken from the state capital of Montpelier, Vt., where it is revered by the Green Mountainers as much as the Liberty bell of Philadelphia. The only other time it departed from its resting place was during the Jamestown exposition, and then unfortunately it was tampered with and broken to a slight extent.

It was expected that the truck, bearing its precious burden, would arrive at Mechanics hall about 1.30 this afternoon, where it will be immediately set up for the exposition to be held August 25 to September 2. This exhibit will be conducted under the auspices of the International Association of Printing House Craftsmen, whose organization is purely educational. Exhibitors and patrons are assured that it is not a speculative scheme for the enrichment of any individual, the sole purpose being to provide education to the industry.

Mr. Ham is especially grateful to Superintendent Atkinson for his generous assistance in detailing a staff of traffic officers to take care of the traffic during the time the press was on exhibition here.

PUSHING STREET CONSTRUCTION WORK

The work on street construction in different parts of the city is being rapidly pushed in order to get it as much on Moore street at the present time as possible of comparatively pleasant weather.

It is expected that the gank working on Moore street at the present time will complete its task of laying 1600 yards of granite blocks by the end of the week.

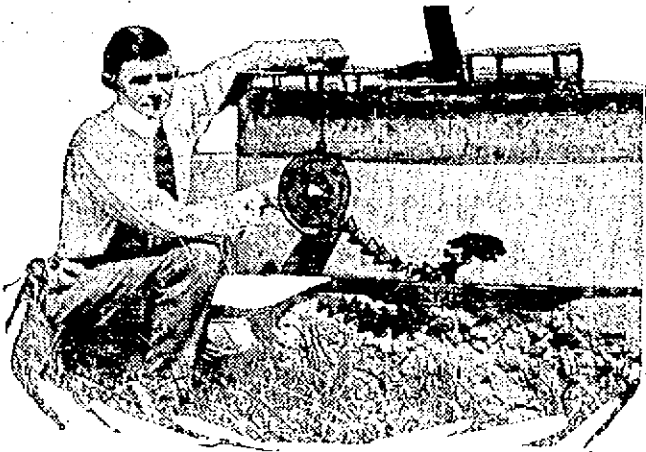

A large gang is working on the south side of Manchester street putting in a concrete road and with favorable weather the job should be completed by the first week of September.

As soon as the Moore street work is finished the men will be shifted back on to Chelmsford street. The Manchester street crew will be delegated to the laying of a new road on the north side from Windsor to Pine. While Pine street has been decided upon as the objective it is possible that the work will not be carried that far although every effort will be made to do it.

Work has been completed at the corner of Pine and Stevens streets, where several feet were cut from different properties in order to make a larger corner. There had always been a great deal of traffic at this point as it is right at a location where the turn from Pine into Stevens crosses. The turn from Pine into Stevens or vice versa was considered too short, especially after the new Pine street fire station was erected. With a long piece of apparatus quartered at the station it was necessary to make some provision for a rapid turn of the corner to enable the apparatus to get edgewise on the street quickly. The edgewise have also all been rounded off, a fact which adds to the usefulness of the corner.

No Compromise on German Reparations

PARIS, Aug. 25.—(By the Associated Press).—The negotiations in Berlin between the reparations commission and German government officials came to an end at noon today without having produced any compromise on the German reparations question acceptable to both the British and French representatives, according to latest advices reaching French official circles this afternoon.

TO PREVENT SEA DISASTERS

C. S. Henslee, Chattanooga, Tenn., has invented a device to prevent sinking of ships which have been rammed or torpedoed. With the model above he shows how a rubber-edged steel cap is drawn against the hole by the suction of the water, the row of cone-shaped cups acting as a guide.

DISTRIBUTION OF INCOME BY STATES

NEW YORK, Aug. 25.—Illinois with \$1,962,000,000 as the annual aggregate income of its citizens leads the north-central states, according to compilations which have been announced at the headquarters of the national bureau of economic research, New York. Illinois receives seven and one-half per cent. of the nation's income, a figure which is exceeded only by New York and Pennsylvania. Pennsylvania ranks

1919 a total income of nearly \$15,000,000,000, which was 23 per cent. of the income of the entire country. At the same time their population was exactly one-fifth of the total. As a group, therefore, their average per capita income of \$584 was somewhat higher than that of the whole country which was \$527, though less than the \$733 average in the eastern states, and the figure of \$736 enjoyed by the Pacific states.

The Middle Atlantic States, New York, New Jersey and Pennsylvania, taken as a group have over one-fourth of the national income. And with the north-central group and the New England states have more than one-half of the total.

The balance of income between that which is due to agriculture and to other sources is almost exactly the same in the east-north central states as for the entire country, about one-sixth. This means that as a group these states are practically self-sufficient in contrast, the eastern states get only one-third of their income from agriculture and must therefore depend upon food supplies brought from the west. The western states, and most of the southern states, get about one-third of their income from agriculture, and must therefore ship food extensively in exchange for manufactured products.

Detailed figures for the east-north central states show that while the aggregate income of Illinois was about \$1,962,000,000, or seven and one-half per cent. of the nation's income, Ohio came next, with \$1,957,000,000, then Michigan with \$2,552,000,000 and Indiana and Wisconsin with less than \$2,000,000,000.

The average incomes of the gainfully employed in these states varies as follows: Ohio, \$1148; Indiana, \$1234; Illinois, \$1539; Michigan, \$1752; Wisconsin, \$1543.

The average income of farmers in these states was: Ohio, \$1819; Indiana, \$1534; Illinois, \$2057; Michigan, \$1539; Wisconsin, \$1563.

Michigan was accordingly the only state in which the income of farmers, which included a return on property as well as labor, was less than the average income of the gainfully employed.

The highest average income of farmers is found in California with \$2485, and the lowest in certain southern and New England states, where it was less than \$1000.

These facts are shown in detail in the report on "Distribution of Income by States," which is especially designed to meet the needs of many investigators who are concerned with the comparative capacity of the various states to bear increased taxes, to buy goods of various sorts, in short securities, etc. It also undertakes to analyze the relative importance of agriculture in the different sections of the country.

Income as defined in this report is the money value of all the goods and services produced during the year. The sources on which the estimates are based are the income tax reports, census reports, wages data, reports of the department of agriculture and statements of corporations.

FILE CO. ANNOUNCES WAGE INCREASE
PROVIDENCE, R. I., Aug. 25.—Nicholson File company yesterday posted notices that the wages of the 1200 employees would be increased 15 to 23 per cent. beginning September 5. The plan, which has been on a five-day-a-week schedule, will go on full time after Labor day.

FUR AND FABRIC
An evening coat of fur has in place of green metal outlined cloth for rhinoceros and illustrates the popular method of combining fur and fancy materials.

CARLOAD OF BEER SEIZED

Agents Seek Signer of Writ Ordering Return of Beer to Canada

PORTLAND, Me., Aug. 25.—Federal District Attorney Frederick R. Dyer is seeking to ascertain who in the treasury department at Washington was responsible for the order signed "Camp" to the Canadian Pacific railway, to return to Canada a carload of beer, seized at Jackman on Aug. 4 by Customs Collector James A. Smyth, while being taken across Maine in transit by freight train from Montreal to Truro, N. S.

As the shipment was in violation of the provisions of the Volstead law, the 15 barrels of beer were labelled a week later by District Attorney Dyer at the instance of Collector Charles M. Sleeper. When Deputy U. S. Marshal Powers arrived at Jackman, a dozen crates from the border of the Province

of Quebec, he found the car had been returned to Shorbrook, presumably for reshipment through Canadian territory. The car had been set on a siding.

District Attorney Dyer went to Washington to ascertain by whose authority the order was issued and was assured an effort would be made to trace it.

IMPROVEMENT IN COAL PRODUCTION

WASHINGTON, Aug. 25.—Improvement in coal production will enable discontinuance by next Monday of the specific priority system under which the federal fuel distribution committee has been moving coal between designated places. It was announced yesterday by Secretary Hoover.

A certain percentage of Great Lakes shipments, Mr. Hoover declared, will still continue to move under the special priority orders, but the needs of New England will be cared for under the regular priority classifications which will be continued at least for the present.

Mr. Hoover said "the most dangerous stage" in the coal strike situation

had passed except for anthracite, for which he declared there would probably have to be considerable substitution by hard coal users next winter.

Mr. Hoover expressed the belief that bituminous production during the present week would be at least six million tons as compared with between 3,500,000 and four million tons a week the previous four weeks; that next week production should reach seven million tons and that within a week or 10 days the daily production should reach about 8,000,000 tons weekly.

Mr. Hoover declared, however, the country obviously was faced with a shortage of usable freight cars, which shortage may be expected to become acute in about a month, although meanwhile it was believed a great deal of coal could be removed.

COTTAGE BURNED ON WILLOWDALE ROAD

Flames bursting from every window of J. A. Leighton's summer camp, on the Willowdale road, near Lake Massawippi, called the attention of nearby campers to the spot last evening shortly after 9 o'clock and although a

500 SEE WOMEN FIGHT FOR LOVE OF MAN

ROCHESTER, N. Y., Aug. 25.—Approximately 500 persons formed a ring in which two women, Ellen Closson, 36, and Sadie B. Palmer, 32, fought with bare fists for the love of a man. The man, a witness of the fray, is said to have told the contestants he would throw his affections to the winner.

Both women were arrested and fined \$10 each in city court yesterday.

hurry call for the fire apparatus was sent in its arrival found the conflagration beyond control. The cottage burned to the ground.

Mr. Leighton owns a number of cottages in the vicinity of Willowdale. Although it is known that the camp had been rented this season, it was impossible to learn whether or not there were any occupants at the time the fire broke out. The origin of the fire is not yet known.

TWO FACED

Is a slender adjective when it applies to anything but ribbons. Then it brings up visions of gorgeous trichia combined with grey, red with black and turquoise with rose and navy with green. Flapper bows, they measure a "scent" two yards, are made of these two faced ribbons and brighten up one's sweater considerably.

THE LEISURE CLASS

Includes not only vacationists but everyone who can spare up a few idle hours during the week for embroidery. Luncheon sets are the simplest things to embroider and those that are applied are particularly lovely for \$6c. The Art department is now on the second floor adjacent to the Beauty Parlors. And speaking of the Beauty Parlor

IT IS TO BE

Observed that the most beautiful woman in the world is never satisfied with herself, and that the most inconsequential male always is. A man glances into a mirror and is satisfied—but a woman looks long and longingly. A woman, though she be as beautiful as Cleopatra (and I've heard she was really beautiful) will accentuate the arch of an already alluring eyebrow, or powder an already ravishing nose.

AND SO

Wherever there are beautiful women, there is a Beauty Shop and when a store has a Beauty Shop it is paying a compliment to the women patrons for it pre-supposes they have complexions too fine to be neglected, hair too glorious to be forgotten, and hands too dainty to despise. We believe that our Beauty Shop on the second floor is one of Lowell's finest. The attendants are courteous and painstaking and they do their work well. Only a visit can reveal the resources of this extraordinary little shop. Call 6006 and make your appointment immediately.

HOLDING THEIR OWN

Ear-rings are still holding their own in popularity and will continue to do so for some months to come. Huge hoops and exaggerated ear drops have about equal call and crystal, pearl, and jet, alone or in combination, are the most popular materials in our Jewelry Dept. on the street floor.

BY THEIR LUGGAGE

You may know them. Discriminating tastes approve the superlative quality of our leather goods. Traveling Bags, Overnight Bags and Grips in our Luggage store on the street floor.

A VACATIONING

I would go far here is what I noticed. The girls have discovered a new way for curling their hair. Before you go in the water "do your hair up" in curlers—put on your bathing cap and then when you come out after having your swim— presto, your hair is all waved and nice and dry. Maybe this is old news to some of the young set, but in one of my mature age it seemed a mighty fine idea.

WASH IT

"Wash it in Ivory Soap" said the salesgirl in the silk department on the street floor who sold Mrs. Jolyco her new silk dress. "Why are you so sure?" asked Mrs. J. "Because," said the girl with faith enough to move a mountain, "I used Ivory for my face, I wouldn't use any soap for a silk blouse that wasn't safe for my face." After "listening in" on that conversation I was sold on the Ivory Soap proposition.

SHOP

You should take time to shop; there are so many things not mentioned in this little column that you will find in the store. Our sales force delight in answering questions and showing goods. We want you to shop about this store in perfect freedom.

CLAN GRANT MEETING

At the last meeting of Clan Grant, 131, O.S.C. with Chief James Fraser in the chair, the following committee was appointed to make arrangements for the annual Burns night: James McGowan, James Fraser, James Adams, Richard Murray, William Geddie, Jr., John Cunningham and William Russell. An invitation to be the guests of the Andover club on September 1 was accepted. It was announced that a bowling league will be formed for the winter season. At the close of the business session a social hour was enjoyed during which luncheon was served and entertainment numbers were given.

Champions of the City Playground League

Standing left to right: Brophy, 2b; Deagan, rf; Lawton, sub; John Grouko, coach; "Poke" Sullivan, 1b; Mann, cf; Joe Sullivan, lf. Front row, left to right: Sylvester, ss; "Jabs" Sullivan, c; "Lizzio" Murphy pinch hitter; Gorman, p; Plouffe (cat.), 3b. Center, Cochran, mascot.

After a most successful season on the diamond, the Walker playground baseball team has had its united efforts rewarded by being crowned champions of the city in the playground league, conducted under the auspices of the playground department of the park commission.

The Walker team's claim is undisputed, defeating, as they did, all the other teams on the schedule. Their consistency is attested to by the fact that they have won 14 out of 16 games played, being turned back by the North common team in a close game which ended in a 6 to 8 score, and the Moray which did the trick at 9 to 5. Both these aggregations were later defeated in a decisive manner by the Walkers.

Believing in the old adage that "in the morning dew," the champions

Prisoner Swims Shirley Gut and Escapes

BOSTON, Aug. 25.—Search was today being prosecuted throughout greater Boston for Albert Albridge, a negro, who escaped from Deer Island yesterday. Police believe that he swam Shirley Gut. A garage on Shirley Point, directly opposite the island, was broken into and it was believed Albridge spent the night there.

Two Acquitted in Scarpone Murder Trial

BOSTON, Aug. 25.—Two defendants in the trial for the murder of Michael Scarpone last winter, were found not guilty today by order of Superior Court Judge Dubuque. They were Salvatore Tornatore and Dominick Bontaro. No evidence was introduced at the trial to show that they were involved in the shooting.

STEINWAY'S WIDOW
WEDS WAR VETERAN

LOS ANGELES, Calif., Aug. 25.—Mrs. Marie C. Steinway, widow of Charles H. Steinway, New York piano manufacturer, and Capt. E. J. Lefevre, world war veteran, were married at Santa Barbara, Calif., a week ago today, according to a story published by the Los Angeles Examiner.

Their marriage, which was performed in the Santa Barbara mission, was said to have followed a romance of several years.

The bride came to California for her health several months ago and has been living at Altadena, near Pasadena, since her arrival.

Capt. Lefevre said he expected to be from 19 to 20 years of age, inclusive.

appointed military inspector at a Pasadena military academy and that he and his bride will remain in this state for a year or two. He was quoted by the Examiner as declaring: "The disparity in our ages is a thing that neither of us has thought of. Morally and sentimentally we are the same age. Love is as old as the world and as young as the morning dew. We love each other. We are very happy."

LINE AND ENGINEER CADETS
WASHINGTON, Aug. 25.—Examinations for appointment as line and engine cadets in the coast guard will be held in all principal cities on Sept. 25, it was announced today. Successful candidates will be given training at the coast guard academy, New London, Conn., during which they will receive pay and allowances of approximately \$1000 a year. Cadets must be from 19 to 20 years of age, inclusive.

TO WITHDRAW TRAINS TO
CONSERVE COAL

PORTLAND, Me., Aug. 25.—As a means of conserving coal, President James O. Quinn of the state chamber of commerce and agricultural league, has suggested to President Harding that he request the railroads to withdraw all passenger trains not absolutely needed. He sent the following telegram late last night:

"Owing to very serious effect upon our industries and suffering likely to our citizens to our householders from scarcity of bituminous coal, would it not aid if you requested railroads of the United States to take off all passenger trains not absolutely needed? The saving in coal would be considerable, and the inconvenience from this would be less serious."

LAWRENCE MAN
FINDS LOST CAR

With the idea of seeing what kind of movies they have in Lowell, George Lawrence, course of 227 Bruce street, Lawrence, came to Lowell last Wednesday night in his Ford roadster. Before his entrance to the movie emporium, he parked his car in the rear of the theatre. As the final fadeout flashed on the screen, George emerged from the theatre and looked for the driver. But alas it was not there.

He went to the police station and reported his loss and the night sergeant informed him that he would do all in

The Last Two Days

Of My Semi-Annual Sale
Balance of my spring and summer stock must go today and tomorrow

Six weeks ago, I bought this stock of high grade woollens at virtually my own price. I was skeptical at first about this purchase on the ground that I had a very heavy stock and couldn't afford to add more to it at that time. My sales for the past three weeks, however, have indicated my judgment in the matter. I have accomplished what I set out to do and to make it accomplish still more for me, for the remaining two days of this sale I have added a sample line of new Fall Suitings and Overcoatings, eighty-five patterns in all, new merchandise, heavy weights, at prices less than cost.

This is an excellent opportunity for my old customers to take advantage of the values which I consider to be the best ever offered in this city. Order your winter overcoat now and save ten dollars.

his power to find the lost car. Mr. Lawrence then took the lost car for Lawrence. An officer received a telephone call and was informed that it was Mr. Lawrence of Lawrence speaking. He said he had found his car abandoned on the Lawrence boulevard, near the Lowell line. He told the officer that the car was pointing northward at the time but the gas tank was dry as a bone. The car had been left by the roadside when the culprits discovered the gas was gone. As yet the implicated parties have not been apprehended.

Mr. Lawrence is happy, however, as he has his little old car back again. He can resume his touring now, and all is peaceful.

Bombs Hurling in Rail Strike

(Continued)

houses during the disturbances, said many shots were fired.

Earlier disorders at Jacksonville, Fla., were followed by dynamiting of the home of J. A. Williams, foreman in the Seaboard Air Line railroad shops and a member of the city council.

Following reports from a national guard officer, Gov. McCray of Indiana asked federal authorities to intercede in strike disorders at Garrett, Ind., where workmen were threatened their homes painted yellow and where bombs were discovered.

Striker Killed in Running Fight

Charges of murder were made against a negro commissary worker of the Atchison, Topeka & Santa Fe, at San Bernardino, Calif., where a striking electrician was shot and killed. The Santa Fe offered rewards for persons who have been guilty of recent bombings.

Proposals were made to United States Marshal McDonald by striking shopmen at Shawnee, Okla., to replace federal and company guards at railroad shops with strikers.

Missouri Road Will Not Yield

With the question of seniority the chief barrier to peace, officials of the Missouri, Kansas & Texas railroad declared they would not yield in their returning strikers. W. M. Whitenton, assistant chief operating officer of the road, said the M. & K. T. would re-employ men now on strike if they had not been guilty of violence but that they must return as new employees.

At the same time the Santa Fe announced at Topeka, Kas., that conditions had no improved it would be impossible to take back all strikers. The announcement said the road would take back only strikers who might be placed for, and that they must return as new employees.

Quiet was restored in the Chicago

Rock Island and Pacific yards at Herrington, following the shooting of a railroad guard by a fireman and a general suspension of work. State patrolmen were taking no part in road guards were taking no part in patrolling the yards. Although operations were badly crippled, passenger trains were kept running. Workmen agreed not to object to the presence of soldiers if company guards were withdrawn.

The cause of a minor wreck on the Chicago, Burlington & Quincy near Charleston, Iowa, had not been determined.

"Like Hats," Says Union Leader

NEW YORK, Aug. 25.—(By the Associated Press.)—"We are like hats; we can't see our way out"—thus did the chief of one of the big five railroad brotherhoods describe the position in which the running trades found themselves last night after their latest efforts to settle the great shopmen's strike, now nearing the end of its eighth week.

Yesterday peace negotiations centered on conferences between the brotherhood chiefs east and west and the executives of more than a score of roads representing approximately 80 per cent. of the rail mileage in the United States—conferences which were called to order after the Association of Railway Executives Wednesday had stoutly declined to yield on its seniority question, but some of its members had indicated an interest in a suggestion that separate agreements might be possible.

Although both sides professed themselves no nearer agreement than when they first went into conference, it was evident that the door to peace had not been entirely closed, for announcement was made that another session had been scheduled for today.

EARLY SETTLEMENT OF
NOVA SCOTIA STRIKE

SYDNEY, N. S., Aug. 25.—Hope of an early settlement of the Nova Scotia strike appeared bright today. Dr. Clarence MacKinnon, named by the United Mine Workers as an extra mediator, arrived this morning from the United States and conferred with the United Mine Workers, previous to the fourth session of the British empire Steel-United Mine Workers' conference late today.

COAL MINE PRESIDENT DEAD
PITTSBURGH, Aug. 25.—O. A. Blackburn, aged 60, president of the Pittsburgh Coal Producers' association, and one of the best known bituminous coal operators in the country, died today at his home here after a short illness.

ULSTER TO PAY TRIBUTE

To Call Off Important Racing Meet in Consequence of Funeral of Collins

BELFAST, Aug. 25.—A remarkable concession to the nationalist sentiment is seen in the decision of the Down Royal corporation, promoters of the Maze Horse races, the most important meeting in Ulster, to cancel the second day's program next Monday in consequence of the funeral on that date of Michael Collins.

Added significance is given by the fact that the promoters had previously declined to postpone Saturday's event, which 12 special trains are to be run from Belfast, will be held only four miles from the race track on the same day.

Dull Meeting Sept. 8

DUBLIN, Aug. 25.—The postponed meeting of the Dail Eireann will be held Sept. 8, instead of Sept. 7, as previously announced.

Scenes of poignant grief were evident as thousands of admirers viewed the body today, resting beneath the statue of O'Connell in the city hall.

The lid of the coffin was removed early this morning, revealing the figure of the dead general, bathed in the floodlight of six lamps that had been placed on a crucifix at his head.

The hall was heavily draped in black, accentuating the tragic picture of the steady stream of mourners.

Head of Collins' Slayers Turns

CORIK, Aug. 25.—(By A. P.)—Tom Hales, who led and accepted the responsibility for the ambush which killed Michael Collins, repudiated it yesterday, threw down his arms and offered to join the national forces.

Tom Hales is the brother of Sean Hales, a pro-treaty member of the Dail Eireann. The former has been a fierce opponent of the treaty, and it is not known whether his offer to join the nationalists will be accepted.

He and his sister on last St. Patrick's day set fire to the platform at Fingona where a demonstration in favor of the treaty was being held under the auspices of his brother Sean and Canon Cahalan, parish priest of Fingona.

Collins' Brother Captured, But Freed
The present change of front is regarded as significant and as giving point to the prevailing belief that the death of Michael Collins may not have

APPLE THIEVES TAKEN
TO POLICE STATION

Every year, with the appearance of apples and pears, complaints pour into the police station regarding the depredation of private orchards by Young America. An orchard has an appeal to a youngster that cannot be driven away. And then, the "old saying," "steal fruit tastes the sweetest" probably has something to do with it. In every section of the city, during the fruit season, the kiddos are seen trundling home, either with a large bag filled with fruit, or their wrists bulging out with a supply of apples or pears.

Only this morning the police machine drove up to the station door, and two scared youngsters emerged from its interior, accompanied by an officer. The officer carried with him the "evidence" in the form of 2 large flour bags, stocked with apples. After a warning talk, the youngsters were let go.

WEATHER BUREAU ISSUES
STORM WARNINGS

WASHINGTON, Aug. 25.—Storm warnings were issued by the weather bureau today for that portion of the Atlantic coast between the Delaware Breakwater and Eastport, Me.

A disturbance of considerable intensity, the bureau said, is north of the Great Lakes, moving eastward, and will be attended by strong southerly winds, shifting to southwest in the west tonight with squalls and clouds and showers.

It will pay you to get The classified adv. habit.

Radio-graphs

MAY SOLVE PERPETUAL MOTION PUZZLE

The perpetual motion puzzle may yet be solved.

Through the use of radio!

This is the ray of hope that may light inventors to realization of their fondest dream—a machine that, once started, would continue to operate forever, on its own energy.

Mechanical engineers have discouraged the invention of such machines. None that has ever been produced has proved successful. Either friction would intervene or there would be some other cause for a waste of energy which would mean a gradual decline in the instrument's motion.

The United States patent office has stopped even considering perpetual

RADIO REPLACES PARK BANDS

By N.E.A. Service
NEW YORK, Aug. 25.—The brass bands that have been entertaining fresh air seekers in New York's parks will soon see their last days. Radio will replace them.

This is one of the changes in public entertainment that has just been decided on by the city officials. It will be inaugurated when the new municipal broadcasting station is completed atop the municipal building. A room has been set aside for the studio and another for the transmitting station.

Alterations are being made also on the band stands of every park in the city. Instead of the music racks for the musicians there will be a recording set and loud speakers. In this way a single concert broadcast from the municipal building will be heard in all parts of the city.

When noted persons are received by the city, the ceremonies will be broadcast through this central station. At other times, official city news will be sent out.

EAVESDROPPERS ARE BARRED

Secrecy of messages by radio is said to be assured by the invention

of R. D. Duncan, Jr., formerly chief of the radio research laboratory of the United States signal corps. Duncan calls his invention the "superphone."

LONG DISTANCE RECORD

Summer radio didn't bother the ordinary operator, but the long distance, which was anchored at Columbia River Harbor, Astoria, Oregon, when he heard Atlanta recently. This is a distance of about 2400 miles. It is considered a record in radio telephony and is the more interesting in that it was made during warm weather.

It will pay you to get The Sun classified adv. habit.

8 p. m.—Selection by Haydn Male quartet.

RADIO 26 YEARS DEVELOPING

The progress of radio has not been so fast as its last year's development would lead people to believe. In fact, it has been even slower in gaining popularity than the automobile.

It was 26 years ago that Marconi succeeded in signaling without wires for a distance of 100 yards. For years before 1895 he had been experimenting on his father's farm in Italy. One year later he signaled nine miles and in two months increased the distance to 12 miles. In July, 1895, he signaled 20 miles and in 1901 his wireless message crossed the Atlantic ocean.

R. R. HEAD SENDS \$1000 TO STRIKE FUND

SALISBURY, N. C., Aug. 25.—Fairfax Harrison, president of the Southern Railway, has sent the personal check for \$1000 as a contribution to a fund to relieve suffering and want of women and children of the striking shop workers of the railroad at Spencer and Salisbury.

In a letter accompanying the check, Mr. Harrison declared he was "acutely conscious of the plight of women and children of the men who elected to suspend their bread winning and have nothing laid aside for the long pull."

MINIATURE STAGE FOOLS MEN

When vocal music was first broadcast by radio, the artists used to give the studio managers cause for worry. This would lead them away from the microphone into which they were to send their voices and the result would be poor reception at the other end.

To forestall this acting a clever manager hit upon the scheme of providing a miniature stage for the soloists. It is only a low wooden platform, but the singers feel more at home on it. At the same time the platform discourages them from moving about the room while singing.

1000 RADIO PATENTS

More than 1000 patents have already been issued by the United States patent office, covering new designs of materials connected with radio. Between 2000 and 3000 patents are pending. With this work ahead of the office for investigation and approval, the patent office is one of the busiest places in Washington.

EPWORTH LEAGUE

The monthly meeting and social of the Epworth League club was held Wednesday evening in the Central church. Dr. C. E. Spaulding of Worcester gave a stirring address on "Good Citizenship in Church Work." Games and a musical program were presented in the vestry after the meeting, and refreshments were served. There were 84 members present and the league represented were Highland Union, Centralville, Central and Epworthville.

quartet, "Only a Smile," Mrs. Gertrude Ford, soprano; "Forest Marmoset," Miss Helen Hare, pianist; selection by Haydn Male quartet, "Come, Summer, Come, Spring," "Spanish Caprice," Miss Hare; selection by Haydn Male quartet.

MAKES NEW RECORD IN MOTORLESS AIRPLANE

BERLIN, Aug. 25.—(By the Associated Press)—A new record for sustained flight in a motorless airplane was set yesterday by Herr Hentzen, student flyer of the Hanover Technical school, when he remained in the air more than three hours. The flight was made on the concluding day of the gliding competition, held in the Rhoen Mountains, near Gersfeld. Hentzen's machine landed 350 metres above the starting point.

Hentzen is the flyer who startled the world of aviation last Saturday by remaining in the air two hours and ten seconds, breaking all records by a considerable margin.

MISCELLANEOUS SHOWER

A miscellaneous shower given Miss Gertrude Hall of 673 Broadway last evening proved a great success, and a large number of her intimate friends were present to enjoy the occasion and shower the prospective bride with their good wishes. Miss Hall is soon to become the bride of Mr. A. J. Bailey of Amsterdam, N. Y. She received many rich and pretty gifts, including silver and glassware and linens. A mock marriage which proved successful took place during the evening. Misses Irene Wood and Elizabeth Perry acted as flower girls, and later entertained with feature dances. The pianists of the evening were Mrs. Martin McCarthy and Misses Loretta Whiteley and Eleanor

Reardon. Miss Lucy Alfano rendered several excellent solos. Mrs. Billie Wood had exclusive charge of the affair.

NAVAL RECRUITING

The local naval recruiting office, in the Fairbairn building is a busy place these days, where men between the ages of 18 and 30 are being accepted for the service. Upon signing up at the local office the men are sent to Boston for examination. If successful they are ordered to Newport, B. I., where they remain in training for eight weeks. They are then ready for duty at sea. W. A. McCarthy, a Lowell man, is now in charge of the local office, and he is busy on recruiting work. He is also having large posters put in Lowell, Lawrence, Haverhill, Newburyport and Amesbury.

It will pay you to get The Sun classified adv. habit.

LEGION CONVENTION

New Orleans Expects to Entertain Largest Gathering in History

NEW ORLEANS, La., Aug. 25.—(By the Associated Press).—"The Crescent City" is preparing to entertain the largest gathering in its history when 160,000 members of the American Legion and other visitors come to the Legion's national convention here Oct. 26-28.

With the tentative acceptance of the convention invitation by President Harding and Gen. Pershing, and the definite acceptance of Maj. Gen. John A. Lejeune, commander of the United States marine corps; Samuel Gompers, president of the American Federation of Labor, and Kenesaw Mountain Landis, commissioner of baseball, the Legion meeting will assume national importance. Convention officials also expect to entertain a famous marshal of France and other World war notables. Prominent among the distinguished guests will be 25 wearers of the congressional medal of honor, the highest award for bravery made by the United States.

President Harding has written convention headquarters that he will come to New Orleans if the pressure of public affairs does not interfere, and a similar message has been received from Gen. Pershing, who led the legion men in France and who was a guest at their national gathering in Kansas City last year. The visit of Gen. Lejeune will be of especial interest to legionnaires, since the marine corps leader is a native of Louisiana and was one of the most popular commanding generals in the American Expeditionary forces. The presence of Mr. Gompers at the convention is expected to develop closer relations between the legion and organized labor. Judge Landis is the father of a former service man and has spoken at legion gatherings in all parts of the country.

In preparation for the visit of the thousands of former service men, the convention committee has prepared an elaborate program of entertainment. Convention sessions will be held only in the morning, enabling delegates and visitors to participate in the festivities the remainder of the day.

The first American Legion national Olympic meet will be held at the convention. Legion athletes from every state will compete for national championships in track and field events, aquatic sports, amateur boxing and wrestling, golf and tennis. There also will be a national marksmanship contest and a tournament of professional boxers. A decision bout between Bob Martin, who won the heavyweight championship at the tournament staged by A.R.F. fighters after the armistice, and Capt. Roper, heavyweight champion of the service men who remained in America, will be one of the leading features of the boxing card. The legion bantamweight championship will be settled when Johnny Buff and Pat Moore meet in the convention ring.

Ranking with the athletic meet will be a naval show in the port of New Orleans and on Lake Ponchartraine. Dreadnoughts, cruisers, submarines and sub-chasers from all the great na-

"Sylpho-Nathol" Does More Than Clean

"Mother came over last week to make some of her famous doughnuts. No matter how hard I try, mine are never nearly so good. She saw me put Sylpho-Nathol in the scrub-water for the kitchen floor.

"Well, there's one thing at least about your housekeeping, Betty. I'll have to admit you do better than your mother did." Mother smiled, and that is the way you clean with Sylpho-Nathol. No wonder your home has such a fresh, healthy atmosphere."

Housekeepers today are no more thorough than they were in Mother's day, but they've learned that to keep a home healthful clean requires something more than soap and water and energy. They realize now, that dust and dirt are full of dangerous disease germs which get into cracks and crevices and must be destroyed. They know that unpleasant smells which develop so rapidly in sink drains and around plumbing and garbage receptacles and other hard-to-get-at places are unsanitary signals. They know that both germs and odors should be promptly eliminated.

Sylpho-Nathol does both these things quickly and effectively. It has none of the objections which housewives feel toward the use of ordinary disinfectants and deodorants. Sylpho-Nathol is 4 1/2 times stronger than carbolic acid; but it's as safe to have in the house as a cake of scouring soap. It cannot injure your skin nor hurt household things.

Sylpho-Nathol quickly dispels unpleasant odors, but its own friendly, pleasant smell doesn't linger.

Sylpho-Nathol is easy to prepare—just a teaspoonful in a quart of warm water makes a clean-smelling, pearly-gray solution that's ready for immediate use.

Sylpho-Nathol comes in four handy sizes, 15c, 35c, 55c and \$1.25. Most good grocers and druggists have it. If your hasn't, he can get it easily. Just ask for it by the name—"Sylpho-Nathol"—Adv.

val powers are to be on exhibition. Legion national officers are now making arrangements for ships to come from England, France, Italy and a number of South American countries. In addition there will be a flotilla of yachts and small pleasure craft on Lake Ponchartraine.

The United States navy will send a number of seaplanes from Pensacola, Fla. On one of the convention nights these planes will fly over the business district dropping flares and lights in imitation of the bombing raids made by the Germans over the American trenches and billets.

Memories of days in France will be revived by a number of New Orleans societies, which will combine in the presentation of a French carnival night. Stores will be labeled with French signs and the picturesque garb of Brittany, Normandy and other French provinces will be mingled with the black, blue and green of the veterans. Downtown streets will be illuminated by 28,000 electric bulbs and will be decorated with flags of allied powers, state seals and legion banners and emblems. Doughboys in search of former comrades will meet in impromptu reunions under divisional insignia flags to be hung over the streets.

Fifty thousand marchers and 100 bands are expected to participate in the convention parade. The legionnaires will march by states in the order of membership increase during the last year. To stimulate the attendance of bands from all states \$1750 in prizes will be awarded to the finest legion bands in the parade and \$350 will go to the best drum corps.

Col. Guy Maloy, superintendent of police of New Orleans, has announced that 1000 uniformed legionnaires will assist his police force in regulating the large crowds thronging the convention parade streets and the legionnaires will serve as provost guards in the business district.

The grant of a rate of one fare for the round trip to the convention by all railroads will augment the conven-

tion crowds, according to local legion officials.

Housing arrangements are being arranged with a view of accommodating 150,000 visitors. A special rate of \$1.50 a day without bath and \$2.50 a day with bath, has been granted by the local hotels. Pullman cities, equipped with the conveniences of a modern hotel, will be established by three large railroads to house approximately 14,000 legionnaires. The housing committee also is considering the

creation of a tent city and the placing of cots in halls and business properties. Thousands of visitors will be entertained in New Orleans homes.

MAN ASSIGNED BY T. R. TO ANANIAS CLUB, ILL

CHICAGO, Aug. 25.—Delaven Smith, publisher of the Indianapolis News, and vice president of the Oliver Typewriter company, was reported today to be critically ill at his Lake Forest summer home. Several blood transfusions have been made.

Mr. Smith took part in the Panama canal controversy with the late President Roosevelt and because of an editorial in Smith's newspaper, he was assigned by Mr. Roosevelt to the former president's famous "Ananias club."

"One day a druggist told me," says Peterson, "that Peterson's Ointment was the best remedy he ever sold for eczema. That you'll never make any money on it," he added, "because it heals so quickly that only a little ointment is used." All druggists, 35c, 60c, \$1, \$2.50, \$5.—Adv.

Reginald C. Vanderbilt Better

NEWPORT, R. I., Aug. 25.—Reginald C. Vanderbilt, confined to his Sandy Point farm with inflammatory rheumatism, is able to walk a little about the house today. His attending physician, Dr. Harry J. Knapp, has hopes of his patient improving so that he can be in attendance at the Newport horse show, of which he is president, the first three days of next week. Mr. Vanderbilt has telephoned a few friends reassuring them that his condition was not serious.

Wirth Guest of U. S. Ambassador

BERLIN, Aug. 25.—Chancellor Wirth was a guest last night at a dinner given by American Ambassador Houghton to the visiting American congressional delegation, which is leaving for Vienna to attend the inter-parliamentary union conference. Senator Spencer, of Missouri, proposed a toast to the chancellor. The congressmen later discussed the German situation with Dr. Wirth.

Midway and Bazaar Opens at Holy Trinity Church, High Street

VIEW OF SOME OF THE BOOTHS AT HOLY TRINITY CHURCH CARNIVAL

Following a very successful opening night at the midway and bazaar of the Holy Trinity church, held on the church and school grounds in High street last evening, Rev. Alexander Ogonowski, the pastor, assisted by the McAndrew brothers, who have just opened an art studio in Wilmington, was busy today planning for an even larger turnout tonight. Last night the friends of the church from the surrounding district proved their interest by their excellent patronage, and it is hoped that the threatening clouds will disperse before the opening time tonight and allow a continuance of the program until tomorrow evening, when the affair will be brought to a close.

The tastefully arranged booths, in the front and rear of the church, and in the wide spaces between, are calculated to attract the interest of the most conservative passersby. Two stands, topped with canvas of colorful material and surrounded by decorative streamers and other ornaments, which filled with their respective stocks of useful, dainty and appetizing articles, make a display such as is not often seen at an outdoor carnival, confined to so small a space. The limited area makes a number of enjoyable features, including merry-go-rounds and other large amusement enterprises, impossible. Still, Rev. Fr. Ogonowski and his committee are well satisfied.

A doll booth, with shelves adorned with pretty gowned, pluk checked and

hobbed-hair young ladies, to be taken away by the holder of the lucky number, is one of the first attractions to strike the eye. A china booth engrosses the attention of all who are interested in that delicate material, blankets and heavy comforters, just the thing for the rapidly approaching cold nights, are there in abundance for all who wish to "take a chance." The corn booth, Cat Game and Pop-Eye in the Bucket stand out prominently, and are the mecca of those who like that sort of midway attraction. Baskets, prominent in all carnival events for a year or two, are in profusion, in beautiful shapes and colors. An umbrella booth will be a center of curiosity tonight, and if cloudy weather prevails the racks will be depleted. Delicious chocolates in tasteful boxes, made according to the new in charge, by the best manufacturers, will cater to the palates of the lucky ones, and ice cream, frankfurts and tonic will be on sale for the benefit of all in search of refreshments.

The appearance of the booths, alone, counts for a great deal, and their arrangement could not be better. Plenty of room between each of them allows the assembly of great numbers of patrons at each booth without interfering with the business of those on either side. It is one of the most attractive showings ever seen in Lowell.

The feature of tonight will be the

same as at the first session, a sensational "Slide for Life" from the top of the school building. This is a thrilling, not to say hair-raising spectacle, and is expected to draw fully as much attention as on last night. The carnival will finish Saturday night, and judging from the generous sum accruing from last night's opening,

14 Women to One Man

Continued

ed them up at Tagawa, and is taking them to San Francisco.

And the captain's tale follows:

"Tagawa is the only habitable island of the Ellice group. Its population consists of 150 persons, of whom only twelve are men.

"Our schooner was swung off her course and onto Nukualili Reef by heavy seas.

"We struck at night and at dawn we tried for the shore. Before we hit the coral we saw native men pushing an outrigger canoe into the water and with their assistance we made shore in safety.

"Our coming was hailed with joy by the natives, who pass their existence in a state of isolation. The women outnumber the men, 11 to 1, or more, and some of them are beautiful. Their ages range from 12 to 15 years and there are only a few older.

"The chief of the tribe, a husky

the purpose for which it is being conducted will be realized almost in full. If rainfall fails to interfere, a new oil heating system is certain for the parish school.

All of the parish societies are united behind Rev. Fr. Ogonowski to make the undertaking an unqualified

success. The composite organization has chosen Joseph Krygowski as president and J. Swiderska as treasurer, and the following as heads of booths: A. Walukiewicz, Mary Jarosz, Anna Matysiak, M. Pacuta, W. Matyka, H. Morawski, J. Saurle, B. Kardys and M. Krzysztyniak.

of those aboard her and they picked up up.

"We were not worrying, for, if the Hauraki had not sighted us we would have been taken off the island by the London Missionary society boat which calls at Tagawa twice each year."

GIRLS' TRACK MEET

The standing to date in the incomplete girls' track meet for the playground championship is as follows: Greenhalge, 10; Shedd, 9; Butler, 5; Moody, 3; Varnum, 1; South common, 1; Aiken, 3; Fayette, 2; North common, 1; Lakeview, 1; Morey, 0; Washington, 0. The corrected winners of the 50 yard dash for girls from 12 to 15 years of age at yesterday's meet shows Miss

Queenie Douglas, first, and Evangeline Kearns and Alice Quinn, tied for second. Miss Douglas and Miss Quinn spotted the colors of the Shield playground, while Miss Kearns represented the Varium. The final events will be run off Monday at 9.30. The high jump, broad jump and relay races still remain unsettled.

"On our twentieth day on the island, Mate T. P. Benson sighted the masts of the steamer Hauraki. We put out in our boat and signalled repeatedly, finally catching the attention

of those aboard her and they picked up up.

AMUSEMENT NOTES

THE STRAND

If you are an Elk, or a friend of an Elk, or a friend of a friend of an Elk, you will want to see the motion picture of the annual Elk outing which is being shown at the Strand this week. Don't miss a treat that shows many well known local celebrities with their putting clothes on, having a real outing.

Mary Allen, Cullen Landis and Sylvia Bremer are among those in the all-star cast of "The Man With Two Mothers," and Viola Dana is shown in "Seeing Is Believing."

MERRIMACK SQUARE THEATRE

Only a few opportunities remain for Lowell movie lovers to see "Tenoid," Booth Turkington's famous story, now being presented on the screen at the Merrimack Square theatre. The picture closes its engagement tomorrow.

TO SUSPENSE BOXERS

ST. PAUL, Minn., Aug. 25.—Suspension of all boxers who appeared at Everett's Wednesday night on the ground that the program was illegal, will be recommended at the next meeting of the Minnesota state boxing commission. W. F. Sallor, secretary, said today.

Boxing bouts in Minnesota are permitted only at Minneapolis, St. Paul and Duluth, under the auspices of licensed clubs.

ORNAMENTS

Large cabochon ornaments, used singly and in pairs, are seen on many of the fall gowns and coats. They are jeweled, enameled or made of colorful compositions.

Trotter Gets Divorce

Continued

evangelist. He dismissed the suit for separate maintenance brought by Mrs. Trotter. He held Mrs. Trotter's charges

that her husband had been unfaithful and that he had treated her cruelly, had not been substantiated by evidence.

The court also held there was no evidence to substantiate the charges of Mrs. Trotter that her husband was the father of a child born in July, 1917, to Miss Florence Moody, secretary and bookkeeper at the Rescue Mission, or that he had "conducted himself with other women in an unbecoming manner."

The judge, in his opinion, declared he believed Mrs. Trotter was actuated in filing her suit for separate maintenance, by the fact that she never has been able to persuade the defendant to confess that he was the father of the Moody child. The court also asserted Mrs. Trotter charged her husband with acts of alleged cruelty that "at the time they were committed, if they were committed, were overlooked by her and not regarded by her as of any significance."

The court, in his opinion, holds Mrs. Trotter herself was guilty of extreme cruelty by circulating stories to the effect that her husband was the father of the Moody child.

As permanent alimony, Mrs. Trotter is given the Trotter home and an adjoining house, rentals from which amount to \$125 a month.

She is also given the furnishings of the Trotter home and \$5000 in cash. The Trotter estate is valued at \$85,000 or more.

Mrs. Trotter filed suit for separate maintenance several months ago and her husband countered with a suit for absolute divorce. The trial, concluded several weeks ago after continuing for more than a month, brought a denial by both Trotter and Miss Moody on the witness stand that she formerly was the father of Miss Moody's child.

Parliament of Industry Is Needed to Stop Strikes

America faces a fuel famine and high prices this winter because of a national coal strike. Transportation is badly handicapped and perishable crops are in peril as a result of a long drawn out American railroad strike. That's why every reader will have more than ordinary interest in this interview. Milton Bronner has obtained with Arthur Henderson in this interview Milton Bronner has obtained with Arthur Henderson in which this famous British labor leader outlines his plan for ending all strikes.

By MILTON BRONNER
LONDON, Aug. 25.—The possible remedy for the continually recurring clashes and disputes between capital and labor in democracies like America and England is—a parliament of industry. This is a carefully considered opinion of the Rt. Hon. Arthur Henderson, the most skillful leader the modern British Labor party has produced. A prominent leader in the trades union movement, a member of parliament, secretary of the labor party, a former member of the war cabinet, and the probable premier of Great Britain if the labor party wins parliament, his opinions on industrial matters are always given great weight. In view of recent coal and railroad strikes in England and similar conditions in the United States, I asked him whether there was any possible preventive of such troubles. "The problem of industrial unrest," Henderson said, "has been growing more acute during recent years. There can be no question of the workers

surrounding their right to strike. But it is a weapon that should not be used lightly or rashly. No stoppage of industry should take place until every peaceful means of arriving at a settlement has been exhausted. I believe that force in industrial affairs, by whomsoever it may be employed, is as futile in the long run as is force in international affairs.

Peaceful Progress Possible
"I believe it is possible to advance to higher stages of industrial organization by peaceful processes as I am convinced it is possible to attain a higher level of international life without recourse to war."

"Industry requires a peace to conduct. The workers cannot continue indefinitely the victims of severe unemployment, semi-starvation, low wages, domestic distress and social wretchedness."

"In my judgment the first step towards economic recovery and a betterment of the workers' conditions of life lies in the creation of some form

ARTHUR HENDERSON

of machinery capable of investigating and dealing with the problems common to all sections of industry,

which are the root cause of industrial unrest and conflict.

"Such a body is to be found in the establishment of a parliament of industry, representative of employers, workers, and the community's interests."

"It is not only desirable, but essential, that such a parliament should come into existence not on the initiative of the government but on the initiative of trade unions and employers' organizations. It should be an independent body without any connection with the state—though it might be deemed advisable later to seek recognition from the state and to obtain powers defined by legislation. Each element should have equal representation and be free to determine its own methods of appointing its representatives."

World Aid Program

"An industrial parliament would provide a mouthpiece by which new ideas can be expressed and an organization by which their practical application to industry can be worked out."

"Some of the questions of a general character to which it might direct its attention would be: the status of the worker in industry, insurance, the standard of life as affected by wages and hours, working conditions, holidays, industrial fatigue and hygiene, investigating new processes, devising better methods of organization, dealing with unemployment, nation, the compulsory life workers."

"It might devise ways and means of securing for the workers an adequate share in the proceeds of industry, and for inaugurating a multiplicity of desirable reforms."

"It could scrutinize and advise upon all legislative proposals affecting industry as a whole, and it should be ready, if its services were required, to act in a mediating capacity in the case of industrial disputes that might arise. It might also have powers of initiation and be able to submit agreed draft bills to parliament."

PRISONERS IN UPROAR

Yell, Rattle Tin Pans, Etc., When Organ Music Penetrates Prison Walls

NEW YORK, Aug. 25.—The reason for the overwrought nerves of the prisoners confined in the Bronx prison, causing them to yell, rattle tin pans and raise a regular din at very irregular intervals, has been traced by Sheriff E. J. Flynn. He declares that melodies of music from an adjoining theatre organ, playing continuously from eleven to eleven daily, are responsible.

The music could be heard only because of the peculiar acoustics of the prison's walls which permitted only bits of the music to penetrate. As to the quality of the melodies, Sheriff Flynn did not comment except to say:

"Nobody's going to torture my prisoners with half portions of music. It's all or nothing with me."

17 RADICALS TO FIGHT CHARGES IN MICHIGAN

ST. JOSEPH, Mich., Aug. 25.—While authorities of Berrien county today were arranging for the prosecution of 17 radicals arrested Tuesday in the woods near Bridgman, counsel for the alleged communists and members of the Workers' party, were busy building up the defense behind which they will fight the charges of syndicalism and conspiracy which the state of Michigan has made.

William Z. Foster, head of the Trade Union Educational League, arrested in Chicago, following the raid here, was at liberty under bond of \$5000, while Michigan authorities sought requisition papers to bring him here.

Each defendant is charged with two counts—violation of the Michigan syndicalism law and conspiracy against the government.

AGED MAN SHOT BY MAN HE BEFRIENDED DIES

STAMFORD, Conn., Aug. 25.—Edward Bailey, 72, shot Monday night by Hugh Moun, 69, whom he had befriended for twenty years by employing him on his place at Pound Ridge, in New York state, died early today in the Stamford hospital.

Moun is in jail at White Plains, N. Y., and will be taken into court to be charged with responsibility for Bailey's death.

PAINTERS' UNION
The Painters' union, Local 29, met last night in the headquarters of the Trades and Labor council and transacted much routine business. Brother George Fildes presided.

I feel like a different person since Resinol cleared away that skin trouble

"I had suffered from eczema so long, I did not know anything would overcome it, but the first time I used Resinol it stopped the itching, and now my skin is entirely clear."

This is the experience of those who have used Resinol. Resinol is a gentle, healing, and soothing skin treatment. It is a skin tonic and a skin restorer.

U. S. OPERATION OF MINES URGED

Sen. Walsh Wants Government to Operate Mines and Control Coal Distribution

Declares Much of Unrest in Country Due to Dilly-Dallying in Congress

WASHINGTON, Aug. 25.—Government operation of the coal mines and federal control of coal distribution in a manner as to prevent profiteering were proposed in measures introduced yesterday in the senate. Other developments in the coal and rail situation included:

Decision by the senate labor committee to substitute the Horah coal commission bill for the Winslow commission bill, passed Wednesday by the house.

Demand in the senate for prompt and drastic government action to end both the coal and rail strikes. Announcement by Secretary Hoover that within a week daily bituminous coal production would be sufficient for the nation's needs, but that the country faced a shortage of freight cars which would be acute within a month.

A suggestion by Chairman Borah of the senate labor committee that the authorities of other states would follow the lead of Governor Miller of New York, in dealing with their local coal situations.

A declaration by Chairman Cummins of the senate interstate commerce commission that congress, at its next session would take up industrial problems with a view to determining "what place unionism should occupy in the civilization of the United States."

A resolution empowering the president to take over and operate the mines was introduced by Senator Walsh, democrat, Massachusetts, after a long and heated senate debate, and was referred to the interstate commerce committee.

To this same committee was sent an administration bill offered by Senator Cummins proposing to create a federal coal distribution agency, which working through the interstate commerce commission, would control not only distribution of, but profiteering

in coal. Chairman Cummins called a meeting of his committee for Saturday to consider the administration measure.

The senate is expected to act first on the Borah substitute for the Winslow bill, which Senator Borah plans to call up today. It proposes a commission of five members to investigate the whole coal industry and make recommendations to congress.

Senate discussion, the first extended debate on either the coal or rail strikes, brought expressions from practically all senators present that in their judgment there was bound to be actual hardships and suffering from lack of coal this winter, even should the strike be settled immediately.

Senator Chandler, republican, New York, urged that operators and miners be given six hours in which to adjust their differences and that if they failed "it will be the duty of this congress to give the president full and complete authority to take over the mines and to operate them for the benefit of the American people."

Senator Leamont, republican, Wisconsin, declared that the situation with respect to both the coal and rail controversies was "so bad" that the public interest now justified "more than mediation."

"The president ought to be authorized to take over both the railroads and the mines and in his discretion to operate them," he said.

Complaining about what he characterized as the inaction of both the president and congress, Senator Walsh, Massachusetts, democrat, declared that much of the unrest in the country was "due to the fact that here we dilly-dally; here we never take action."

Demanding immediate action to relieve what he said threatened to be a desperate situation this coming winter, Senator Walsh warned that there was a "growing belief" among the people that in emergency like this they will be allowed to starve and die without relief from their government."

Vigorously defending the president, Senator Cummins declared that the executive had done everything in his power to bring about a settlement and to relieve the people. He added that responsibility for the failure to end the strikes rested neither with the

president nor congress, but that blame attached to both parties to the controversies. Both Senators Cummins and Borah asserted that the president had no power to compel an agreement.

Senator Nelson, republican, Minnesota, expressed the opinion that the "whole trouble" was "unionism." Replying, Senator Cummins declared that it ought to be a crime for employees to strike when the government undertook to adjudicate for them the justice of a dispute. He added that in his opinion this was a final remedy for such conditions as those now existing.

PLEATING
Accordion pleating is used to excellent advantage on many of the new frocks. It is used in the form of panels, deep collars and wide draperies and gives the long graceful lines so desirable now.

LESTER LACE
French luster lace is being exploited. It is made of pure silk, somewhat heavier in weight than Spanish lace. The designs are very bold and cubistic, and a high lacquered effect is achieved.

Toronto's Bad Boys,
Censorship and Morons

MARY ALDEN, FAMOUS AS THE MOTHER IN "THE OLD NEST," SHE SAYS HER MOTHER ROLE IN "THE HONDOBOY" WILL BE HER LAST.

BY JAMES W. DEAN
NEW YORK, Aug. 25.—More than 300 boys have been arrested for various misdemeanors in Toronto, Canada, in the past seven months.

The Ontario board of moving picture censors is held responsible for the kind of pictures shown in Toronto. It was to be expected that some members of the reform element would blame the motion picture for the sum of juvenile delinquency.

When picture producers put forth photographs that will appeal to the average adult intelligence and let the morons and what little pleasure they can in them they will have put a white flag in the hands of the censors.

Another fallacy in White's reasoning is that low intelligence means low morality. Many of the greatest geniuses of the various arts have been persons of low moral standards.

Considered solely from the standpoint of psychology the various stories concerning Salome, in word and picture, have furnished absorbing studies for those who please to class themselves as of high intelligence.

To the person of average intelligence, of normal moral standards, the story of Salome is disgusting in many of its phases.

Nazimova has made one of the most artistic pictures yet produced for the screen, using Oscar Wilde's story of Salome as the basis. The picture has not yet been released.

Censorship is feared. If White's plan were to hold, Nazimova's "Salome" would be shown only in highbrow theatres, on the assumption that the lowbrows wouldn't attend.

The truth of the matter is that Nazimova's "Salome" will appeal to the masses through its sheer beauty. Only the highest of highbrows will perceive the unwholesome aspects of it.

White is sitting too far from the motion picture industry to be entirely correct. The trouble with motion pictures is not so much that there haven't been different grades of houses for different grades of pictures as that producers of pictures have not recognized that there are different

RUTH CLIFFORD, ALTHOUGH ONLY 22 SHE'S A VETERAN OF THE SCREEN. HER LATEST ROLE IS IN "THE DANGEROUS AGE."

grades of mentality in the masses who see pictures.

Some enthusiastic statistical fool once said that the average intelligence of the American was that of a 14-year-old child and it was repeated by others as statistically enthusiastic and the motion picture producers believed it and made pictures for that average.

One Drink for Everybody in
the World on Hand in
California Warehouses

LOS ANGELES, Cal., Aug. 25.—One drink of wine for everybody in the world, or a pint and a half for every man, woman and child in the United States; or six and a half gallons for every person in California—that is how much wine is on hand in bonded wineries and government warehouses in California, Rex B. Goodsell, collector of internal revenue for Southern California, announced today. The figures do not include private stocks.

Production has exceeded withdrawals to such an extent that the supply is increasing at the rate of 2,452,542 gallons monthly, Goodsell stated.

Mr. and Mrs. Wallace Reid to Adopt Girl

LOS ANGELES, Cal., Aug. 25.—Mr. and Mrs. Wallace Reid expect to be presented with a bouncing baby girl soon, according to a petition on file in the superior court today, which asks the legal adoption of Betty Mummert, 3 years old. The child's parents have consented to the adoption. Mrs. Reid is known to the screen as Dorothy Davenport.

BRASSILL AGAIN WINS
ROQUE CHAMPIONSHIP

NORWICH, Conn., Aug. 25.—Gerald Brassill of this city repeated his performance of last year when he won the Roque championship of the eastern division of the American Roque association here last night. George Huott of Chicopee Falls, Mass., finished in second place.

C. B. Crowell of Brattleboro, Vt., was elected president of the eastern division of the association.

REAL ESTATE SALES

Ernest and Anna Bergeron Buy Bow-ers Street Property—Boston Men Buys Tewksbury Farm

Satome Rinar has sold his property at 25 Bowlers street to Ernest and Anna Bergeron. The property consists of a nine-room house with store and about 4000 sq. ft. of land. It is said that the price paid was in the vicinity of \$5000.

A 60-acre farm with a six-room house, barn and poultry houses located in Tewksbury and owned by Henegetta Lannor, has been sold to Morris Lysky of Boston. These two sales have been effected through the office of E. Gaston Campbell.

TOI MOORE ELECTED

MONTREAL, Aug. 25.—Tom Moore was unanimously elected to his fifth term as president of the Dominion Trades and Labor Congress today. E. M. Draper was elected secretary-treasurer for his 23d term.

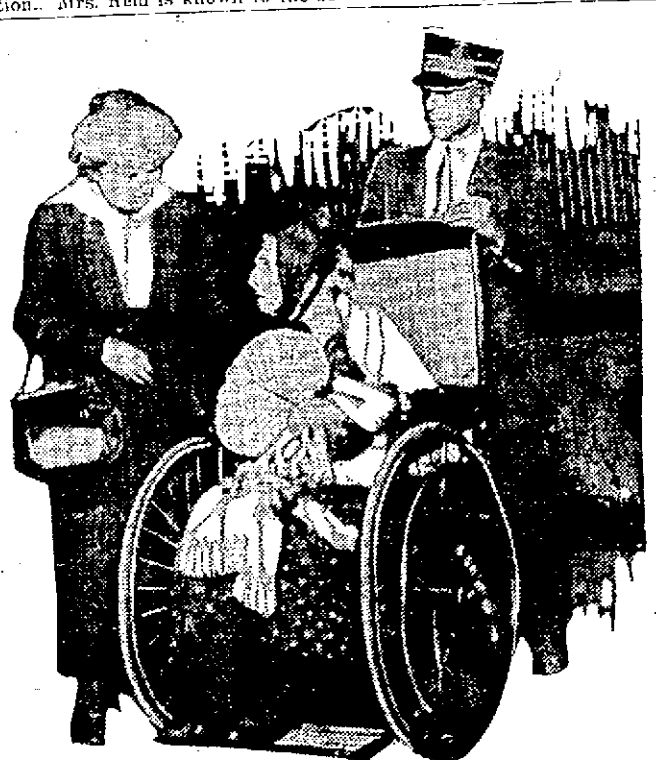

CRACK SAFE
AND TAKE \$310

SWAMPSCOTT, Aug. 25.—The door of a small safe in the office of the Texas Oil company here was blown off last night by burglars who took \$310. The office is in an isolated place and had been robbed twice before in a similar manner.

Autumn Millinery Shows Husbands And Fathers Have Hard Winter Ahead

THREE CONSERVATIVE YET SMART STYLES IN MILLINERY THAT EMBODY THE LATEST TOUCHES. THE MODEL ABOVE IS OF FELL, TRIMMED WITH PHEASANT FEATHERS. INSERTS SHOW THE POSSIBILITIES OF THE TURBAN.

BY MARIAN HALE

You can't tell what is going on inside the head of the modern woman, but what is going on outside is immensely interesting.

One glance at the new fall crop of millinery and you experience a sensation of deep sympathy for the fathers and husbands of our land.

They've a hard winter ahead.

The second look braces you wonderfully. You realize women have an unusual opportunity to look beautiful, hatted according to the new modes.

And you have a pleasantly thankful feeling that all the designers got together in a club, and decided to play no favorites and give everyone an even break.

Large, medium and small hats—they're all in evidence. Of course the large hat is attracting lots of attention because it is new, but it is in no danger, even temporarily, of totally eclipsing the small turbans so becoming and so practical.

The tricorne is back, after a period of retirement, softer and more yielding than formerly, but still with its perky, snappy air, gained by stiff feathers, tailored bows and upstanding cockades.

Velvet, satin, brocade, hatters' plush, duvetyne and felt are employed. For trimmings ostrich might be said to be in the lead, for it is shown very extensively in willow effects and in what milliners call "fancies."

Changeable ostrich is a novelty. Back trimming is a decidedly new feature. Big satin bows, colorful embroidery and fancy feathers are placed directly in the back.

Of course, the side trimming is

most general because it is most becoming. Nearly every woman favors one side of her face and this type of millinery co-operates to that end. Trimming is placed low and frequently is permitted to dangle off the brim. Sometimes feathers are wound several times about the crown before this is granted.

Burned peacock is a popular trimming; so hand-made silk and metal cloth flowers. Gold and silver lace are used to advantage to soften the line of the brim as is also the becoming black Chantilly lace.

Some fur is seen in trimming, but it is yet too early in the season to say what part it will play in the fashion drama.

But determine the line and type of your frocks before you buy your hats. Match your hat to your new winter silhouette.

SHORTAGE OF \$750,000

John Guild, Philanthropist and Former Treasurer of Sugar Factories, Confesses

HONOLULU, Aug. 25.—(By the Associated Press.) John Guild, philanthropist, leading citizen of Honolulu, and until a few days ago, treasurer of Alexander and Baldwin, sugar factories, and shipping and insurance brokers, has admitted a shortage in his accounts of \$750,000, and has told how it was done, according to an announcement today by the firm's directors.

Guild, they said, had duplicates of all statements, accounts and stationery used in the firm's offices here and San Francisco, New York and Seattle, which enabled him to manipulate the inter-office balances so as to extract surplus cash and cover up shortages.

Physicians attending Guild reported that he was recovering from the heart attack which menaced his life following the shock of publication of the charges against him.

The grand jury will be called in special session to consider the case.

from early morning until closing time in the evening.

Dows drug store is one of the best known drug stores in the city. Since way back in 1850 the name of Dows has stood out prominently as one of the great records of this city, reaching like a ladder from before the Civil war, each round of the ladder a year of service, a year of improvement, a year of growth. A few months ago when the plans were being formulated for the expansion and taking over of the entire corner on East Merrimack and Bridge street for Fairburn's market, Inc., arrangements were at once made to house the Dows drug store in the same building on the East Merrimack street side. The result is one of the finest and most up-to-date drug stores in this or any other city. Over 15,000 different items are carried. Registered pharmacists are in attendance, at all times. Quality and service, first, last, and always is the motto of the Dows Drug store and the one thing above all that proves the value of a record

will be given customers and visitors

OPENING OF DOWS NEW DRUG STORE

Tomorrow marks the formal opening of the new drug store of A. M. Dows in the Fairburn building, 12 Merrimack square, and in keeping with the event many souvenirs of considerable value will be given customers and visitors

GIRLS! WHITEN SKIN
WITH LEMON JUICE

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, which any drug store will supply for a few cents, shake well, and you have a quarter pint of harmless and delightful lemon bleach. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day, then shortly note the beauty and whiteness of your skin.

Famous stage beauties use this lemon lotion to bleach and bring that soft, clear, rosy-white complexion, also as a freckle, sunburn and tan bleach because it doesn't irritate.—Adv.

C'MON, C'MON, LET'S GO!

HOTEL MAN IN QUANDARY

Must Decide Whether Duke and Duchess Take Precedence Over Mint Director

SAN FRANCISCO, Aug. 25.—The management of the Hotel St. Francis here must decide by some time tomorrow whether a duke and his duchess and their entourage take precedence over the director of the United States mint. The hotel has a presidential suite with a private elevator, three bed rooms, a dining kitchen and servants quarters. Just now F. E. Scooby, director of the mint, and close friend of President Harding, as in the suite. His plans, it was intimated last night, included remaining in the suite for some time yet.

Tomorrow, however, the Duke de Talleyrand-Perigord and his duchess, who formerly was Anna Gould of New York, are to be here from the northwest and have asked for and expect to get the presidential suite. In the train of the nobleman and his wife, are many servants, much luggage and a pinkie pup, "Tanky."

Besides the suite, the hotel has been asked to provide for the noble entourage additional servants including a maid-in-waiting, a valet de chambre, and a barber. That is easy, the manager of the hotel says, but whether to ask the mint director out—that is not so easy, if proper.

DENIES KNOWLEDGE OF POISON PEN PLOTS

RENO, Nev., Aug. 25.—Objections on the part of his family to her activities as suffragist and society leader, and the fact that she is a divorcee, may stand in the way of her marriage to Asa G. Candler, Atlanta multi-millionaire, Mrs. Onezima de Bouchelle, formerly of New Orleans, admitted today. But she denied any knowledge of poison pen plots designed to break off the match.

Mrs. De Bouchelle said that members of the Candler family, including Candler's brother, senior bishop of the Methodist Episcopal church, objected on religious grounds.

"I am a Catholic and a divorcee," Mrs. De Bouchelle said. "I have been in society and have been a suffragist leader. Bishop Candler does not approve of any of these things."

Sweeping Investigation

NEW ORLEANS, Aug. 25.—Identity of two or more persons socially prominent in New Orleans, who are alleged to have "intermediated" in the affairs of Mrs. Onezima de Bouchelle,

is the success behind them "Dows remedies, all of them, have had unqualified recommendation from the people of Lowell. Direct entrance from the store to the elevator in the Fairburn building leads to offices of doctors, dentists, lawyers, etc.

It will pay you to get The Sun classified ad. habit.

local club and social leader, whose engagement to Asa G. Candler, of Atlanta, was recently announced, are expected to be made public within the next few days.

This information was included in a statement authorized yesterday by Harold A. Moise, a local attorney said to have been retained by friends of Mrs. De Bouchelle to identify and prosecute the authors of several "poison pen" letters alleged to have been sent to Atlanta, bearing a New Orleans postmark, in an effort to slander the New Orleans woman.

It was announced that a sweeping investigation, participated in by private detectives and postal authorities, had been concluded.

Two Strong Candidates to Succeed Alexander

VIRGIL CHEEVERS AND (INSET) ANTHONY STUELAND

By BILLY EVANS

Grover Cleveland Alexander's mighty right arm will not last forever. Nobody knows this better than Bill Killefer, who caught the Cornhusker's mystifying shoots during their youthful days and who's now said Alexander's manager.

As director of the Chicago Cubs' destinies, Killefer is looking into the future—he is looking for another Alexander.

Of course, pitchers of Alexander's quality don't grow on trees. In quest of the great hurler's successor, or of pitchers who promise to come within a mile or two of him, Killefer is "prepping" certain youngsters.

BOXING AT CRESCENT RINK TONIGHT

Boxing, which has been on the shelf locally since last June, will be resumed here tonight when a mammoth carnival will be staged at the Crescent rink for the benefit of the striking railroad shopmen.

The card arranged for tonight is one

Two Strong Candidates

Baseball experts believe he has two worthy candidates in Virgil Cheever and Anthony Stueland.

This is Cheever's second season with the Cubs. Stueland arrived little more than a month ago.

If Cheever isn't careful he not only will be classed as an Alexander No. 2, but he may also find himself coveted by John J. McGraw.

In one recent series between the Cubs and the Giants Virgil performed the feat of leading the New Yorkers in the first and fourth games. In those 18 innings he allowed the world's champions only two runs and eight hits. He won the first game, 3-2, with four hits, and the second, 3-1, with four more.

That should furnish abundant entertainment for the fans. All the local notables, with several high class out-of-town performers, have volunteered their services, and in all seven bouts are expected to be put on.

The rink has been donated for the occasion and "Duke" Dodge, promoter of the Moody club, is assisting the strikers' committee in every way. He will team up the "talent," and will also have his "cut" on hand, to help with other details.

Among those expected to appear are Philmy Boyle, George Brooks, Benny Nelson, Billy Murphy, Jimmy Dennis,

Looking For Youth

With Phil Douglas already in the discard, Fred Toney gone and Jesse Carner, growing wrinkles, McGraw, like other major league managers, is looking for youth.

His attention turned immediately toward Mr. Cheever when that fastidious beat him twice in four days. Cheever is capable of these iron-man stunts. He is built along the lines of Ed Walsh, which speaks for itself.

Stueland, living mostly in the bullpen and on the bench, broke into the National league season with a pop. He opposed the St. Louis Cardinals in his first game, beat them 6-0 and strung six strikes around Rogers Hornsby's neck the first two times the league's premier son of sweet feed him.

Mike Castle, Johnny Nelson, Billy Nelson, Frankie Hendert, Tommy Moran and Martin Flaherty, Jr., Martin Flaherty, Sr., a licensed referee, has consented to officiate as third man in the ring for all the bouts.

The first bout will go on about 8:15, p.m. All those who attend the Twilight league game, ample time to get to the rink for all the numbers.

MOORE ALL STAR TEAMS

A fan, who signs himself Charlie Moore, sends in his list of the best Twilight league teams. In his communication "Charlie" says he has selected the two lineups without prejudice and intentionally omitted Lofton, Spilane and Lawrence because they are not bona fide residents of Lowell.

The selections follow:
First team—J. Liston, Y.M.C.A., of Gleason, Broadway, 17; Tyler, Centralville, 1b; Cawley, Y.M.C.A., 2b; Bridgford, 1b, D.; cf; Duffy, K. of C., 3b; Crowe, K. of C., ss; Sullivan, 11, D., cf; Peterson, Mues, p.
Second team—Buckley, Centralville, cf; R. Jenkins, Y.M.C.A., 1b; Greenblade, 1b, D.; Daley, K. of C., 2b; Freeman, 1b, D.; cf; Green, 1b, D.; 3b; Smith, 1b, D.; ss; W. Foye, Centralville, cf; Cawley, Y.M.C.A., p.
And still another All-Twilight league team has been suggested by a fan named "H. follows: W. Foye, cf; Peterson, 1b; Tyler, 1b; Williams, 2b; Green, 3b; Cawley, ss; Gleason, 1b; Bridgford, cf; James Liston, 1b.

NEW BASEBALL RULE TO RESTORE OLD ROMANCE

By BILLY EVANS

Is baseball losing much of its color? If you are willing to take the word of many veteran managers and players, it is.

The veterans mean that romance has filtered out of the game and that it has become a hard, cold business proposition.

Recent deals by the two New York clubs have caused much comment. Some of the fans feel that the magnitude with the biggest bank roll can command the best team in these modern days.

Such a feeling makes the fans think that color, or romance, or sentiment, is fast drifting out, and the sports becoming a highly commercialized institution.

I understand the American league is thinking seriously of putting through a rule that will make it impossible to trade or buy star players during the actual playing season.

Does Seem Drastic

On the surface that may appear too drastic a measure, yet I am sure the fans would welcome it. Incidentally it would react to the credit of the game and kill off some of the feeling that now exists relative to commercialism in the sport.

Now, when some major league club buys a star player the fact is widely heralded, but the dollar mark plays the most prominent part in the publicity given to the minor league star.

Last fall New York paid the San Francisco club \$25,000 for Phil C. O'Connell. It was the biggest price ever paid for a minor league star, a fact much dwelt upon. In reality it was about the only news given to fandom concerning O'Connell.

Recently the Chicago White Sox management paid \$100,000 for Third Baseman Kamm. The fact that Kamm cost more than O'Connell was the news that was spread over the country.

High-Prized Beanties

No dope of any account was broadcast about the habits, hobbies or the unusual ability of the players concerned. They were simply high-priced beauties.

In striking contrast to the cases of O'Connell and Kamm is that of Cobb, when he broke into the majors it was not through the dollar mark sign, but because he did things differently.

When Cobb came to the American league columns were printed about his easy antics on the bases and at the bat. As a matter of fact, Cobb attracted attention from the Detroit club in a most unusual manner.

Got a Good Laugh

Here is a story that is credited to the late Herman Schaefer and Owen Navin of the Detroit club. It was back in 1905 when the Tigers trained at Augusta, Ga. Navin was with the club.

"Say I got a big laugh for you here," said Schaefer to Navin.

"What's the laugh about?" asked Navin, and Schaefer explained.

"They have a crazy kid on this Augusta club that will give you enough laughs to last out the season. He tries to stretch every single into a double and every double into a triple. He starts for second when the pitcher is holding the ball. He bats with two strikes on him. In fact, he does everything differently from every other ball player."

Navin watched the crazy kid that afternoon. At the close of the season he bought him for \$750. That kid was Tyrus Raymond Cobb.

Alex. Chase, Johnson

Cobb's case is remarkable, but no exception. Alexander cost the same amount of money; also Ital Chase; Walter Johnson was picked up for practically nothing.

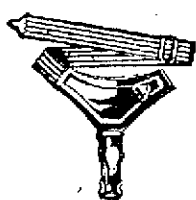

There is still color in baseball, but the dollar mark as a publicity medium has it backed off the boards for the time being.

GOLF TOURNAMENT

BIRMINGHAM, Michigan, Aug. 25.—The western open golf tournament went into the final round today with the title apparently resting between Mike Brady, Oakland Hills professional, and Jack Hitchelson of Chicago.

Brady, easterner from the city, with a total of 311 for the 36 qualifying holes and Jack was trailing with 115.

PIVOT GAME IN TWILIGHT LEAGUE TONIGHT

The "crucial" game of the Twilight league season is on the card tonight when the Highland Daylights meet the K. of C. in a game which will settle or "unsettle" the championship of the league. If it settles matters, the first game of the inter-city series will take place at O'Sullivan park, Lawrence tomorrow afternoon, with the Highland Daylights and the Lawrence K. of C. as the contestants. If the K. of C. puts it over on the Daylights in tonight's game, the Middlesex street outfit will have to play off the tie with Centralville at Spaulding park tomorrow. Such a situation will, therefore, cause the postponement for one week of the Little World Series. The first game, in that event, will be staged in Lowell, the second in Lawrence and the third wherever the toss of the coin decides.

BOXING FEDERATIONS IN AGREEMENT

PARIS, Aug. 25. (By the Associated Press).—A contract has been signed between the French boxing federation and the National Boxing Association of America, whereby each body recognizes the other as controlling boxing in their respective countries.

The agreement binds the federations to recognize each other's decisions, regulations, suspensions and disqualifications, a delegate of each attending the meetings held by the other. The contract is signed by Paul Roussseau for the French federation, and Walter Laginger for the American.

others by his showing in the national junior title play in Boston.

The boy, who began his career of triumph when he was only in knee breeches, has gone right through the grade school, high school and sectional, junior, tournaments, winning from everybody he played with, until

In addition to the northwest championship he now holds the British Columbia junior and Washington state titles.

Young Marion and Leon de Turenne, former Harvard net star, are the Pacific International doubles aces. They will represent the Pacific northwest at the Longwood tournament.

FULTON-MISKE

BOUT TONIGHT

ST. PAUL, Minn., Aug. 25.—After having been postponed twice, the ten-round, no-decision bout between Fred Fulton, Minneapolis heavyweight, and Billy Miske, of St. Paul, is set for tonight at the local American association baseball park.

The fight will be one of the most important heavyweight affairs held here for several years and the winner is expected to obtain a bout with Jack Dempsey, world's champion.

Fulton and Miske met here in January, 1918, but Twin Cities sports writers disagreed on the verdict.

FOSTER'S LAST SEASON

BOSTON, Aug. 25.—Third Baseman Eddie Foster, of the St. Louis Browns, will not be at his old position next year. Before leaving Boston yesterday at the conclusion of the Red Sox series, he said that this was his last season as a regular player. Foster's services, however, will be utilized on the spring training trip as coach of the present plans of Manager Lee Fohl, the player said.

Coast Beauty Named Mascot Of Disabled Veterans

MISS PEGGY CONWAY

Special to N.E.A.
S.A. FRANCISCO, Aug. 25.—"They came, they saw, she conquered." Which explains in a nutshell how Miss Peggy Conway was selected as the mascot of the Disabled American Veterans of the world war for their next convention at San Francisco. Miss Conway was one of their hosts. Her pretty face and her winning smile worked their usual havoc with the hearts of the impressionable veterans. Besides Miss Conway had something more than a pretty face to recommend her. She had the will to devote her abilities to the entertainment of the disabled "vets." Her record since the war has been one round of service in the amusements and aid of the wounded soldiers in the hospitals around San Francisco. Her selection as mascot of the Minneapolis convention was the fitting reward for her long period of willing work.

SENTENCED AND FINED IN LIQUOR CASE

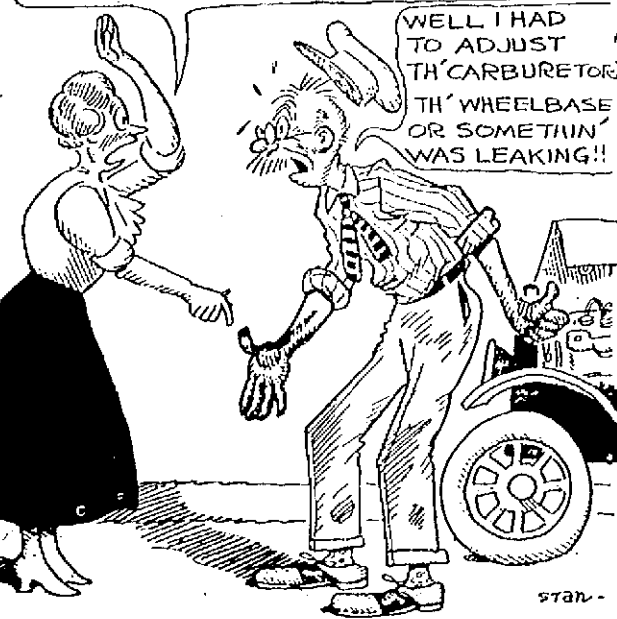

SALB, Mass., Aug. 24.—Captain William Louden, of the schooner Hawk, and William Meuse, a member of the crew were sentenced to one year in the house of correction and fined \$1000 each when they appeared in the district court today charged with keeping and selling liquor. Joseph Mitchell another of the Hawk's crew, was fined \$50 and John Smith, Howard Harding and his son Carl, were found not guilty. Louden and Meuse appealed. They were held in \$2000 bail.

The Hawk was seized off Magnolia on August 14, when an attempt was made to land liquor in a small boat. The schooner was pursued and captured but not before a large quantity of the liquor had been thrown overboard.

NEW HAVEN MAKES DENIAL.
NEW HAVEN, Conn., Aug. 24.—The New York, New Haven & Hartford railroad statement today says that its coal cars have not deteriorated since the shipmen's strike began and denies claims said to have been made by ship agents. On July 1, the New Haven road had 1343 home coal cars in bad order, the statement says, while on August 19, the last date for which figures are available, there were 1355 coal cars in bad order. These figures represent normal conditions, it was said.

STATE FUEL HEAD ANGRY Mlle. NAUDAIN-HUET

Says Coal Concerns Close to Federal Administrator "Getting Thems"

LANSING, Mich., Aug. 24.—(By the Associated Press)—Coal concerns close to the fuel administration are "getting theirs and getting it first," William W. Potter, state fuel administrator, charged in a statement today, following his return from Washington, where he endeavored to obtain a greater allowance of priority coal for Michigan. Following return of Potter, Governor Grosbeck made a statement sharply criticizing the federal fuel administration. When he was informed by Mr. Potter that the advisory board of the federal administration is composed of coal operators, the governor declared: "It is a strange state of affairs when an advisory board, composed of operators, is allowed to question the credit of the state of Michigan."

BRIEF BUT IMPORTANT WIRE DESPATCHES

CHICAGO, Aug. 24.—Walter Underins, unrecognized sculptor, 48 years old, bowed before the headless figure "winged victory" in the Chicago Art Institute, yesterday and shot himself through the head. One day before Underins said his last financial deal, for which he had given up his art after reverses and had taken work as a clerk.

CHICAGO, Aug. 24.—Funeral services for Levy Mayer, attorney, who died suddenly last week, were set for today. Mrs. Mayer, accompanied by her son, Lester, arrived at New York yesterday from Paris, where she was to have been joined by Mr. Mayer. Underins said his last financial deal, for which he had given up his art after reverses and had taken work as a clerk.

NEW YORK, Aug. 24.—Dr. Jesse K. Marden, of North Easton, Mass., has been appointed successor to Captain E. A. Tarrow, who recently retired as chief general of American relief activities in Armenia and Trans-Caucasian Russia, the Near East Relief announced today.

CONCORD, N. H., Aug. 24.—The first convention of promoters of a progressive, non-partisan, non-sectarian, this state opened here this morning with thirty delegates in attendance. W. J. Langley, secretary of the Central labor union president, after the appointment of committees, the convention adjourned until this afternoon.

NEW YORK, Aug. 24.—The Tobacco Products Corporation today declared a quarterly dividend of 15 per cent on class A stock, increasing the annual dividend from 6 per cent to 7.

NEW YORK, Aug. 24.—Notwithstanding the death of Alvin Karpis, Ireland will rise to the occasion and organize effectively to fight for the principles for which he fought, in the opinion of Professor Timothy A. Smiddy, who since last March, has been ambassador extraordinary and financial agent of Collins in the United States.

BOSTON, Aug. 24.—The Right Rev. Daniel S. Tuttle, presiding bishop of the Protestant Episcopal church, will ordain Rev. Dr. Charles S. Slaters, bishop coadjutor of the Massachusetts diocese on October 31, it was announced today.

CALL COAL INCREASE "LEGALIZED ROBBERY"

SPRINGFIELD, Ill., Aug. 24.—(By the Associated Press)—Coal mine operators in Central Illinois today announced they had increased the price of coal \$1.25 a ton.

The rise was followed by a protest from anti-trust officials of the United Mine Workers, who termed the increase "legalized robbery."

Green is the emblem of fickleness. A man's hand contains 25,000 pores. If you want to buy, sell, rent or exchange anything, try a Sun classified adv.

Grandniece of Lafayette Visits Lowell—Is 'Delighted With Auditorium'

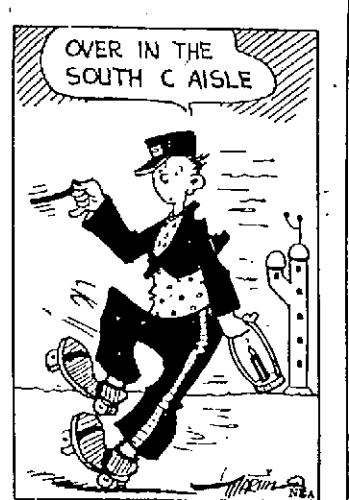

Mlle. Paulette Naudain-Huet, grandniece of the Marquis de Lafayette, a noted French soldier, came to Lowell yesterday afternoon, and visited the Auditorium. She is visiting friends in Lawrence and her presence here yesterday was due to the efforts of Joseph Mr. Dineen of 25 Oliver street. Mr. Dineen is a friend of the Lawrence family with whom Mlle. Naudain-Huet is visiting and the story leading up to her Lawrence visit is an interesting one, having to do with the World war. John and Charles Cronin of Lawrence served in France during the war and were entertained in Paris at the home of Mlle. Naudain-Huet, whose parents had turned over their chateau for use as a home for convalescent soldiers. The Cronin boys were so well treated that they invited their fair hostess to visit them at their home in Lawrence.

Some months ago Mlle. Naudain-Huet came to this country to study and having arrived here she determined to hunt up the Cronin brothers. Friends of her family accompanied her from New York to Lawrence and she says she is very much pleased with this section of the country.

Before going to the Auditorium yesterday afternoon, Mlle. Naudain-Huet called at city hall. The visitor expressed herself as perfectly delighted with the Auditorium, stating that it was one of the grandest buildings she had ever seen. Upon leaving the Auditorium she was whisked by auto to the Altration plant at the boulevard and later was the guest of the Lafayette club members at their outing in Tyngsboro.

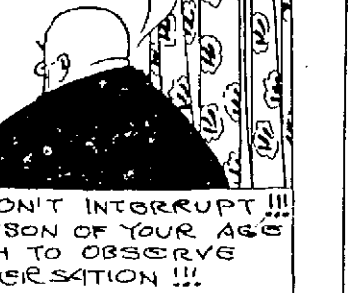

FERTIA HELD IN \$5000 SPRINGFIELD, Aug. 24.—Charged with passing counterfeit bills, Larry Fertia, arrested by secret service officials last night, entered a plea of not guilty before a federal commissioner today, and was held in \$5000 bail for a hearing Tuesday and in default of bail was committed.

LOCAL TEXTILE STRIKE

Hanley Looks for Early
Settlement — Bleachery
Employees' Meeting

John J. Hanley, chairman of the local textile strike committee, is very confident that within a couple of weeks all local grievances in the cotton mills relative to wage reductions will be straightened out and that as soon as the labor troubles are settled the mills will resume full-time activities. Mr. Hanley bases his contention on the fact that the officers and employees of the Pacific mills in Lawrence have opened the path to a settlement of all the New England textile strikes by reaching an agreement.

Mr. Hanley contends there are three big cotton mills in this city that have not reduced wages and there is nothing to indicate that they are going to take any drastic action along that line. He further states that orders are now coming in and that the operatives are seeking employment in the mills that are paying the old scale of wages. "The mills affected by strikes are not going to let orders slip away from them," he continued, "so that in order to keep busy they will be forced to follow the action of the Pacific mills in restoring the wage cuts, and this will have to be done in the very near future. The Fall River and New Bedford mills are all busy day and night and reports from other New England textile centers indicate that business is rushing, so that in justice to their stockholders, their operatives and the public at large, the Lowell cotton mills that have reduced wages and that are crippled through strikes, will soon have to fall in line. From various points of the country, word is coming of an increase in wages, which is an indication of prosperity."

Last Night's Meeting

Presidents and representatives of the various unions affiliated with the American Federation of Labor met in Trades & Labor hall last evening, to discuss ways and means of assisting financially the textile strikers. The meeting, which was largely attended, was held under the auspices of the Trades & Labor hall and was presided over by Mr. McCann of the Carpenters' union. Plans were formulated for a boxing exhibition to be given in the near future for the benefit of the strike fund and a committee was appointed to make arrangements. The local strikers were assured from various angles and it was announced that \$100,000 for the benefit fund to be held at Lakeview next Monday night under the auspices of the Street Carriers' union, were being sold throughout the city. It was also announced that arrangements will be made for baseball games for the benefit of the strike fund, to be held in the near future.

Organizer Thomas J. Reegan of the U.T.W. of A. returned from Ware today and this evening he will attend a meeting of the employees of the Lowell Bleachery, which will be held in Trades & Labor hall at 7:30 o'clock. The meeting will be a report of the conference held this week between employees of the mill and the treasurer of the company on the 12 1/2 per cent wage cut, which went into effect last Monday.

Alleged Strike Breakers

Some twenty or twenty-five men, who are believed to be strike breakers, have arrived in this city and have secured rooms in two Bridge street lodging houses and in a lodging house on North Main street. The men are in charge of a man who seems to be acting as foreman of the gang and it is he who is paying the room rent. It is said that some of the men are working, while others spend their time walking the streets. The foreman calls at the lodging houses every morning and pays the room rent for the men in his care for a day in advance. One of the lodging housekeepers stated today that yesterday the foreman paid a \$100.00 check on her, but inasmuch as she was unable to change it, she did not make any attempt to cash it out by whom it was signed.

Mayor Brown stated today that in accordance with a state law he will notify the state board of arbitration and conciliation of a strike existing at the Columbia textile company in Market street. The board, however, will not step in unless requested to do so by either party involved in the strike.

OLD FIRE TRUCK AGAIN PRESSED INTO SERVICE

When the old horse-drawn truck and ladder apparatus of the fire department came tearing through Merrimack square at 10 o'clock this forenoon many believed that a drowning accident had occurred, for it is freedom that the old rig is seen on the street unless it is responding to a bell alarm. As a result many followed it through East Merrimack street into Stackpole street, to find that it was responding to a bell alarm for a fire in the garage of the Sawyer Carriage company.

The fire had been smoldering for some time. It seems that a couple of days ago the smell of smoke was detected in the place, but all efforts to locate the blaze proved fruitless. When the firemen reached the premises they located the fire under the cement floor of the blacksmith shop of the plant and succeeded in putting it out before any serious damage was done. It is believed that the cement floor under the spring furnace became overheated and that the beams caught fire, but the lack of air prevented the blaze from spreading.

Lowell Boy Cited

Continued
tories of the first battalion, formed for governor's review. Every piece of equipment had been shined so that it glistened in the sun. Every man was inspired as only the prospect of a review can inspire them. Private First Class Wilbur C. Doherty was seated on a caisson. In less than an hour later he was being acclaimed a hero on all sides. But his modesty prevented him from pushing himself into the limelight and he made little of his act.

Was in Hospital
Asthma of a prancing lead horse sent Young William J. Gannon, who too, looking forward to the momentous moment when the battery would gallop by the reviewing stand. Little did he think that his young life would be risked ere he returned to dismount. But as every turned out the bravery of a common soldier, his life, though for five days following the accident he was confined to a hospital with concussion of the brain.

At the word of command from Capt. Panzer the battery moved slowly forward. At another command it broke into a gallop as it approached the stand. The battery was led by the state's chief executive, his military escort, and the staff officers of the outfit.

One by one the batteries galloped by the stand. Battery II, with its battle standard flying to the breeze, came up from the rear in a cloud of dust and whirled by the stand. Hardly had the horses turned from the turn of cry of horror come from the lips of the on-lookers. Young Gannon, riding a lead horse, had lost his balance and was hanging head downward, unconscious. The foot caught in a stirrup as he was dragged along the turf. Doherty, who was riding just ahead of the carriage, for a second displayed the strict enforcement of military discipline. He allowed his head to tilt just a bit. What he saw stirred him to immediate action. From the column of horses he saw the form of Gannon being dragged by the stirrup. He galloped forward. The other men were straining at his attempts to halt the maddened animals.

Jump at Horsem

For a fraction of a second Doherty hesitated. And then, with a leap, he was hanging himself headlong at the head of the on-rushing horses. He missed. Another cry went up from the ranks. Doherty was seen to fall face downward, right in the path of those death-dealing iron-shod hoofs. By a miracle the lad rolled over and with a superhuman effort jumped from the earth and again flung himself into the faces of the horses. This time his grip was secure. The horses were halted and Young Gannon, unconscious, was taken to the first aid tent. He was then taken to Cape Cod hospital, where he remained for five days. Although he was badly bruised and a bit maddened by his experience, he was able to return to his company when it returned here last Saturday.

Capt. Panzer immediately went in a report to headquarters, with his recommendations regarding the affair. This morning he received the following citation for Private Doherty:

"Headquarters 102nd, Camp Perkins.

Special Order No. 64.

1.—Private Doherty, Wilbur C. Doherty of Battery B is commended by the commanding officers for his quick action and disregard of his own personal safety in preventing serious injury and possible death of a comrade during a review ordered to Governor Cox and staff on August 11, 1922.

2.—After Battery B had passed the review point at a gallop the lead driver of one of the carriages lost his balance and fell between the horses hanging head down. Doherty, at the risk of his own life, leaped from the carriage, fell, and then, with a superhuman effort, jumped from the ground and threw himself at the head of the horses, bringing them to a sudden stop, thus saving serious injury and perhaps death to the driver.

3.—This order shall be read to all organizations in camp at retreat and at the next assembly of organizations in camp.

By order of COL. REEDMOND,
GEORGE W. DAVIS, Co. E,
Field Artillery Adjutant.

Capt. Panzer said that the citation would be read at the next battery drill in October. He explained the fact that it came directly from Camp Perkins by the fact that the second battalion is now in camp there.

MATRIMONIAL

The marriage of Mr. Stratton C. Norcross of Lakewood, N. J., and Miss E. Louise Putney of this city took place August 21 at Jefferson, N. H. The couple were attended by Mr. and Mrs. George W. Wigglesworth of Lancaster, N. H. They will make their home at 216 West Fourth street, Lakewood, N. J.

Stoveley—Merrill
The marriage of Mr. Morris Stoveley and Miss Vera Merrill took place Saturday afternoon at the home of the bride's mother, 330 Bridge street, the ceremony being performed by Rev. Mr. Keller. The bride wore white tulle and carried a veil caught up with a blue-of-the-velvet, and she carried a large bouquet of white flowers. The groom wore a tuxedo and carried a small bouquet of pink roses. The best man was Mr. Frank Stoveley, a brother of the groom. At the close of the ceremony luncheon was served and the happy couple left on a honeymoon trip to New York. They were the recipients of many beautiful wedding presents. After September 15 they will live at home to their friends in Middlesex village.

THE OLD HOME TOWN

RECOGNITION OF MEXICO IS IN "STATUS QUO"

MEXICO CITY, Aug. 25. (By the Associated Press.)—The question of recognition of the Mexican government by the United States is in "status quo," it was stated today by the Mexican foreign office.

The statement was made in denying reports received from the United States that President Obregon was expecting a declaration of recognition Sept. 15.

FUNERALS

RAMSEY—The funeral of Leo Ramsey took place yesterday afternoon in the rooms of Undertakers Higgins Bros. and proceeded to the North Street Methodist church where services were conducted by Rev. Neilan Day of Boston. There were several floral offerings. The hearse was Benoit Lambert, John Lee, Alozo Wiggins, William R. Williamson, James Briggs and James Thompson. The burial took place in Westland cemetery.

SOIZA—The funeral of Francisco Soiza took place yesterday afternoon from the home of his parents, Joseph and Maria R. Soiza, 47 Elm street. Services were held at St. Anthony's church, the prayer being read by Rev. John S. Perry. Burial took place in St. Patrick's cemetery. The funeral was in charge of Undertakers A. H. McDonough Sons.

CAIDELLA—The funeral of Alfonso Cardella took place yesterday afternoon from the home of his parents, Michael and Emmerich Cardella, 5 North Main street. Burial took place in St. Patrick's cemetery. The funeral was in charge of Undertakers A. H. McDonough Sons.

OSCOUD—The funeral services of Edwin A. Osgood were held yesterday afternoon, Rev. J. Harold Dale, pastor of the Congregational church, officiating. Burial was in the family lot in North cemetery at Ellingham, where the committal service was read by Rev. Mr. Dale.

HAWKINS—The funeral services of Mrs. Joseph H. Hawkins took place yesterday afternoon, Rev. J. E. Dismore of Lowell officiating. There were many floral tributes. Burial took place in the family lot in North cemetery at Ellingham, where the committal service was read by Rev. Mr. Dale.

HOND—The funeral of Mrs. Mary (Keating) Bond took place this morning from her late home, No. 1 rear of 62 Graham street. Leaving the house at 9 o'clock, the cortege proceeded to St. Peter's church, where, at 9 o'clock, a high mass of requiem was sung by Rev. D. J. Heffernan. The Gregorian mass was sung by the choir, with solos sustained by Miss Mary Ryan and Miss E. Donnelly, with Miss Gertrude Quinn at the organ. There were many floral tributes. Burial took place in the family lot in St. Patrick's cemetery. The funeral was in charge of Undertakers William H. Saunders.

WILLY—Died in this city, Aug. 23, at the home of his daughter, Mrs. William Merrill, 263 Concord street. Burial will be taken place Saturday morning from the home of his daughter at 9 o'clock. At 9 o'clock, a high mass of requiem will be celebrated. Burial will be in the family lot in St. Patrick's cemetery. The funeral arrangements in charge of Undertakers O'Donnell & Fay.

LOWELL DISTRICT COURT TO ENABLE LT. HINTON TO CONTINUE FLIGHT

Woman Fined \$100 for
Illegal Keeping of Intoxi-
cating Liquor

This morning's session of the district court was a short one, with a liquor case and several drunkenness cases comprising the short list. The number of drunks appearing before the court this morning was the largest in a long period.

A fine of \$100 was levied on Helen Kilbuck, who she was found guilty by the court, on the charge of illegal keeping of intoxicating liquors. In their testimony, the arresting officers said that they found, in different rooms of her house on Adams street, five quarts of mashine whiskey, a good sized still, a quantity of prepared mash, an oil-burning stove and a gas stove. While the officers were in the house, they said that several men entered and asked the woman for a drink, and that they found one man in a very much intoxicated condition.

The defendant denied that she was making the illicit whiskey for the purpose of sale, but for her own personal use. She also said that the officers lied when they said that men came into the house and asked for mashine. The court decided against her, however, and imposed the \$100 fine, as it was her first conviction.

A sentence of three months to the House of Correction, which was suspended for one year, was handed out to Hugh McGuire, William H. Quigley and John McDonough, who John E. Thornton and Talbot Cole received suspended sentences of six months to the same institution for drunkenness. Cole was ordered by the judge to leave his home, where he has been abusing his wife and children, and to pay his wife \$10 a week for the next two years. John Ward, who was fined \$15 when he was found guilty of drunkenness and was given two weeks to pay his fine.

FUNERAL NOTICES

RILEY—Died in this city, Aug. 23, at the home of his daughter, Mrs. William Merrill, 263 Concord street. Burial will be taken place Saturday morning from the home of his daughter at 9 o'clock. COAL PARLEYS TO BE REOPENED

These differences can be reconciled in
a new conference.

LEWIS REFLECT
PHILADELPHIA, Aug. 25.—Announcement came from those close to John L. Lewis, head of the United Mine Workers that he would have probably no statement to make today upon the possibility of the resumption of a truce between union representatives and those of the anthracite operators in the immediate future.

COAL LOADINGS INCREASE

WASHINGTON, Aug. 25.—Coal loadings Wednesday totaled 13,193 cars, according to reports received today from the coal-carrying railroads by the Association of Railway Executives. This was an increase of 337 cars over the preceding day and except for Monday, Aug. 21, when 12,043 cars were loaded, was the greatest number loaded on any one day since the strike of coal miners began April 1.

Two Mines Sign Scale

PITTSBURGH, Aug. 25.—Two small mines in the Pittsburgh district signed the union scale today. It was announced at the district office of the United Mine Workers.

Increased operations at mines opened under protection of sight troops were reported by the Pittsburgh Coal Producers' association.

Potter Reflex to Hoover

LANSING, Mich., August 25. (By the Associated Press.)—Replying to a telegram received from Herbert Hoover, W. W. Potter, state fire administrator, today declared that the people of the state of Michigan "do not owe the federal fuel administration a debt of gratitude for being without fuel supplies and being forced to pay profiteering prices for such coal as they can obtain in the open market."

Gov. Cox Sends Protest

BOSTON, August 25.—Governor Cox today informed Secretary Hoover by telegram that the diversion of soft coal from West Virginia to the western states was interfering with contracts here and increasing the prices of the fuel on this market. The governor asked that no further shipments of soft coal destined for such states be diverted.

Police Disperse Crowd

LAWRENCE, Mass., Aug. 25.—A squad of police this morning dispersed a large crowd which was escorting Ben Legere and Fred Leruck, leaders of the One Big Union, to the railroad station where they took a train for Boston to appear as respondents to a petition of the Pacific mills asking that they be adjudged in contempt of court for alleged violation of an injunction forbidding intimidation.

CLOSING EXERCISES OF CITY PLAYGROUNDS

The closing exercises of the city's playgrounds will take place on Tuesday, August 29 at the Greenhalge school and North common, and on Wednesday, August 30, at the Moody, Morey and South common. At two o'clock on Tuesday, the Alken street boys and girls will gather on the North common, and at 3, the Lakeview avenue and Varnum will assemble at the Greenhalge school.

The Shedd, Moody and Fayette will meet at the Moody school at 10 a. m. on Wednesday, while at 2 p. m. of the same day, the Butler and South common will close the season's activities on the South common. At 3 p. m. the Walker, Washington and Morey will close the season at the Morey school. Parents, relatives and friends of the children are invited to attend and the city officials will be extended special invitations to be present. Prizes for the various contests conducted throughout the summer will be awarded at these exercises.

SALEM BOY DROWNED

SALAM, Mass., August 25.—Stanley Klossowski, 12, son of Frank Klossowski, 34 Essex street, was drowned in Salem harbor today, when he slipped off the steps of a pier at the old Adamant property off Fort avenue, while fishing. The police are dragging for the body.

DISQUIETING REPORTS

MEXICO CITY, Aug. 25.—In view of the disquieting reports from Guatemala reaching here, General Francisco Serrano, Mexican secretary of war, instructed troops along the southern border today to observe the strictest neutrality. The Guatemalan legation here has received no reports of the uprisings.

MOORE SENT TO JAIL

Convicted of Holding Daugh-
ter's Hand Over Stove—
Denounced by Court

BAYONNE, N. J., Aug. 25.—Found guilty of holding the hand of his six year old daughter Dorothy over a stove, burning it to the bone, William H. Moore, a blacksmith, was today sentenced to one year in the county penitentiary.

"The only fit punishment for you would be the same as you gave the child—to hold you over a fire," said Recorder William J. Cain in imposing sentence. "This is the most atrocious thing I ever heard in my seven years on the bench."

PERFECTS PROCESS FOR COLORING LIVING TREES

DRESDEN, Aug. 25.—A German engineer named Reimann has just succeeded in perfecting a process for coloring living trees. It has been found that a whole tree from the end of its roots to the topmost leaf can be completely and permanently colored within 18 hours. Aniline dye is used. The final tests were made in the nearby forest of Tharandt in the presence of a representative of the Saxon government and a number of experts, including professors from the Tharandt forestry school. The Dresden firms have undertaken to exploit the patent.

It will pay you to get The Sun classified adv. habit.

RAIL PEACE PARLEYS BROKEN OFF

Bombs Hurlled in Railroad Strike

ANOTHER LAWRENCE MILL YIELDS

BOMBINGS FOLLOW NIGHT OF RAIL GREASING AND HOSE CUTTING

Two Explosions Near Roundhouse in Illinois Town—Bomb Bursts Near Quarters of R. R. Workers—Passenger Train Under Fire—Town in Darkness—Other Disorders

CHICAGO, Aug. 25.—The railroad strike reached the end of its eighth week today in the accompaniment of bomb explosions and extensive violence.

Bombings followed a night of rail greasing and the cutting of air hose at Roundhouse, Ill., division point on the Chicago & Alton. Two explosions occurred near the C. & A. roundhouse

and another bomb burst near a hotel where railroad workers were quartered. The town was thrown into darkness shortly before the bombs were set off and citizens were described as afraid to leave their homes.

MORE THAN 75 P. C. OF LAWRENCE STRIKERS OFFERED OLD WAGES

Katama Mill Follows Lead of Pacific, Monomac Spinning Co. and Acadia Mill and Posts Notices Announcing Restoration of Old Wages

LAWRENCE, Aug. 25.—Notices were posted at the Katama Mill today that the rate of wages paid before the reduction that led to the textile strike would become effective beginning next Monday. With this announcement, it was estimated that more than 75 per cent of the textile workers who have been on strike late in March had been offered their old wages. The Monomac Spinning Company, the Acadia Mill and the Pacific Mills Company had previously announced restoration of the former scale.

De Valera at Head of Large Rebel Force

LONDON, Aug. 25.—(By the Associated Press).—Eamon De Valera, Irish Republican leader, has emerged from seclusion since the death of Michael Collins and is reported to be active with a large force of rebels, the Belfast correspondent for the Evening News today said he had learned.

The correspondent telegraphed his regard as one of the ablest leaders.

"It is believed that with the National troops pre-occupied during the week-end by the mourning over Collins, the rebels will make a frontal attempt to regain their lost ground. There is every possibility of another movement for Dublin from the north."

COAL PARLEYS TO BE REOPENED

Negotiations Between Hard Coal Operators and Union Officials to Be Resumed

Result of Overtures Made on Behalf of Administration

WASHINGTON, August 25. (By the Associated Press).—Negotiations between anthracite operators and United Mine Workers officials to end the suspension of mining operations are expected by officials close to President Harding to be resumed within a week as the result of overtures made on behalf of the administration.

The influence of the administration has prevailed upon both sides to the controversy. It was officially stated, where and when the negotiations will be renewed, officials were not prepared to say.

The position of the two parties as understood here, is that union officials are anxious to reach an agreement with the operators which would result in a basic wage to be effective for one, two or three years, while the operators were said to be of the opinion that the miners should return to work at the old wage until March 31 next, by which time a new wage agreement for the ensuing year would be worked out in conference or by arbitration. Officials here are confident

14 WOMEN TO ONE MAN ON ISLAND

Capt. Olsen of Wrecked Ship Tells of Sunny Coral Isle in the South Seas

Population of Tagawa Consists of 190, of Whom 12 Are Men

HONOLULU, Aug. 25.—(By the Associated Press).—A sunny coral island in the South Seas, where lazy palms fringe the coast and the women, young and beautiful, outnumber the men more than 14 to 1, where 30 cents lasts a month. This is the story told of Tagawa, an island of the Ellice group, by Captain J. A. T. Olsen, of the American schooner Henriette, wrecked July 16.

Captain Olsen and members of his crew are in Honolulu today with the British steamer Hauraki, which picked them up.

SAYS BREAK WAS INEVITABLE

Head of Eastern Strike Conference Announces Peace Negotiations Broken Off

Says "If They'll Quit Fussing Around We'll Beat These Fellows"

NEW YORK, Aug. 25.—(By the Associated Press).—Attempts to end the rail shopmen's strike by separate settlements with individual roads failed today and conferences were broken off.

Daniel Willard, of the Baltimore & Ohio railroad, head of the committee of executives who Wednesday decided to continue negotiations with the mediating brotherhood chiefs to see if separate settlements were possible, and other rail heads, prepared to leave the city.

In announcing the breaking off of negotiations, David Williams, secretary of the general strike committee of the Metropolitan district said nothing else could have happened, he added.

"If they'll quit fussing around we'll beat these fellows," he said.

"The break came after the brotherhood leaders, who right along have maintained that the strike must end, because the public demanded it, had spent two hours this morning with executives representing about 20 per cent of the country's mileage."

Shortly before noon, the brotherhood men left the Yale club to confer again at their hotel with the shop craft leaders, indicating they would resume their session with the executives in the afternoon.

At 2 o'clock executives representing 52 main and subsidiary lines, with 55,000 miles of trackage, who had attended the latest conference in a statement disclaimed any desire to take advantage of the strike situation to curtail "the pension or other privileges" which had been earned by the strikers before quitting, and expressed a willingness to restore all strikers with pension privileges unimpaired.

The executives' statement, issued by Daniel Willard, head of the Baltimore & Ohio, added that the rights of loyal employees would be protected.

At 2:30 o'clock a statement issued at labor headquarters said that while the integrity of the strike situation in curtail "the pension or other privileges" which had been earned by the strikers before quitting, and expressed a willingness to restore all strikers with pension privileges unimpaired.

The executives' statement, issued by Daniel Willard, head of the Baltimore & Ohio, added that the rights of loyal employees would be protected.

LOWELL BOY CITED FOR BRAVE ACT WITH BATTERY B

Wilbur Doherty Saves Life of William Gannon During Review at Camp Perkins—Local Commander Receives Citation From Headquarters of Artillery For Him

Utterly disregarding his own personal safety and realizing that a comrade, and buddy was in danger of possibly losing his life and powerless to protect himself because of his unconscious condition, First Class Private Wilbur H. Doherty, 64 Nichols street, youthful member of Battery B, risked his life like a true soldier that he is, when he rescued William J. Gannon, 250 Middlesex street, from under the feet of galloping horses. The incident occurred on August 11 while Battery B was in training at Camp Perkins in West Barnstable, during a review before the governor, but the aftermath

came today when Capt. George J. Fallon, commander of the battery received a citation from the commanding officer of the 102d field artillery. In glowing terms the citation speaks of the heroic act of the local boy in saving the life of his comrade. This is the highest praise that can be bestowed from the artillery headquarters, but in view of his act, which has caused a great deal of favorable comment from all quarters, the local lad may be further rewarded for his brave deed.

It was on a sunny afternoon that Battery B, together with the other batteries of the 102d field artillery, was reviewed by the governor, but the aftermath

No Compromise on German Reparations

PARIS, Aug. 25.—(By the Associated Press).—The negotiations in Berlin between the reparations commission and German government officials came to an end at noon today without having produced any compromise on the German reparations question acceptable to both the British and French representatives, according to latest advices reaching French official circles this afternoon.

Str John Bradbury and Eugene Mauciere, British and French representatives respectively, of the reparations commission, were expected to leave Berlin at 2 o'clock this afternoon, arriving in Paris tomorrow afternoon.

The French foreign office learned unofficially this morning that new proposals were submitted at the forenoon session by the Germans, but they were not considered important enough to warrant the mission's remaining in Berlin longer. The reparations commission's representatives, therefore, will bring the proposals to Paris, considering them on route.

It is now believed the reparations commission will hold a special meeting Monday or Tuesday at which it will try finally to dispose of the question of granting a moratorium to Germany.

If the last minute guarantees offered by the Germans prove to be satisfactory on previous proposals, the British are expected to try to postpone action by the commission in order to delay the carrying out of

penalties independently by France, with the hope that some way out of the difficulty may be found.

The French government will take no action until after the reparations commission has made its decision. It was said in official quarters today.

German Offer Rejected

BERLIN, Aug. 25.—(By the Associated Press).—Chancellor Wirth told representatives of the German trade unions today that the negotiations with Sir John Bradbury and Eugene Mauciere, representatives of the reparations commission, so far had been on the question of coal and wood deliveries to the allies.

According to the Berlin newspapers, Chancellor Wirth added that the government had made an offer to the reparations commission to create a reserve fund in foreign currency which would remain at the disposal of the committee if Germany should fail in her obligations regarding wood and coal, but the offer was rejected. The negotiations, he said, were now proceeding with regard to coal mines and forests.

One Killed, Heavy Property Loss in Storm

LOUISVILLE, Ky., Aug. 25.—One person dead, three seriously injured and a property loss variously estimated from \$150,000 to \$250,000 was the toll of a terrific wind storm which swept a part of Louisville and Jeffersonville, Ind., early today, following a rain and electrical disturbance.

New York State Recovering
ROCHESTER, N. Y., Aug. 25.—Western and Central New York today was slowly recovering from the effects of the rain and electrical storm Tuesday night and early yesterday.

Geneva, the worst sufferer from the storm that followed the five inch rainfall, is reported as having begun work to clear away the wreckage.

Reports from counties south of here indicated greater damage than previously estimated. Telegraph and telephone service, crippled by the wind and rain, now is being restored and villages that were cut off are sending accounts of the storm.

Buried Under Wreckage
LOUISVILLE, August 25.—George Hunsicker, 60, was buried beneath the wreckage when his home in Louisville was struck by the storm. He was rescued by neighbors, but died from his injuries.

In Jeffersonville, where the full force of the wind was felt, two buildings of the American Car and Foundry company were wrecked, steeples and roofs were torn from two churches and scores of homes were damaged.

Practically every street was blocked at some point by fallen trees and telephone and electric light poles. Telephone and electric service was paralyzed by reason of broken wires.

In Jeffersonville, a woman was badly hurt by cuts from falling glass and a man was seriously injured when buried under falling plaster.

Heavy Damage to Crops
INDIANAPOLIS, August 25.—Wind and heavy rain storms, which were general throughout Indiana early today, caused damage to crops and to property, according to reports received by the United States weather bureau. Telephone and telegraph companies had reports of damage to their wires southward of here.

Improving at the shops, orders are coming in more freely and according to indications, it is expected the large plant will be very busy in the fall and winter.

FUGITIVE FROM JUSTICE
BOSTON, August 25.—Ralph Freeman of Brockton, wanted by the Florida authorities on an indictment charging forgery of a money order signature, was arraigned before United States Commissioner Hayes today, as a fugitive from justice. The case was continued until next Tuesday and Freeman was released on bail. He was recently arrested in Brockton.

TO PREVENT SEA DISASTERS

C. S. Henslee, Chattanooga, Tenn., has invented a device to prevent sinking of ships which have been rammed or torpedoed. With the model above he shows how a rubber-edged steel cap is drawn against the hole by the suction of the water, the row of cone-shaped cups acting as a guide.

DISTRIBUTION OF INCOME BY STATES

NEW YORK, Aug. 25.—Illinois with \$4,982,000,000 as the annual aggregate income of its citizens leads the north-central states, according to compilations which have been announced at the headquarters of the national bureau of economic research, New York. Illinois receives seven and one-half per cent. of the nation's income, a figure which is exceeded only by New York and Pennsylvania. Pennsylvania ranks

second with \$3,958,000,000, while New York tops the list with a little more than \$3,000,000,000. These data are taken from advance sheets of a report entitled "Distribution of Income by States," which will be issued by the national bureau of economic research this month. This study which was prepared by Oswald W. Knauth, supplements an exhaustive investigation of "Income in the United States" upon which the research staff of the bureau engaged for more than a year.

The East-North Central states, Ohio, Indiana, Illinois, Michigan and Wisconsin, according to the report "Distribution of Income by States," had in

1919 a total income of nearly \$16,000,000,000, which was 23 per cent. of the income of the entire country. At the same time their population was exactly one-fifth of the total. As a group, therefore, their average per capita income of \$154 was somewhat higher than that of the whole country which was \$127, though less than the \$783 average in the eastern states, and the figure of \$796 enjoyed by the Pacific states.

The Middle Atlantic States, New York, New Jersey and Pennsylvania, taken as a group have over one-fourth of the national income, and with the east-north central group and the New England states have more than one-half of the total.

The balance of income between that which is due to agriculture and to other sources is almost exactly the same in the east-north central states as for the entire country, about one-fifth. This means that as a group these states are practically self-sufficient. In contrast, the eastern states get only one-third of their income from agriculture and must therefore depend upon food supplies brought from the west. The western states, and most of the southern states, get about one-third of their income from agriculture, and must therefore ship food extensively in exchange for manufactured products.

Detailed figures for the east-north central states show that while the aggregate income of Illinois was about \$4,982,000,000, or seven and one-half per cent. of the nation's income, Ohio came next, with \$3,958,000,000, then Michigan with \$3,532,000,000 and Indiana and Wisconsin with less than \$2,000,000,000.

The average incomes of the gainfully employed in these states varies as follows: Ohio, \$1725; Indiana, \$1624; Illinois, \$1859; Michigan, \$1762; Wisconsin, \$1771.

The average income of farmers in these states was: Ohio, \$1819; Indiana, \$1834; Illinois, \$2657; Michigan, \$1839; Wisconsin, \$1852.

Michigan was accordingly the only state in which the income of farmers, which includes a return on property as well as labor, was less than the average income of the gainfully employed.

The highest average income of farmers is found in California with \$3455, and the lowest in certain southern and New England states, where it was less than \$1000.

These facts are shown in detail in the report on "Distribution of Income by States," which is especially designed to meet the needs of many investigators who are concerned with the comparative capacity of the various states to bear increased taxes, to buy goods of various sorts, to absorb securities, etc. It also undertakes to analyze the relative importance of agriculture in the different sections of the country.

Income as defined in this report is the money value of all the goods and services produced during the year. The sources on which the estimates are based are the income tax reports, census reports, wages data, reports of the department of agriculture and statements of corporations.

FILE CO. ANNOUNCES WAGE INCREASE

PROVIDENCE, R. I., Aug. 25.—Nicholson File company yesterday passed notices that the wages of the 1200 employees would be increased 16 2-3 per cent. beginning September 5. The plan, which has been on a steady increase, will go on full time after Labor day.

FUR AND FABRIC
An evening coat of crime has been of green velvet, crinkled cloth for trimming and illustrates the popular method of combining fur and fancy materials.

CARLOAD OF BEER SEIZED

Agents Seek Signer of Writing Ordering Return of Beer to Canada

PORTLAND, Me., Aug. 25.—Federal District Attorney Frederick R. Dyer is seeking to ascertain who in the treasury department at Washington was responsible for the order signed "Camp," to the Canadian Pacific railway, to return to Canada a carload of beer, seized at Jackson on Aug. 4 by Customs Collector James A. Smyth, while being taken across Maine in transit by freight from Montreal to Triunfo, N. S.

As the shipment was in violation of the provisions of the Volstead law, the 75 barrels of beer were labelled a week later by District Attorney Dyer at the instance of Collector Charles M. Sleeper. When Deputy U. S. Marshal Powers arrived at Jackson, a dozen miles from the border of the Province

of Quebec, he found the car had been returned to Sherbrooke, presumably for reshipment through Canadian territory. The car had been set on a siding.

District Attorney Dyer went to Washington to ascertain by whose authority the order was issued and was assured an effort would be made to trace it.

IMPROVEMENT IN COAL PRODUCTION

WASHINGTON, Aug. 25.—Improvement in coal production will enable discontinuance by next Monday of the specific priority system under which the federal fuel distribution committee has been moving coal between designated places, it was announced yesterday by Secretary Hoover.

A certain percentage of Great Lakes shipments, Mr. Hoover declared, will still continue to move under the special priority orders, but the needs of New England will be cared for under the regular priority classifications which will be continued at least for the present. Mr. Hoover said "the most dangerous stage" in the coal strike situation

had passed except for anthracite, for which he declared there would probably have to be considerable substitution by hard coal users next winter.

Mr. Hoover expressed the belief that bituminous production during the present week would be at least six million tons as compared with between 3,500,000 and four million tons a week the previous four weeks; that next week production should reach seven million tons and that within a week or 10 days the daily production should reach about 8,500,000 tons weekly.

Mr. Hoover declared, however, the country obviously was faced with a shortage of usable freight cars, which shortage may be expected to become acute in about a month, although meanwhile it was believed a great deal of coal could be removed.

COTTAGE BURNED ON WILLOWDALE ROAD

Flames bursting from every window of J. A. Leighton's summer camp on the Willowdale road, near Lake Massapequa, called the attention of nearby campers to the spot last evening shortly after 9 o'clock and although a

500 SEE WOMEN FIGHT FOR LOVE OF MAN

ROCHESTER, N. Y., Aug. 25.—Approximately 500 persons formed a ring in which two women, Eileen Closson, 35, and Sadie D. Palmer, 32, fought with bare fists for the love of a man. The man, a witness of the fray, is said to have told the contestants he would throw his affections to the winner.

Both women were arrested and fined \$10 each in city court yesterday.

hurry call for the fire-apparatus was sent in its arrival found the conflagration beyond control. The cottage burned to the ground.

Mr. Leighton owns a number of cottages in the vicinity of Willowdale. Although it is known that the camp had been rented this season, it was impossible to learn whether or not there were any occupants at the time the fire broke out. The origin of the fire is not yet known.

TWO FACED

Is a slanderous adjective when it applies to anything but ribbons. Then it brings up visions of gorgeous tuchas combined with grey, red with black and turquoise with rose and navy with green. Flapper Bows, they measure a "scant" two yards, are made of these two faced ribbons and brighten up one's sweater considerably.

THE LEISURE CLASS

Includes not only vacationists but everyone who can spare up a few idle hours during the week for embroidering. Luncheon sets are the simplest things to embroider and those that are applied are particularly lovely for 98c. The Art department is now on the second floor adjacent to the Beauty Parlors. And speaking of the Beauty Parlor

IT IS TO BE

Observed that the most beautiful woman in the world is never satisfied with herself, and that the most inconsequential male always is. A man places into a mirror and is satisfied—but a woman looks long and longing. A woman, though she be as beautiful as Cleopatra (and I've heard she was really beautiful) will accentuate the arch of an already alluring eyebrow, or powder an already ravishing nose.

AND SO

Wherever there are beautiful women, there is a Beauty Shop and when a store has a Beauty Shop it is paying a compliment to the women patrons for it pre-arranges they have complexions too fine to be neglected, hair too glorious to be forgotten, and hands too dainty to despise. We believe that our Beauty Shop on the second floor is one of Lowell's finest. The attendants are courteous and painstaking and they do their work well. Only a visit can reveal the resources of this extraordinary little shop. Call 5000 and make you appointment immediately.

HOLDING THEIR OWN

Earrings are still holding their own in popularity and will continue to do so for some months to come. Huge hoops and exaggerated ear drops have about equal call and crystal, pearl, and jet, alone or in combination, are the most popular materials in our Jewelry Dept. on the street floor.

BY THEIR LUGGAGE

You may know them. Discriminating tastes approve the superlative quality of our leather goods. Traveling Bags, Overnight Bags and Grip in our Luggage store on the street floor.

A VACATIONING

I would go and here is what I noticed. The girls have discovered a new way for curling their hair. Before you go in the water "do your hair up" in curlers—put on your bathing cap and then when you come out after having your swim— presto, your hair is all waved and nice and dry. Maybe this is old news to some of the young set, but to one of my mature age it seemed a mighty fine idea.

WASH IT

"Wash It in Ivory Soap" said the salesgirl in the silk department on the street floor who sold Mrs. Jolyco her new silk dress : : : "Why are you so sure?" asked Mrs. J. "Because," said the girl with faith enough to move a mountain, "I used Ivory for my face, I wouldn't use any soap for a silk blouse that wasn't safe for my face." After "Listening In" on that conversation I was sold on the Ivory Soap proposition.

CLAN GRANT MEETING

At the last meeting of Clan Grant, 111, O.S.C. with Chief James Fraser in the chair, the following committee was appointed to make arrangements for the annual Burns night: James McEwan, James Fraser, James Allan, Frederick Murray, William Cuthbert, John Cunningham and William Russell. An invitation to be the guests of the Anderson clan on September 1 was accepted. It was announced that a bowling league will be formed for the winter season. At the close of the business session a social hour was enjoyed during which luncheon was served and entertainment numbers were given.

CAMP WALDMOORS

Community Songfest and Novelty Swimming Tomorrow Night—Plans for Labor Day Program

Tomorrow night at the Y.W.C.A. summer home, Camp Waldmoors, a community songfest and novelty swimming will provide the entertainment for the large crowd of guests which weekly visit the camp. Despite the inclemency of the weather, last Saturday night witnessed the gathering of an unusually large number of people from Lowell and surrounding towns. A swim by flashlight proved a sensation with the guests. Dancing was enjoyed in the evening.

Plans are progressing favorably for the Labor day program which will begin in the morning and continue until the late evening. All persons interested in camp are urged to be present on this day to help close camp with a "bang." The following program has thus far been arranged: 10 a. m. swimming; 11 a. m. volley ball; 12:30 lunch; 2 p. m. swimming; carnival; 3. track meet; 4. baseball; 5:30. boat race; 6. dinner; 7. fairy scenes. Midsummer Night's

Dreams, 8. camp sing and awarding of emblems.

Articles made in the craft shop will be on exhibition and for sale all day at the camp. Persons desiring lunch or dinner are asked to make reservations ahead.

The Y.W.C.A. is indeed fortunate in securing Miss Anna M. Baker as general secretary and Miss Lottie Shirley as girls' work secretary. They will assume their duties about Sept. 1.

FALL FABRICS

Among the leading fabrics for fall are velvet, satin and crepes. Dark colors predominate with brown well in the lead.

GREEN VELVET

An evening frock of pale green printed velvet with side panels of green metal lace breaks its long slender line by a gleam of ruffled net about the waist.

CIRCULAR CAPES

Circular capes of tweed, in plain subdued tones or with shepherd's checks or large conspicuous plaids, are liked for sports wear. They have turnover collars and no gathers, the fullness being provided for by the gored cut.

Champions of the City Playground League

Standing left to right: Brophy, 2b; Deagan, rf; Lawton, sub; John Grouke, coach; "Poko" Sullivan, 1b; Mann, cf; Joe Sullivan, lf. Front row, left to right: Sylvester, ss; "Jabs" Sullivan, c; "Lizzie" Murphy pinch hitter; Gorman, p; Plouffe (capt.), 3b. Center, Cochran, mascot.

After a most successful season on the diamond, the Walker playground baseball team has had its united efforts rewarded by being crowned champions of the city in the playground league, conducted under the auspices of the playground department of the park commission.

The Walker team's claim to undisputed, defeating, as they did, all the other teams on the schedule. Their consistency is attested to by the fact that they have won 14 out of 16 games played, being turned back by the North common team in a close game which ended in a 9 to 8 score, and the Meroy which did the trick at 9 to 5. Both these aggregations were later defeated in a decisive manner by the Walkers.

Believing in the old adage that "in union there is strength," the champs

worked with the clock-like regularity, every man giving his best, regardless of personal ambitions. John Grouke, supervisor and coach of the league conquerors, is especially proud of the record of his charges and voices the opinion that several of the sand-batters on his team are stars in embryo and that as a unit, the Walker outfit is the best collection of ball tossers in the younger 1922 circuit.

worked with the clock-like regularity, every man giving his best, regardless of personal ambitions. John Grouke, supervisor and coach of the league conquerors, is especially proud of the record of his charges and voices the opinion that several of the sand-batters on his team are stars in embryo and that as a unit, the Walker outfit is the best collection of ball tossers in the younger 1922 circuit.

Prisoner Swims Shirley Gut and Escapes

BOSTON, Aug. 25.—Search was today being prosecuted throughout greater Boston for Albert Albridge, a negro, who escaped from Deer Island yesterday. Police believe that he swam Shirley Gut. A garage on Shirley Point, directly opposite the island, was broken into and it was believed Albridge spent the night there.

Two Acquitted in Scarpone Murder Trial

BOSTON, Aug. 25.—Two defendants in the trial for the murder of Michael Scarpone last winter, were found not guilty today by order of Superior Court Judge Dubuque. They were Salvatore Tonnarelli and Dominick Bontare. No evidence was introduced at the trial to show that they were involved in the shooting.

STEINWAY'S WIDOW

WEDS WAR VETERAN

LOS ANGELES, Calif., Aug. 25.—Mrs. Marie C. Steinway, widow of Charles H. Steinway, New York piano manufacturer, and Capt. F. L. Lefevre, world war veteran, were married at Santa Barbara, Calif., a week ago today, according to a story published by the Los Angeles Examiner.

Their marriage, which was performed in the Santa Barbara mission, was said to have followed a romance of several years.

The bride came to California for her health several months ago and has been living at Altadena, near Pasadena. Capt. Lefevre said he expected to be

appointed military inspector at a Pasadena military academy and that he and his bride will remain in this state for a year or two. He was quoted by the Examiner as declaring: "The disparity in our ages is a thing that neither of us has thought of. Mentally and sentimentally we are the same age. Love is as old as the world and as young as the morning dew. We love each other. We are very happy."

WASHINGTON, Aug. 25.—Examinations for appointment as line and engineer cadets in the coast guard will be held in all principal cities on Sept. 25. It was announced today. Successful candidates will be given training at the coast guard academy, New London, Conn., during which they will receive pay and allowances of approximately \$1000 a year. Cadets must be from 18 to 25 years of age, inclusive.

TO WITHDRAW TRAINS TO CONSERVE COAL

PORTLAND, Me., Aug. 25.—As a means of conserving coal, President James Q. Guinn of the state chamber of commerce and agricultural bureau, has suggested to President Harding that he request the railroads to withdraw all passenger trains not absolutely needed. He sent the following telegram into last night:

"Owing to very serious effect upon our industries and suffering likely to occur to our households from scarcity of bituminous coal, would it not aid if you requested railroads of the United States to take off all passenger trains not absolutely needed? The saving in coal would be considerable, and the inconvenience from this would be less serious."

LAWRENCE MAN FINDS LOST CAR

With the idea of seeing what kind of moves they have in Lowell, George Lawrence of 227 Bruce street, Lawrence, came to Lowell last Wednesday night in his Ford roadster. Before his entrance to the movie emporium, he parked his car in the rear of the theatre. As the final incident flashed on the screen, George emerged from the theatre and looked for the silver. But alas it was not there.

He went to the police station and reported his loss and the night sergeant informed him that he would do all in

his power to find the lost car. Mr. Lawrence then took the last car for Lawrence. An hour or two later, the same sergeant received a telephone call and was informed that it was Mr. Lawrence of Lawrence speaking. He said he had found his car abandoned on the Lawrence boulevard, near the Lowell line. He told the officer that the car was pointing northward at the time but the gas tank was dry as a bone. The car had been left by the roadside when the culprit discovered the gas was gone. As yet the implicated parties have not been apprehended.

Bombs Hurlled in Rail Strike

(Continued)

house during the disturbances, said many shots were fired.

Earlier disorders at Jacksonville, Fla., were followed by dynamiting of the home of J. A. Williams, foreman in the Seaboard Air Line railroad shops and a member of the city council.

Following reports from a national guard officer, Gov. McCray of Indiana asked federal authorities to interfere in strike disorders at Garrett, Ind., where workmen were threatened, their homes razed, and yellow and where bombs were discovered.

Striker Killed in Running Fight

Charges of murder were made against a negro commissary worker of the Atchafalaya, Topoka & Santa Fe, at San Bernardino, Calif., where a striking electrician was shot and killed. The Santa Fe offered rewards for persons who have been guilty of recent bombings.

Proposals were made to United States Marshal McDonald by striking shopmen at Shawnee, Okla., to replace federal and company guards at railroad shops with strikers.

Missouri Road Will Not Yield

With the question of seniority of the Missouri, Kansas & Texas railroad declared they would not yield in their stand against restoring seniority to returning strikers. W. M. Whittenton, assistant chief operating officer of the road, said the M. K. & T. would re-employ men now on strike if they had not been guilty of violence but that they must return as new employees.

At the same time the Santa Fe announced at Topoka, Kas., that conditions had so improved it would be impossible to take back all strikers. The announcement said the road would take back only strikers who there might be places for, and that they must return as new employees.

Quiet was restored in the Chicago

Rock Island and Pacific yards at Burlington, following the shooting of a railroad guard by a fireman and a general suspension of work. State troopers remained on duty but the railroad guards were taking no part in patrolling the yards. Although operations were badly crippled, passenger trains were kept running. Workmen agreed not to object to the presence of soldiers if company guards were withdrawn.

The cause of a minor wreck on the Chicago, Burlington & Quincy near Charleston, Iowa, had not been determined.

"Take Hints," Says Union Tender

NEW YORK, Aug. 25.—(By the Associated Press.)—"We are like bats; we can't see our way out"—thus did the chief of one of the big five railroad brotherhoods describe the position in which the running trades found themselves last night after their latest efforts to settle the great shopmen's strike, now nearing the end of its eighth week.

Yesterday peace negotiations centered on conferences between the brotherhood chiefs and an mediator, and the executive of more than a dozen of the railroads, representing approximately 30 per cent. of the rail industry in the United States, conference which were called to order after the Association of Railway Executives Wednesday had stoutly declined to yield on the seniority question, but some of its members had indicated an interest in a suggestion that separate agreements might be possible.

Although both sides professed themselves no nearer agreement than when they first went into conference, it was evident that the deadlock had not been entirely closed, for a announcement was made that another session had been scheduled for today.

EARLY SETTLEMENT OF NOVA SCOTIA STRIKE

SYDNEY, N. S., Aug. 25.—Hope of an early settlement of the Nova Scotia strike appeared bright today. Dr. Chas. MacKinnon, named by the United Mine Workers as an extra mediator, arrived this morning from Prince Edward Island and conferred with the United Mine Workers, previous to the fourth session of the treaty was being held under the auspices of his brother Sean and Canon Cochran, parish priest of Bandon.

COAL MINE PRESIDENT DEAD

PITTSBURGH, Aug. 25.—O. A. Hinkley, 60, president of the Pittsburgh Coal Producers' association, and one of the best known bituminous coal operators in the country, died today at his home here after a short illness.

ULSTER TO PAY TRIBUTE

To Call Off Important Racing Meet in Consequence of Funeral of Collins

BELFAST, Aug. 25.—A remarkable concession to the nationalist sentiment is seen in the decision of the Down Royal corporation, promoters of the Maze Horse races, the most important meeting in Ulster, to cancel the second day's program next Monday in consequence of the funeral on that date of Michael Collins.

Added significance is given by the fact that the promoters had previously declined to postpone Saturday's event, although an Orange demonstration for which 12 special trains are to be run from Belfast, will be held only four miles from the race track on the same day.

Daily Meeting Sept. 8

DUBLIN, Aug. 25.—The postponed meeting of the Dail Eireann will be held Sept. 8 instead of Sept. 7, as previously announced.

Scenes of poignant grief were evoked as thousands of admirers viewed the body today, resting beneath the statue of O'Connell in the city hall.

The lid of the coffin was removed early this morning, revealing the figure of the dead general, braved in the final flight of six tapers that had been placed on a crucifix at his head.

The hall was heavily draped in black, accentuating the tragic picture of the steady stream of mourners.

Head of Collins' Slayers Threat

CORK, Aug. 25.—(By A. P.)—Tom Hales, who led and accepted the responsibility for the ambush which killed Michael Collins, repudiated it yesterday, threw down his arms and offered to join the national forces.

Tom Hales is the brother of Sean Hales, a pro-treaty member of the Dail Eireann. The former has been a long opponent of the treaty, and it is not known whether his offer to join the nationalists will be accepted.

He and his sister on last St. Patrick's day set fire to the platform at Bandon where a demonstration in favor of the treaty was being held under the auspices of his brother Sean and Canon Cochran, parish priest of Bandon.

Collins' Brother Captured, Not Freed

The present change of front is regarded as significant and as giving hope to the prevailing belief that the death of Michael Collins may not have

APPLE THIEVES TAKEN TO POLICE STATION

Every year, with the appearance of apples and pears, complaints pour into the police station regarding the depredation of private orchards by young America. An orchard has an appeal to a youngster that cannot be driven away. And then, the old saying "stolen fruit tastes the sweetest" probably has something to do with it. In every section of the city, during the fruit season, the kiddies are seen trundling home, either with large bags filled with fruit, or their waists bulging out with a supply of apples or pears.

Only this morning the police machine drove up to the station and two scared youngsters emerged from its interior, accompanied by an officer. The officer carried with him the "evidence" in the form of 2 large flour bags, stocked with apples. After a warning talk, the youngsters were let go.

been in vain, as his actions may animate his comrades to do likewise.

Sean Collins, proceeding from Clonsilla Wednesday to attend his brother's funeral, had a trying experience. He was arrested on the Bandon-Macroom road by irregulars, who treated him with lacking the courage "to stand up and be plugged," and spelt jubilation of having "plugged" Michael, the traitor," referring to his brother, Michael.

Sean Collins remained in custody over night, but was released yesterday morning, reaching here last night. He left by special steamer for Dublin with Gen. Linnis and Sean Hales.

APPLE THIEVES TAKEN TO POLICE STATION

Every year, with the appearance of apples and pears, complaints pour into the police station regarding the depredation of private orchards by young America. An orchard has an appeal to a youngster that cannot be driven away. And then, the old saying "stolen fruit tastes the sweetest" probably has something to do with it. In every section of the city, during the fruit season, the kiddies are seen trundling home, either with large bags filled with fruit, or their waists bulging out with a supply of apples or pears.

Only this morning the police machine drove up to the station and two scared youngsters emerged from its interior, accompanied by an officer. The officer carried with him the "evidence" in the form of 2 large flour bags, stocked with apples. After a warning talk, the youngsters were let go.

WEATHER BUREAU ISSUES STORM WARNINGS

WASHINGTON, Aug. 25.—Storm warnings were issued by the weather bureau today for that portion of the Atlantic coast between the Delaware Breakwater and Eastport, Me.

A disturbance of considerable intensity, the bureau said, is north of the Great Lakes, moving eastward, and will be attended by strong southerly winds, shifting to southwest and west tonight with squalls and cloudy and showery weather.

It will pay you to get The Sun classified adv. habit.

LEGION CONVENTION

New Orleans Expects to Entertain Largest Gathering in History

NEW ORLEANS, La., Aug. 25.—(By the Associated Press.)—The Crescent City is preparing to entertain the largest gathering in its history when 150,000 members of the American Legion and other visitors come to the Legion's national convention here Oct. 16-20.

With the tentative acceptance of the convention invitation by President Harding and Gen. Pershing, and the definite acceptance of Maj. Gen. John A. Lejeune, commandant of the United States marines corps; Samuel Gompers, president of the American Federation of Labor, and Kenesaw Mountain Landis, commissioner of baseball, the Legion meeting will assume national importance. Convention officials also expect to entertain a famous marshal of France and other World War notables. Prominent among the distinguished guests will be 25 winners of the Congressional Medal of Honor, the highest award for bravery made by the United States.

President Harding has written convention headquarters that he will come to New Orleans if the pressure of public affairs does not interfere. A similar message has been received from Gen. Pershing, who led the Legion men in France and who was a guest at their national gathering in Kansas City last year. The visit of Gen. Lejeune will be of especial interest to legionnaires, since the Legion leader is a native of Louisiana and was one of the most popular commanding generals in the American Expeditionary forces. The presence of Mr. Gompers at the convention is expected to develop closer relations between the Legion and organized labor. Judge Landis is the father of a former service man and has spoken at Legion gatherings in all parts of the country.

In preparation for the visit of the thousands of former service men, the convention committee has prepared an elaborate program of entertainment. Convention sessions will be held only in the morning, enabling delegates and visitors to participate in the festivities the remainder of the day.

The first American Legion national Olympic meet will be held at the convention. Legion athletes from every state will compete for national championships in track and field events, aquatic sports, amateur boxing and wrestling, golf and tennis. There also will be a national marksmanship contest and a tournament of professional boxers. A decision bout between Bob Martin, who won the heavyweight championship at the tournament staged by A.B.F. fighters after the armistice, and Capt. Roper, heavyweight champion of the service men who remained in America, will be one of the leading features of the boxing program. The legion heavyweight championship will be settled when Johnny Buff and Pat Moore meet in the convention ring.

Ranking with the athletic meet will be a naval show in the port of New Orleans and on Lake Pontchartrain. Drednoughts, cruisers, submarines and sub-chasers from all the great na-

"Sylpho-Nathol" Does More Than Clean

"Mother came over last week to make some of her famous doughnuts. No matter how hard I try, mine are never nearly so good. She saw me put Sylpho-Nathol in the scrub-water for the kitchen floor.

"Well, there's one thing at least about your housekeeping, Betty. I'll have to admit you do better than your mother did. Mother smiled, and that is the way you clean with Sylpho-Nathol. No wonder your home has such a fresh, healthy atmosphere."

Housekeepers today are no more thorough than they were in Mother's day, but they've learned that to keep a home healthful clean requires something more than soap and water and energy. They realize now, that dust and dirt are full of dangerous disease germs which get into cracks and crannies and must be destroyed. They know that unpleasant smells which develop so rapidly in sink drains and around plumbing and garbage receptacles, and other hard-to-get-at places are unsanitary signals. They know that both germs and odors should be promptly eliminated.

Sylpho-Nathol does both these things quickly and effectively. It has none of the objections which housewives feel toward the use of ordinary disinfectants and deodorants. Sylpho-Nathol is 4½ times stronger than carbolic acid, but it's as safe to have in the house as a cake of scented soap. It cannot injure your skin nor hurt household things.

Sylpho-Nathol quickly dispels unpleasant odors, but its own friendly, pleasant smell doesn't linger.

Sylpho-Nathol is easy to prepare—just a teaspoonful in a quart of warm water makes a clean-smelling, nearly-gray solution that's ready for immediate use.

Sylpho-Nathol comes in four handy sizes, 15c, 35c, 65c and \$1.25. Most good grocers and druggists have it. If yours hasn't, he can get it easily. Just ask for it by the name—Sylpho-Nathol.—Adv.

val powers are to be on exhibition. Legion national officers are now making arrangements for ships to come from England, France, Italy and a number of South American countries. In addition there will be a flotilla of yachts and small pleasure craft on Lake Pontchartrain.

The United States navy will send a number of seaplanes from Pensacola, Fla. On one of the convention nights these planes will fly over the business district dropping flares and lights in imitation of the bombing raids made by the Germans over the American trenches and cities.

Memories of days in France will be revived by a number of New Orleans societies, which will combine in the presentation of a French carnival night. Stores will be labeled with French signs and the picturesque garb of Brittany, Normandy and other French provinces will be mingled with the khaki, blue and green of the veterans. Downtown streets will be illuminated by 28,000 electric bulbs and will be decorated with flags of allied powers, state seals and legion banners and emblems. Doughboys in search of former comrades will meet in impromptu reunions under divisional insignia flags to be hung over the streets.

Fifty thousand marchers and 100 bands are expected to participate in the convention parade. The legionnaires will march by states in the order of membership increase during the last year. To stimulate the attendance of bands from all states \$1750 in prizes will be awarded to the finest legion bands in the parade and \$350 will go to the best drum corps.

Col. Guy Melony, superintendent of police of New Orleans, has announced that 1000 uniformed legionnaires will assist his police force in regulating the large crowds thronging the convention parade streets and the legionnaires will serve as provost guards in the business district.

The grant of a rate of one fare for the round trip to the convention by all railroads will augment the conven-

tion crowds, according to local legion officials.

Housing arrangements are being arranged with a view of accommodating 150,000 visitors. A special rate of \$1.50 a day without bath and \$2.50 a day with bath, has been granted by the leading hotels. Pullman cities, equipped with the conveniences of a modern hotel, will be established by three large railroads to house approximately 14,000 legionnaires. The housing committee also is considering the

Away Goes Eczema Peterson's Ointment

"One day a druggist told me," says Peterson, "that Peterson's Ointment was the best remedy he ever sold for eczema. But you'll never make any money on it," he added, "because it heals so quickly that only a little ointment is used." All druggists, 35c, 60c, \$1, \$2.50, \$5.—Adv.

creation of a tent city and the placing of cots in halls and business properties. Thousands of visitors will be entertained in New Orleans homes.

MAN ASSIGNED BY T. R. TO ANANIAS CLUB, ILL

CHICAGO, Aug. 25.—Delaven Smith, publisher of the Indianapolis News, and vice president of the Oliver Typewriter company, was reported today to be critically ill at his Lake Forest summer home. Several blood transfusions have been made.

Mr. Smith took part in the Panama canal controversy with the late President Roosevelt, and because of an editorial in Smith's newspaper, he was assigned by Mr. Roosevelt to the former president's famous "Ananias club."

Reginald C. Vanderbilt Better

NEWPORT, R. I., Aug. 25.—Reginald C. Vanderbilt, confined to his Sandy Point farm with inflammatory rheumatism, is able to walk a little about the house today. His attending physician, Dr. Harry J. Knapp, has hopes of his patient improving so that he can be in attendance at the Newport horse show, of which he is president, the first three days of next week. Mr. Vanderbilt has telephoned a few friends reassuring them that his condition was not serious.

Wirth Guest of U. S. Ambassador

BERLIN, Aug. 25.—Chancellor Wirth was a guest last night at a dinner given by American Ambassador Houghton to the visiting American congressional delegation, which is leaving for Vienna to attend the inter-parliamentary union conference. Senator Spencer, of Missouri, proposed a toast to the chancellor. The congressmen later discussed the German situation with Dr. Wirth.

TIGHT SLEEVES
Long, tight sleeves are shown on many of the Paris models recently imported. They come far over the hand.

VEILS
Many novelties in veils are shown. Heavy embroidery, silver or gold insets and colored borders vary the appearance of these very feminine accessories.

WOULD PAY \$5000 FOR HAIR
This sum would gladly be paid to the one knowing the secret of "hair growing." Perhaps YOU would pay this amount to save your hair. Why not save \$1900 by using Griffin's Hair Grower as a large number of Lowell men are? You are bald and will continue so only because you WANT TO be. Ask Mr. Riley, barber on Bridge Street, near Kellin's theatre and Mr. Porry, 765 Graham street; Andrew Burns, the barber, Central street, upstairs; Richardson Hotel; Barber Shop, or call at 136 Market st. (up one flight) and hear what you can do to GROW HAIR, even on the oldest bald head.—Adv.

Midway and Bazaar Opens at Holy Trinity Church, High Street

VIEW OF SOME OF THE BOOTHS AT HOLY TRINITY CHURCH CARNIVAL

Following a very successful opening night at the midway and bazaar of the Holy Trinity church, held on the church and school grounds in High Street last evening, Rev. Alexander Ogonowski, the pastor, assisted by the McAndrew brothers, who have just opened an art studio in Wilmington, was busy today planning for an even larger turnout tonight. Last night the friends of the church from the surrounding district proved their interest by their excellent patronage, and it is hoped that the threatening clouds will disperse before the opening time tonight and allow a continuance of the program until tomorrow evening, when the affair will be brought to a close.

The tastefully arranged booths, in the front and rear of the church and school and in the wide spaces between, are calculated to attract the interest of the most conservative passerby. Ten stands, topped with canvas of colorful material and surrounded by decorative streamers and other adornments, when filled with their respective stocks of useful, dainty and appetite-inviting articles, make a display such as is not often seen at an outdoor carnival, confined to so small a space. The limited area makes a number of enjoyable features, including merry-go-rounds and other large amusement enterprises, impossible. Still, Rev. Fr. Ogonowski and his committee are well satisfied.

A doll booth, with shelves adorned with pretty gowned, pink checked and

holled-hair young ladies, to be taken away by the holder of the lucky number, is one of the first attractions to strike the eye. A china booth, engrosses the attention of all who are interested in that delicate material. Blankets and heavy comforters, just the thing for the rapidly approaching coolish nights, are there in abundance for all who wish to "take a chance." The corn booth, Cat Game and Football in the Buckle stand out prominently, and are the focus of those who like that sort of midway attraction. Baskets, prominent in all carnival events for a year or two, are in profusion, in beautiful shapes and colors. An umbrella booth will be a center of curiosity tonight, and it is already overflowing with the latest fashions. Delicious chocolates in tasteful boxes, made according to the most in charge by the best manufacturers, will cater to the palates of the lucky ones, and tea cream, frankfurts and tonic will be on sale for the benefit of all in search of refreshments.

The appearance of the booths, alone counts for a great deal, and their arrangement could not be better. Plenty of room between each of them allows the assembly of great numbers of patrons at any booth without interfering with the business of those on either side. It is one of the most attractive showings ever seen in Lowell.

The feature of tonight will be the

purpose for which it is being conducted will be realized almost in full. If rainfall fails to interfere, a new oil heating system is certain for the parish school.

All of the parish societies are united behind Rev. Fr. Ogonowski to make the undertaking an unqualified success. The composite organization has chosen Joseph Krygowski as president and J. Swiderska as treasurer, and the following as heads of booths: A. Walukiewicz, Mary Jarcz, Anna Malinski, M. Pacuta, W. Matyska, M. Morawska, J. Szurlej, R. Kardys and M. Krzysiatyniak.

14 Women to One Man

Continued

ed them up at Tagawa, and is taking them to San Francisco.

And the captain's tale follows:

"Tagawa is the only habitable island of the Pacific group. Its population consists of 100 persons, of whom only twelve are men.

"Our schooner was swung off her course and onto Nukualifi Reef by heavy seas.

"We struck at night and at dawn we tried for the shore. Before we hit the coral we saw native men pushing an outrigger canoe into the water and with their assistance we made shore in safety.

"Our coming was hailed with joy by the natives, who pass their existence in a state of isolation. The women outnumber the men, 14 to 1, or more, and some of them are beautiful. Their ages range from 12 to 18 years and there are only a few children.

"The chief of the tribe, a husky

Samoan, turned over his grass hut palace to the mate and myself to be used as our private quarters. He also tendered me one of his daughters, a beautiful dark haired girl with a lovely figure, as servant. Other pretty girls were assigned to the mate and to members of the crew to wait on them.

"We certainly did not lack for entertainment. I had a great time and would not have missed the experience for any money.

"I had only thirty cents in my pockets, but money was no object. Many dinners were given in our honor and native maidens in grass skirts performed hula dances for our amusement.

"We had a hard time getting away. The women wanted husbands and they pleaded with us and coaxed us to stay.

"On our twentieth day on the island, Mate T. P. Benson sighted the masts of the steamer Hauraki. We put out in our boat and signalled repeatedly, finally catching the attention

of those aboard her and they picked us up.

"We were not worrying, for, if the Hauraki had not sighted us we would have been taken off the island by the London Missionary society boat which calls at Tagawa twice each year."

GIRLS' TRACK MEET

The standing list date in the incomplete girls' track meet for the playground championship is as follows: Greenhalgo, 10; Shedd, 9; Butler, 6; Moody, 5; Varnum, 4; South common, 4; Allen, 2; Fayette, 2; North common, 1; Lakeview, 1; Morey, 0; Washington, 0. The corrected winners of the 50 yard dash for girls from 12 to 15 years of age at yesterday's meet shows Miss Queenie Douglas, first, and Evangeline Kearns and Alice Quinn, tied for second. Miss Douglas and Miss Quinn sported the colors of the Shedd playground, while Miss Kearns represented the Varnum. The final events will be run off Monday at 9:30. The high jump, broad jump and relay races still remain unsettled.

AMUSEMENT NOTES

THE STRAND

If you are an Elk, or a friend of an Elk, or a friend of a friend of an Elk, you will want to see the motion pictures of the annual Elk outing, which is being shown at the Strand this week. Don't miss it, for it shows many well known local celebrities with their outing clothes on, having a real party.

Also, Ellen Landis and Sylvia Bremer are among those in the all-star cast of "Two Mothers and Two Fathers," and Viola Dana is shown in "Seeing is Believing."

MERRIMACK SQUARE THEATRE

Only a few opportunities remain for Lowell movie lovers to see "Penrod," Booth Tarkington's famous story, now being presented on the screen at the Merrimack Square theatre. The picture closes its engagement tomorrow.

TO SUSPEND BONDS

ST. PAUL, Minn., Aug. 24.—Suspension of all bondholders who appeared at the court yesterday night on the ground that the program was illegal, stated, will be recommended at the next meeting of the Minnesota state boxing commission, W. P. Sallor, secretary, said today.

Boxing bouts in Minnesota are permitted only at Minneapolis, St. Paul and Duluth, under the auspices of licensed clubs.

ORNAMENTS

Large catenach ornaments, used singly and in pairs, are seen on many of the full gowns and coats. They are jeweled, enameled or made of colorful combinations.

Trotter Gets Divorce

Continued

evangelist. He dismissed the suit for separate maintenance brought by Mrs. Trotter. He held Mrs. Trotter's charges

that her husband had been unfaithful and that he had treated her cruelly, and not been substantiated by evidence. The court also held there was no evidence to substantiate the charges of Mrs. Trotter that her husband was the father of a child born in July, 1911 to Miss Florence Moody, secretary and bookkeeper at the Rescue Mission, or that he had "conducted himself with other women in an unbecoming manner."

The judge, in his opinion, declared he believed Mrs. Trotter was actuated in filing her suit for separate maintenance, by the fact "that she never has been able to persuade the defendant to confess that he was the father of the Moody child." The court also asserted Mrs. Trotter charged her husband with acts of alleged cruelty that "at the time they were committed, if they were committed, were overlooked by her and not regarded by her as of any significance."

The court, in his opinion, holds Mrs. Trotter herself was guilty of extreme cruelty by circulating stories to the effect that her husband was the father of the Moody child.

As permanent alimony, Mrs. Trotter is given the Trotter home and an adjoining house, rentals from which amount to \$125 a month.

She is also given the furnishings of the Trotter home and \$5000 in cash. The Trotter estate is valued at \$85,000 or more.

Mrs. Trotter filed suit for separate maintenance several months ago and her husband countered with a suit for absolute divorce. The trial, continuing for more than a month, brought a denial by both Trotter and Miss Moody on the witness stand that the former was the father of Miss Moody's child.

DOWS THE DRUGGIST, 12 Merrimack Square

Parliament of Industry Is Needed to Stop Strikes

America faces a fuel famine and high prices this winter because of a national coal strike. Transportation is badly handicapped and perishable crops are in peril as a result of a long drawn out American railroad strike. That's why every reader will have more than ordinary interest in this interview. Milton Bronner has obtained with Arthur Henderson in which this famous British labor leader outlines his plan for ending all strikes.

By MILTON BRONNER

LONDON, Aug. 25.—The possible remedy for the continually recurring clashes and disputes between capital and labor in democracies like America and England is—a parliament of industry.

This is a carefully considered opinion of the Rt. Hon. Arthur Henderson, the most skillful leader the modern British labor party has produced. A prominent leader in the trades union movement, a member of parliament, secretary of the labor party, a former member of the war cabinet, and the probable premier of Great Britain if the labor party wins parliament, his opinions on industrial matters are always given great weight.

In view of recent coal and railroad strikes in England and similar conditions in the United States, I asked him whether there was any possible preventive of such troubles.

"The problem of industrial unrest," Henderson said, "has been growing more acute during recent years. There can be no question of the workers

surrendering their right to strike. But it is a weapon that should not be used lightly or rashly. No stoppage of industry should take place until every possible means of arriving at a settlement has been exhausted.

"I believe that force in industrial affairs, by whomsoever it may be employed, is as futile in the long run as it is in international affairs.

Peaceful Progress Possible
"I believe it is possible to advance to higher stages of industrial organization by peaceful processes as I am convinced it is possible to attain a higher level of international life without recourse to war.

"Industry requires a truce to conflict. The workers cannot continue indefinitely the victims of severe unemployment, semi-starvation, low wages, domestic distress and social wretchedness.

"In my judgment the first step towards economic recovery and a betterment of the workers' conditions of life lies in the creation of some form

ARTHUR HENDERSON

of machinery capable of investigating and dealing with the problems common to all sections of industry,

which are the root cause of industrial unrest and conflict.
"Such a body is to be found in the establishment of a parliament of industry, representative of employers, workers and the community's interests.

"It is not only desirable, but essential, that such a parliament should come into existence not on the initiative of the government, but on the initiative of trade unions and employers' organizations. It should be an independent body without any connection with the state—though it might seek recognition by the state and obtain powers defined by legislation. "Each element should have equal representation and be free to determine its own methods of appointing its representatives.

Would Aid Progress

"An industrial parliament would provide a mouthpiece by which new ideas can be expressed and an organization by which their practical application to industry can be worked out.

"Some of the questions of a general character to which it might direct its attention would be: the status of the worker in industry, insurance by industry, workmen's compensation, the standard of life as affected by wages and hours, working conditions, holidays, industrial fatigue and hygiene, investigating new processes, devising better methods of organization, dealing with unemployment, under-employment, and the maintenance of the compulsory idleness. "It might devise ways and means of securing for the workers an adequate share in the proceeds of industry, and for inaugurating a multitude of desirable reforms.

"It could scrutinize and advise upon all legislative proposals affecting industry as a whole, and it should be ready, if its services were required, to act in a mediating capacity in the case of industrial disputes that might arise. It might also have powers of initiation and be able to submit agreed draft bills to parliament."

PRISONERS IN UPROAR

Yell, Rattle Tin Pans, Etc., When Organ Music Penetrates Prison Walls

NEW YORK, Aug. 25.—The reason for the overwrought nerves of the prisoners confined in the Bronx prison, causing them to yell, rattle tin pans, and make a regular din at very irregular intervals, has been traced by Sheriff E. J. Flynn. He declares that snatches of music from an adjoining theatre organ, playing continuously from eleven to eleven daily, are responsible.

The music could be heard only brokenly because of the peculiar acoustic properties of the prison's walls which permitted only bits of the music to penetrate. As to the quality of the melodies, Sheriff Flynn did not comment except to say:

"Nobody's going to torture my prisoners with half portions of music. It's all or nothing with me."

17 RADICALS TO FIGHT CHARGES IN MICHIGAN

ST. JOSEPH, Mich., Aug. 25.—While authorities of Berrien county today were arranging for the prosecution of 17 radicals arrested Tuesday in the woods near Bridgman, counsel for the alleged communists and members of the Workers' party, were busy building up the defense behind which they will fight the charges of syndicalism and conspiracy which the state of Michigan has made.

William Z. Foster, head of the Trade Union Educational League, arrested in Chicago, following the raid here, was at liberty under bond of \$100, while Michigan authorities sought requisition papers to bring him here.

Each defendant is charged with two counts—violation of the Michigan syndicalism law and conspiracy against the government.

AGED MAN SHOT BY MAN HE BEFRIENDED DIES

STAMFORD, Conn., Aug. 25.—Edward Bailey, 72, shot Monday night by Hugh Moun, 29, whom he had befriended for twenty years by employing him on his place at Pound Ridge, in New York state, died early today in the Stamford hospital.

Moun is in jail at White Plains, N. Y., and will be taken into court to be charged with responsibility for Bailey's death.

PAINTERS' UNION
The Painters' union, Local 33, met last night in the headquarters of the Trades and Labor council and transacted much routine business. Brother George Field presided.

This is the experience of thousands who have used Resinol and know that its gentle, healing, and soothing qualities are the only ones that can be trusted. **Resinol** is the only skin trouble. **At All Druggists.**

U. S. OPERATION OF MINES URGED

Sen. Walsh Wants Government to Operate Mines and Control Coal Distribution

Declares Much of Unrest in Country Due to Dilly-Dallying in Congress

WASHINGTON, Aug. 25.—Government operation of the coal mines and federal control of coal distribution in such a manner as to prevent profiteering were proposed in measures introduced yesterday in the senate. Other developments in the coal and rail situation included:

Decision by the senate labor committee to substitute the Borah coal commission bill for the Winslow commission bill, passed Wednesday by the house.

Demands in the senate for prompt and drastic government action to end both the coal and rail strikes.

An announcement by Secretary Hoover that within a week daily bituminous coal production would be sufficient for the nation's needs, but that the country faced a shortage of freight cars which would be acute within a month.

A suggestion by Chairman Borah of the senate labor committee that the authorities of other states would follow the lead of Governor Miller of New York, in dealing with their local coal situations.

A declaration by Chairman Cummins of the senate interstate commerce commission that congress, at its next session would take up industrial problems with a view to determining "what place unionism should occupy in the civilization of the United States."

A resolution empowering the president to take over and operate the mines was introduced by Senator Walsh, democrat, Massachusetts, after a long and heated senate debate, and was referred to the interstate commerce committee.

To this same committee was sent an administration bill offered by Senator Cummins proposing to create a federal coal distribution agency, which, working through the interstate commerce commission, would control not only distribution of, but profiteering

in coal. Chairman Cummins called a meeting of his committee for Saturday morning to consider the administration measure.

The senate is expected to act first on the Borah substitute for the Winslow bill, which Senator Borah plans to call up today. It proposes a commission of five members to investigate the whole coal industry and make recommendations to congress.

Senate discussion, the first extended debate on either the coal or rail strikes, brought expressions from practically all senators present that in their judgment there was bound to be actual hardships and suffering from lack of coal this winter, even should the strike be settled immediately.

Senator Caidas, republican, New York, urged that operators and miners be given 48 hours in which to adjust their differences and that if they failed "it will be the duty of this congress to give the president full and complete authority to take over the mines and to operate them for the benefit of the American people."

Senator Lenroot, republican, Wisconsin, declared that the situation with respect to both the coal and rail controversies was "so bad" that the public's interest now justified "more than mediation."

"The president ought to be authorized to take over both the railroads and the mines and in his discretion to operate them," he said.

Explaining about what he characterized as the inaction of both the president and congress, Senator Walsh, Massachusetts, democrat, declared that much of the unrest in the country was "due to the fact that here we dilly-dally; here we object; here we bluster; here we do nothing."

Demanding immediate action to relieve what he said threatened to be a desperate situation this coming winter, Senator Walsh warned that there was a "growing belief among the people that in a emergency like this they will be allowed to starve and die without relief from their government."

Vigorously defending the president, Senator Cummins declared that the executive had done everything in his power to bring about a settlement and to relieve the people. He added that responsibility for the failure to end the strikes rested neither with the

president nor congress, but that blame attached to both parties to the controversies. Both Senators Cummins and Borah asserted that the president had no power to compel an agreement. Senator Nelson, republican, Minnesota, expressed the opinion that the "whole trouble was 'industrialism'."

Replying, Senator Cummins declared that it ought to be a crime for employees to strike when the government undertook to adjudge for them the justice of a dispute. He added that in his opinion this was a final remedy for such conditions as those now existing.

PLEATING
Accordian pleating is used to excellent advantage on many of the new frocks. It is used in the form of panels, deep collars and side draperies and gives the long graceful lines so desirable now.

LESTER LACE
French luster lace is being exploited. It is made of pure silk, somewhat heavier in weight than Spanish lace. The designs are very bold and cubistic, and a high lacquered effect is achieved.

Discipline in the G.O.P. Has Gone to the Dogs

HAROLD KNUXTON, G. O. P. WHIP (ABOVE) AND SIDNEY ANDERSON (BELOW).

(By N.E.A. Service)

WASHINGTON, Aug. 25.—Discipline in the G.O.P. has gone to the dogs. Republican leaders in congress are looking around for a new Simon Legree who can whip obstreperous congressmen into line.

The trouble is that so many statesmen are back home fixing their political fences and building cyclones.

Beauty Contented

You are always contented that your beauty has been developed in the highest of its possibilities after using Gouraud's Oriental Cream.

Gouraud's Oriental Cream

cellars for November that party leaders can't get a quorum in the house. Even the official whose duty it is to round them up—a party official called the whip-jumped the reservation himself.

When the house reconvened after its recent recess there was no quorum. And even Harold Knuxton of Minnesota, the G. O. P. whip, was delinquent. Immediately there was talk of ousting him and naming a new whip. Sidney Anderson, also of Minnesota, was suggested.

"Nothing doing," said Anderson. Anderson felt he couldn't discipline others when "we got to go out to Indiana in a day or two," he said, "and I think I'll just go on out home while I'm about it. Anyway, there's nothing we can do here in a legislative way that will help our chances in November. We may as well go home and look after our own campaigns."

That's the way four-fifths of house members feel about it. They used to toe the mark when the whip cracked, but now they fear the folks at home more than they do party discipline.

"The party can take care of itself in Washington," they say. "We've got our own worries back home."

Leaders say the house has never been so split as it is now over important legislation. Meanwhile statesmen's minds are not on the job of legislating. They're more afraid of the whip the voters will wield Nov. 7 than the G. O. P. whip—even if the leaders can find somebody to take the job.

CHARGES ALLEN MIS-USED HIS OFFICE

BOSTON, Aug. 25.—James Jackson, state treasurer, in a speech before a committee of Channing Cox supporters at the City club last night, charged Atty. Gen. J. Weston Allen has "utilized his office for his political advancement rather than for the interests of the people."

He praised the appointments made by Gov. Cox and in reply to the Allen charges of Jones influence said that he had "yet failed to see the influence of any individual or any so-called 'political machine' in the conduct of the affairs of any department of this state."

Treas. Jackson said, "I have given considerable thought to the statement made by Mr. J. Weston Allen, attorney-general, that I should not use my position as an officer of the commonwealth to interfere in the primary campaign. But in view of the fact that Mr. Allen has seen fit to issue statements which I consider inaccurate and make insinuations and innuendoes which I consider unjust, I believe it is my duty as an officer of this commonwealth to protect the people against voting for a man who is presenting his campaign to them in a false light."

It seems evident to me that the attorney-general is presenting his candidacy for governor to the people as a result of two trials; that is, the prosecution of former District Attorney Tufts and Pollitt. While I dislike to take away any credit for his part in these trials, I do feel that it is fair to point out that the evidence which proved acceptable to the court in both these trials was not prepared in his office, but in my judgment the brains back of these cases were the brains of the Massachusetts Bar association, back of these cases were the brains and more particularly Messrs. Hurlbut and Dodge.

WIG-WAGS FOR AID Stood on Top of Wrecked Car and Signalled to Naval Barge—3 Women Hurt

NEWPORT, Aug. 25.—Three women were slightly bruised and a score of men, women and children shaken and men when a New York, New Haven & Hartford passenger train bound for Newport from Boston was derailed late yesterday three miles outside this city on the shore of Narragansett bay. Only the locomotive remained upon the tracks.

The tender was torn from the engine and with the single passenger coach, the smoker and the baggage car ripped up the tracks for 300 yards, finally stopping perched at a precarious angle.

Mrs. John S. Deau of New York, Mrs. Mary E. Walte of Worcester, Mass., and Mrs. E. B. Bolden of Salem, Mass., were taken to a hospital where it was said their injuries were not serious.

The ingenuity of F. C. Burst, a radio operator at the naval coaling station at Milville, brought quick aid to the passengers. Climbing from the wrecked smoker the sailor wig-wagged signals from the top of the car to a naval barge at anchor in the bay. A launch was sent ashore from the barge and took all of the 30 passengers to Newport. The train was in charge of Conductor H. G. Smith of Newport and Engineer Robert Croighton of Fall River. It was believed that the wreck was caused by spreading rails.

BAG WITH \$15,000 IN JEWELS STOLEN

NEW YORK, Aug. 25.—A black bag in which Mrs. Helen Campbell Wil-

iams of Philadelphia, claims was \$15,000 in jewels, was stolen from her on a Pennsylvania train just before it entered this city, it was announced yesterday.

The bag in which she carried the jewels was removed and another bag almost identical was left beside her seat.

\$300 FOR AERIAL TICKET TO INDIA

LONDON, Aug. 25.—Trips to India by air in three days, at a cost of \$300 first class and \$175 second class, may soon be offered British travelers. A number of large technical corpora-

tions have made a proposal to the government to run a mail and passenger service from London to Bombay. The airships would have a capacity of 30 miles an hour with 2000 passengers. The proposal has been put forward in order to develop the communications of the British empire in speed and cheapness, and thereby assist the development of trade. No promotion profits would be taken by any party, and all the promoters ask is a subsidy from the government sufficient to pay the public investor a dividend of 4 1/2 per cent.

If you want to buy, sell, rent or exchange anything, try a Sun classified ad.

THE PURCHASE OF SUPPLIES

It is now over twenty-five years since, at the behest of Lowell's leading citizens, the city charter was amended so as to provide for a department for the purchase of supplies. It was contended at that time that such a department would prevent grafting which was charged against some heads of departments in the purchase of supplies. Another aim was to secure competition in the sale of supplies to the city. These two purposes were secured, so far as could be discerned, by the operation of the supply department. The purchasing agent under the old charter was not hampered or interfered with by the mayor. He was in reality the official commissioned to purchase the supplies needed by the various departments.

The responsible heads of these departments sent in requisitions for what they wanted and the purchasing agent did the rest according to his best judgment in the interest of the city.

What was the original purpose of the department, but as the business of the department is conducted under the present charter, it seems that the purchasing agent is little more than a rubber stamp for the mayor who can dictate what shall or shall not be purchased.

Section 31, Part 1 of the present charter says: "The purchasing agent shall purchase and contract for all materials and supplies for all departments of the city subject to approval by the mayor. The mayor shall approve all contracts for the purchase of material and supplies and all purchases of materials or supplies shall be approved by the mayor before the same shall be considered accepted by the city."

At present there is a difference of opinion as to what constitutes the approval by the mayor. Every requisition must be signed by the mayor before the purchasing agent can advertise for bids or award the contract. But whether the mayor has the right to examine and pass upon the quality of the materials when delivered is a question upon which even lawyers hold conflicting views. By some it is held that the mayor's signature of a requisition constitutes his approval as contemplated in the charter and that the purchasing agent should have full freedom in finishing the transaction. It is understood that Mayor Brown holds a different opinion, however, as his official action in some recent transactions would indicate. It can hardly be expected that any one individual is competent to pass upon the supplies purchased for all the city departments. The department experts alone are competent to perform that duty.

On this matter the old charter adopted in 1811 was very much preferable. It provided that "all materials and supplies for the city shall be purchased by the chief of head of that department, subject to the approval of the commissioner of the particular department for which the same are intended, or in case of the purchase of material and supplies for the school department, subject to the approval of the chairman of the school committee." That method is very much preferable to the one now in force under the present charter, and certain controversies resulting from the present arrangement are an amendment that would give the head of each department at least a voice in the approval of the supplies purchased on his requisitions.

FROM GOOS TO THE SEA

The political flags are flying up in New Hampshire, and trees and billboards are flaunting gaily the pictures and platforms of the various candidates for the Granite State gubernatorial chair. The democratic campaign is a lively one this year, with three candidates for governor—Mayor Fred H. Brown of Haverhill, former Senator John C. Hutchins of Stratford and former Congressman Albert Wellington Noone of Peterboro.

Mayor Brown is the latest contestant for the governorship. He is a young lawyer, energetic and a man of high character. He has a fine record in his constituency, his friends say. Mr. Hutchins is one of the substantial lumber men and merchants from up around the Canadian line. Although at present residing in California, his friends are actively pushing his candidacy and are planning to welcome him home in a few weeks.

Perhaps the greatest figure in the democratic line-up, however, is "Uncle Alf" Noone, as he is popularly known in New Hampshire. Mr. Noone is a woolen manufacturer, always a friend of labor and is running for governor on a business man's platform. This is "Uncle Alf's" third try for the gubernatorial office.

One thing that can be said for Mr. Noone is that the people all know him and like him. And he would like to be governor as no other candidate in the line-up, believing that he could materially help in disposing of the war programs of both capital and labor without calling out the state troops.

THAT NEWBURYPORT HOLD-UP

Holding up more than 500 automobiles on the Newburyport turnpike on Sunday to ascertain the number of car owners who are not living up to state laws and regulations governing the use of gasoline-driven vehicles, was of course a mighty troublesome task to many folks who obey the laws to the best of their ability. But the number of persons caught with defective brakes, horns or lights, or without proper credentials for driving automobiles, are not entitled to credit for martyrdom. The law violators who were caught have only themselves to blame if they are haled to court. Perhaps the state constabulary knew that a hold-up of this kind would teach a good many people stern lessons—that the highway laws must be obeyed, that the laws controlling the use of

automobiles are to be enforced, and that violators of the law's provisions are to be punished from now on. Similar surveys might well be taken on other important highways where heavy traffic is the rule.

MISS ROBERTSON'S CAMPAIGN

Miss Alice Robertson, congresswoman from Oklahoma, is among the most sensible of the women who have sought public office since they were granted the suffrage. Recently in opening her campaign she read a resolution from the bible and announced that she is a Christian and an American, two facts that may have weight with some of the Oklahomans. It is not often that candidates talk of their religion; and anybody who has the right to vote can claim to be an American. It would have been more pertinent if Miss Robertson had told her attitude toward the republican party and its action on the great questions of reconstruction.

THE TEXTILE STRIKES

The time has arrived for settling these labor conflicts. Labor day should see them all amicably arranged by the parties concerned. The return of normal industrial conditions has been retarded by the conflicts maintained in the textile industry in the various cities of New England. Lowell has sustained serious loss as a result of the mill strikes, but not nearly so much as Lawrence in which all the mills except the American Woolen, were affected by strikes. It appears that the latest offer made by the Pacific mills is to be accepted by the strikers so that all the operatives of that mill will return to work September 1.

HOUSING PROBLEM

Renters, ahoy! The Associated General Contractors check up and predict that 750,000 new dwellings will be built in the United States this year. There is a long row to hoe yet, however. The housing shortage at the beginning of 1922 was 1,000,000 homes. Out of the estimated 750,000 homes to be built this year, 611,000 are for normal requirements, mostly replacing old ones. The balance, only 139,000, applies to the shortage.

WAGE INCREASE

It is announced that the employees of the United States Steel company have been given an increase of 20 per cent in wages, making their wages now 35 cents per hour. Before the increase, therefore, they were receiving 30 cents an hour or \$2.40 for an eight hour day. If they didn't work something like eleven hours a day, they would be unable to live under present conditions. Another increase will soon be in order.

RACING

The \$100,000 stable that used to be the home of Dan Patch burned at Savage, Minn. It will open locked doors in many memories. There are famous horses today. But Dan Patch stands out clear-cut and unique, a monument to the delightful racing days before the sport of kings went on the rocks of dishonesty. Horsemen are trying to build a new ship. Have they learned their lesson?

UP TO CONGRESS

President Harding has turned over to congress the matter of settling the railroad strike and the country now awaits action by the national legislators looking to an early settlement of the trouble. If congress wrestles with this subject as they have with some others, including the tariff, a decision may be expected some time before the new year.

The city of New Bedford is talking of having a planning board that would direct the progress of public improvements and lay out a system for future development. If the planning board of other cities remain as quiescent as that of Lowell, it will be of slight advantage to any city to have such an institution.

Some women, anxious to assert all the rights if not the practices of men, insist upon smoking in public places. There is no law against women smoking on the public streets just as there is none against their wearing whiskers which some of the feminists may ultimately cultivate.

Another government seaplane comes to grief attempting to make a world's flying record. Luckily the members of the crew were rescued in time to provide them an opportunity to start all over again.

The politicians are becoming excited and aggressive. Some of the men who dwell in the most palatial structures are sending out the most poisonous missiles.

No rate war is coming on the Atlantic steamship lines probably. American tourists being willing to pay the price for a trip across the sea without protest.

Those six students of the Pennsylvania State college who subsisted for six weeks on food costing but 50 cents a day, would probably not like to continue the experiment indefinitely.

It looks as if the empty coat bins might be responsible for a number of changes in electrical results in the November tug of war, if anyone should nag you.

Submarine H-24 has just been launched at Quincy, but the news attracted little attention nowadays.

Few people had any complaints to make about last week's weather conditions, even if the coat bins are empty. It looks as if the bonus bill will be passed by congress and the president will hardly dare to veto it.

SEEN AND HEARD

Made a terrible mistake the other day—said goodbye to a hello girl.

When it comes to leaving one another those movie stars are all right.

Once upon a time we used to go along with our head in the air, but that was before the days of the short skirt.

A Thought
Who shall decide when doctors disagree,
And soundest consultants doubt, like you and me?
—Alexander Pope.

Today's Word
Today's word is—turpitude. It's pronounced—tur-pi-tyood, with accent on the first syllable. It means in general, baseness or wickedness of people, words or actions; shameful wickedness; depravity. It comes from—Latin "turpis," foul, base. It's used like "President Harding, in deciding to pardon certain war-time prisoners, took the position that their offenses, while such as to justify the sentences against them, did not imply moral turpitude on their part."

King of Spain
A man arriving at a hotel was asked to register. The manager took up a pen and wrote "The King of Spain." The clerk was surprised, the manager made inquiries and, approaching the visitor, said: "Excuse me, but is this your writing in the book?" "Yes," said the visitor. "But," continued the manager, "you are not really the King of Spain," to which the visitor replied: "No, but I travel under that name—it is my incognito."

European Debts
The fire began to burn the stick, the stick began to beat the dog, etc. That's how a chain cancellation of European debts would work out. England would forgive France, which would forgive Germany, which would forgive the United States, which would forgive England, and so on. No one to forgive us. Such a cancellation, England reasons, would induce them to dump down here some of the German indemnity. In the last analysis, the effect would be to make America pay part of the German indemnity.

Talk Conversation
Man, commonly accused of a tendency to talk too much, is losing the art of silence in his American edition. So says Prof. Edward Sapir, Canadian anthropologist, after a visit to New York. He found New Yorkers inclined to be conversational. They surrender to the difficulty of talking in the presence of business. People lapse into silence when they have to converse with loud noisemakers. Congress needs to have a bolder factory built next door.

Soft for the "Queer"
The prohibition law in Ontario, Canada, allows horse doctors two quarts of liquor a day, to be used at their discretion. While believing in kindness to dumb animals, it requires no imagination in conceiving of an alling horse needing whiskey, brandy or gin. Maybe it's a precaution, to insure a square deal for the horse. A horse is harder to doctor than a man, for he can't describe his symptoms. Man, blessed with the power of speech, has no difficulty availing himself of a doctor, a prescription and what ails him.

Famous Dog Reminds
For 20 years ago, visitors were allowed in the Mallon home in Milwaukee. Bremen broke in. They found the place a dog temple. Nine mummified dogs were displayed, lying in state in the candle-lit parlors. In an upstairs room a queen dog presided over eight living dogs, blinded by lack of light. It all sounds like some weird religious rite. No one would think it queer, however, if the Mellons had kept mounted fish, deer heads or animal pelts instead of dog mummies. The strange thing in the universe is so complicated that no one understands it, not even the owner.

Back to Bug House
An Austrian who had gone suddenly insane in 1910 and who had been confined in an asylum near Vienna, bilious, violent and full of the rage of the revolution, was recently discharged as cured. To celebrate, he hired a cab and had himself driven to the frontier. The driver, who carried him to the border, was told to take him to a place where he could get a drink. "This is terrible," he said, "I don't dream of going to a place where I can get a drink with me." The driver stared at the gold coin, but answered readily. "That's all right. You can't drink in a bug house. The one who changed the name of the place to 'bug house' is a terrible fellow. Here, take it all," he said, "and drive me back to the asylum."

Sins of Omission
It isn't the thing you do, dear,
It's the thing you leave undone,
Which gives you a bit of heartache,
At the setting of the sun.
The tender word forgotten,
The letter you did not write,
The flower you might have sent, dear,
Are your haunting ghosts tonight.

For life is all too short, dear,
And sorrow is all too great,
To suffer one slow commission,
To let a chance slip from the net,
And it's not the thing you do, dear,
It's the thing you leave undone,
Which gives you a bit of heartache,
At the setting of the sun.
—BY MARGARET H. SANGSTER.

THE MAN ABOUT TOWN

Picking up yesterday's paper I came across two different items on the subject that makes me wonder whether or not the local police chief will be called upon to decide an important question relative to the right of the fair sex to smoke on our public streets. From New York came the news that a woman was ordered to stop smoking on a public street. When she refused, she was ripped over the knuckles by the officer or something of that kind. From Worcester comes the news that the police chief decided there was no law to prevent women from smoking. What will be the attitude of Chief Atkinson if he is confronted with the problem? My own home town is the only one in which the women of our city are as much too sensible to raise the question.

Women of this city are going to vote in great numbers this year, according to all indications. The local chairman of the elections commission says that he expects a heavy registration next week. There are four days in which those desiring to exercise their citizenship rights have to register. The commission chairman gives as the reason for this large number of voters the fact that a number of men in the field, they and their friends will be working night and day from now on preparing people for registration. Last year at this time registration was a tedious and uninteresting duty. They failed to record very many new voters. This year it will be different, according to the opinion of those who know.

Any one who goes to bed nights and leaves his door open is taking a big chance with the weather man's temper. Witness the rain of yesterday morning. I know of many a housekeeper who would have had eggs and curdles to dry yesterday as a result of leaving the windows open on retreating Wednesday night. It will be remembered that the storm

WOMEN SAVED BY HEROIC FIREMEN

D. W. O'Leary of Boston
Department Rescues Three by Most Daring Feat

Leaps Across Window Ledges, Hands Out Two and Carries Third to Safety

BOSTON, Aug. 25.—In one of the Back Bay's worst fires in several months, which occurred in the apartment house at 76-78 Westland ave. late yesterday afternoon, three women were rescued from death by smoke, and several firemen were overcome by smoke and escaping gas.

The injured follow:
Mrs. Flora McNabb, 60, 277 Harvard street, Cambridge. Overcome by smoke.
Mrs. Emma J. Benson, 72, 76 Westland ave. Overcome by smoke.
Mrs. Theodosia C. Hart, 66, 76 Westland ave. Overcome by smoke.
Capt. Joseph P. Hanton, 48, 841 Boylston street. Overcome by smoke.
Fireman William H. Lannigan, 36, 19 Glenwood street. Overcome by gas.
Lieut. Dennis J. Bailey, 21 Fenwood road. Cut by glass.

The fire started from an undetermined cause on the top floor of the house numbered 75 and before it was brought under control had raced through the entire suite of rooms and apartments, rescuing other apartmenters only through the heroic work of the firemen.

It is believed the fire started from some sort of an explosion. Firemen and police reported after the fire had been extinguished there was a very noticeable odor of escaping gas. Before the supply could be shut off one fireman collapsed and others were visibly affected.

Women Found in Collapse
The rescue of the three elderly women was one of these heroic affairs that make history for the fire department.

When Ladder 15 from Boylston street arrived on the scene some of the company were sent over the front stairs to aid in leading lines on the fire itself and Laddermen Daniel W. O'Leary, William W. Molway and William McKiernan were sent into the adjoining house at 74 to see if any of the occupants were in danger.

They went through the building and, arriving on the roof, peered into the windows of the top apartment at 75 and were shocked to see two of the women in a state of collapse at the windows and another lying unconscious on the floor.

The firemen hastened down to the top floor of the house and into a room just across an airway and about three feet away from the room in which the women were trapped.

Nervy Feat by O'Leary
O'Leary, throwing up the window, reached across and with his fire hat broke open the window. He then stepped across the intervening space and into the room. His comrades remained on the other side.

Picking up Mrs. Benson, he placed her on the window sill in such a position that McKiernan and Molway could reach her. They soon pulled her across the space and into the room. Then Mrs. Hart was assisted in the same manner.

O'Leary discovered that in the few seconds it had taken to effect the rescue of the two women the room had filled with smoke that it was impossible for him to see the third woman. He had a general idea where she had fallen and groped his way across until he touched her.

He lifted the unconscious woman on his shoulder and, stepping to the window, he hoisted himself with one hand against the frame and stepped across the space, at a height of 50 feet in the air, and into the other room.

Fire Cross Agent Rescues Victim

The firemen brought their burdens to the street, where an ambulance from Back Bay station was waiting. Mrs. Benson and Mrs. Hart were sent to the hospital immediately, but William E. Longfellow of Washington, field agent for the national safety council of the American Red Cross, gave Mrs. McNabb the prompt treatment for gas and, when she was sent to the hospital, when an ambulance from the Langrange street station arrived on the scene.

Longfellow had been, with John Hasey, attached to the motor squad giving demonstrations of the proper treatment when the alarm came from the Back Bay station. He hastened to the fire and got there just in time to be of service.

Sent to Hospital, Rushed Back to Fire
Just after the woman had been rescued Capt. Hanton collapsed from fatigue. He had equalled the fire on a back alarm and with his company had rushed up the front stairs of the apartment house. For several minutes, while awaiting the arrival of other apparatus, the captain and his men took a terrific dose of smoke.

When he recovered from the effects of the smoke he was sent out of the building and fighting desperately to return to his post. He was hurried to the hospital and, after receiving treatment, despite the protests of the physicians returned to the scene of the fire.

Lannigan's collapse came when the fire had been almost extinguished. The escaping gas was very noticeable in the apartment and several of the firemen were beginning to show the effects of it. Lannigan felt himself going and called for aid. Lieut. Bailey sprang to his side and when he was assisting the fireman from the

broken some time after 3 o'clock. The rain came down in torrents for about two hours. I am informed that one man who slept close to an open window woke up about 4 o'clock and, feeling that the presence of water was raining, started making a swimmer's motions. Another, who claims the weather has never fooled him yet, slept peacefully through the storm. The sleep would have been all right if the man had taken it indoors, but he, always sleeps out in a piazza where there is little shelter from rain.

Throughout this summer and summers past the slightest rain awakens him and he is able to see the stars. He must have retired Wednesday night with an unusually clear conscience for he slept soundly, something unusual for a person with a troubled conscience.

FORMER LOWELL MINISTER HONORED

Rev. E. Victor Bigelow, a former pastor of the Elliot Congregational church in this city, and now pastor of South church, Andover, was again elected president of the Congregational summer conference at the Isle of Shoals.

REV. E. VICTOR BIGELOW

Shoals at the postponed annual meeting held Tuesday. Rev. Mr. Bigelow has been a very active worker for the success of the conference and the delegates honored him with another term as president. He recently wrote a very comprehensive history of the Isle of Shoals, which has been very popular with the delegates of both the Unitarian and Congregational summer conferences.

place they slipped and Bailey was cut by glass.

20 Occupants Thrown Into Panic

The apartment house is of the double variety, with an elevator well and hallways separating the suites. When the occupants are home there are about 60 persons, the majority of them women. In the place, at the time the fire started there were only about 20 persons in the house. They were thrown into a panic by the thick smoke and the roaring flames and rushed in haste to the street.

In other apartment houses on the street intense excitement prevailed. The work of the firemen was a matter for favorable comment on all sides. Ladders were thrown up against the front and side of the apartment house within a few minutes of the apparatus' arrival. Ladder 12, by the cleverest maneuvering, was slid into a narrow alleyway beside the house and an aerial ladder raised which was of great service in getting lines of hose into position.

GINGHAM

Gingham handkerchiefs are extremely popular with flappers. So are corsets, brassieres and bathing suits of this material.

LINGERIE

Nightgowns of Italian silk are perhaps the most practical type on the market as they are easily laundered and may be pressed by a few strokes. There is a new empire type, with pleated neck and sleeves, that is much more becoming than the more common strap type.

Woman Blamed by Her Family

Restless, irritable, nervous, excitable and exacting is the charge against her by those nearest and dearest. How little they realize the struggle the over-tired wife and mother is making to keep about and perform the hundred and one duties that devolve upon her! Every hour her headaches, backaches and pains drag her down until she can stand it no longer. Lydia E. Pinkham's Vegetable Compound has restored women in this condition to health and happiness than any other medicine. The grateful letters we are continually publishing in this paper from women who have found health by its use prove it. Adv.

Berton Braley's Daily Poem OFF FOR COLLEGE

No doubt you'll get out for the glee club,
And probably try for the team,
And I'm figuring that you may land in a frat,
Which is each undergraduate's dream;
Your car will come in very handy
At house parties, during the year,
And your wardrobe's complete, so you'll look smart and neat
At functions where you may appear.

Your tennis, perhaps, might be better,
But that will improve, I expect,
And the bridge game you play ought to aid your entree
Into circles extremely select;
You're THERE with the small social chatter,
Which helps at a dance or a tea,
And the golf you put up ought to win you a cup
By the time you're a full-fledged A. B.

You'll probably work for the journals
Which students conduct with much skill,
And maybe you'll rate pretty high in debate,
I'm willing to wager you will;
All this ought to help your advancement
And aid you to make quite a hit—
And once in awhile, when you've time to beguile,
Perhaps you might study a bit!

Autumn Millinery Shows Husbands And Fathers Have Hard Winter Ahead

THREE CONSERVATIVE YET SMART STYLES IN MILLINERY THAT EMBODY THE LATEST TOUCHES. THE MODEL ABOVE IS OF FELT, TRIMMED WITH PHEASANT FEATHERS. INSERTS SHOW THE POSSIBILITIES OF THE TURBAN.

BY MARIAN HALE

You can't tell what is going on inside the head of the modern woman, but what is going on outside is immensely interesting.

One glance at the new fall crop of millinery and you experience a sensation of deep sympathy for the fathers and husbands of our land.

They're a hard winter ahead.

The second look braces you wonderfully. You realize women have an unusual opportunity to look beautiful, hatted according to the new modes.

And you have a pleasantly thankful feeling that all the designers got together in a clubby fashion and decided to play no favorites and give everyone an even break.

Large, medium and small hats—they're all in evidence. Of course the large hat is attracting lots of attention because it is new, but it is in no danger, even temporarily, of totally eclipsing the small turban so becoming and so practical.

The turban is back, after a period of retirement, softer and more yielding than formerly, but still with its perky, snappy air, gained by stiff feathers, tailored bows and upstanding cockades.

Velvet, satin, brocade, hatters' plush, duvetyne and felt are employed. For trimmings ostrich might be said to be in the lead, for it is shown very extensively in willow effects and in what milliners call "fancies." Changeable ostrich is a novelty.

Back trimming is a decidedly new feature. Big satin bows, colorful embroidery and fancy feathers are placed directly in the back.

Of course, the side trimming is

most general because it is most becoming. Nearly every woman favors one side of her face and this type of millinery co-operates to that end. Trimming is placed low and frequently is permitted to dangle off the brim. Sometimes feathers are wound several times about the crown before this is granted.

Buzzed peacock is a popular trimming; so hand-made silk and metal cloth flowers. Gold and silver lace are used to advantage to soften the line of the brim as is also the becoming black Chantilly lace.

Some far is seen in trimming, but it is yet too early in the season to say what part it will play in the fashion drama.

But determine the line and type of your frocks before you buy your hats. Match your hat to your new winter silhouette.

SHORTAGE OF \$750,000

John Guild, Philanthropist and Former Treasurer of Sugar Factories, Confesses

HONOLULU, Aug. 25.—(By the Associated Press.)—John Guild, philanthropist, leading citizen of Honolulu, and until a few days ago, treasurer of Alexander and Baldwin, sugar factories, and shipping and insurance brokers, has admitted a shortage in his accounts of \$750,000, and has told how it was done, according to an announcement today by the firm's directors.

Guild, they said, had duplicates of all statements, accounts and stationery used in the firm's offices here and San Francisco, New York and Seattle, which enabled him to manipulate the inter-office balances so as to extract surplus cash and cover up shortages. Physicians attending Guild reported that he was recovering from the heart attack which menaced his life following the shock of publication of the charges against him.

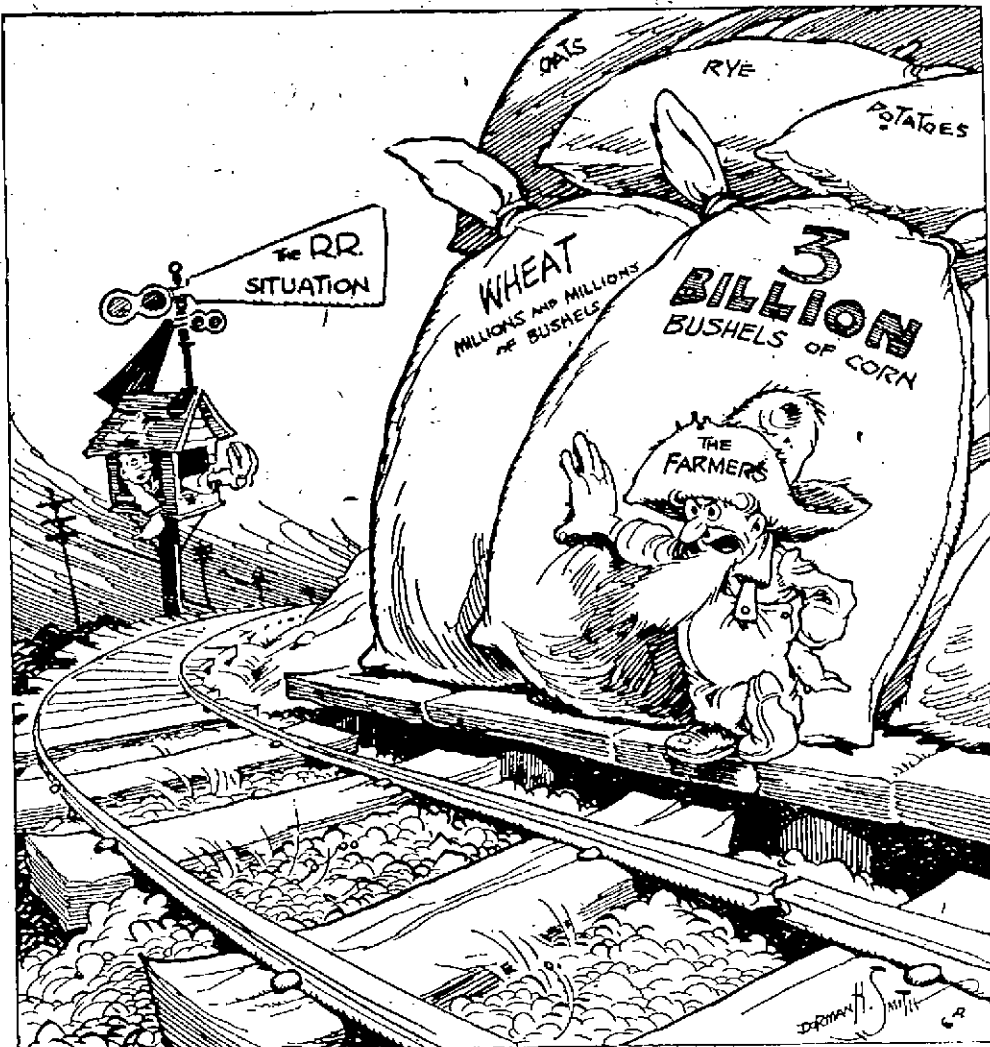

The grand jury will be called in special session to consider the case.

from early morning until closing time in the evening.

Dows drug store is one of the best known drug stores in the city. Since way back in 1850 the name of Dows has stood out prominently as pharmacists of the first water and it sure is a great record, this one, that reaches like a ladder from before the Civil war, each round of the ladder a year of service, a year of improvement, a year of growth.

A few months ago when plans were being formulated for the expansion and taking over of the entire corner on East Merrimack and Bridge street for Fairbairn's market, Inc., arrangements were at once made to house the Dows Drug Store in the same building on the East Merrimack street side. The result is one of the finest and most up-to-date drug stores in this or any other city. Over 15,000 different items are carried. Registered pharmacists are in attendance at all times. Quality and service, first, last, and always is the motto of the Dows Drug Store and the one thing above all that proves the value of a record

HOTEL MAN IN QUANDARY

Must Decide Whether Duke and Duchess Take Precedence Over Mint Director

SAN FRANCISCO, Aug. 25.—The management of the Hotel St. Francis here must decide by some time tomorrow whether a duke and his duchess and their entourage take precedence over the director of the United States mint. The hotel has a presidential suite with a private elevator, three bed rooms, a dining kitchen and servants quarters. Just now F. E. Scooby, director of the mint, and close friend of President Harding, as in the suite. His plans, it was intimated last night, included remaining in the suite for some time yet.

Tomorrow, however, the Duke de Talleyrand-Perigord and his duchess, who formerly was Anna Gould of New York, are to be here from the northwest and have asked for and expect to get the presidential suite. In the train of the nobleman and his wife, are many servants, much luggage and a pookinkee pup, "Tanky."

Besides the suite, the hotel has been asked to provide for the noble entourage additional servants including a maid-in-waiting, a valet de chambre and a barber. That is easy, the manager of the hotel says, but whether to ask the mint director out—that is not so easy, if proper.

DENIES KNOWLEDGE OF POISON PEN PLOTS

RENO, Nev., Aug. 25.—Objections on the part of his family to her activities as a suffragist and society leader and the fact that she is a divorcee, may stand in the way of her marriage to Asa G. Candler, Atlanta multi-millionaire, Mrs. Onozima de Bouchelle, formerly of New Orleans, admitted today. But she denied any knowledge of poison pen plots designed to break off the match.

Mrs. De Bouchelle said that members of the Candler family, including Candler's brother, senior bishop of the Methodist Episcopal church, objected on religious grounds.

"I am a Catholic and a divorcee," Mrs. De Bouchelle said. "I have been in society and have been a suffragist leader. Bishop Candler does not approve of any of these things."

Sweeping Investigation

NEW ORLEANS, Aug. 25.—Identity of two or more persons socially prominent in New Orleans, who are alleged to have "intermeddled" in the affairs of Mrs. Onozima de Bouchelle, is the success behind them. Dows remedies, all of them, have had unqualified recommendations from the people of Lowell. Direct entrance from the store to the elevator in the Fairbairn building leads to offices of doctors, dentists, lawyers, etc.

It will pay you to get The Sun classified adv. habit.

local club and social leader, whose engagement to Asa G. Candler, of Atlanta, was recently announced, are expected to be made public within the next few days.

This information was included in a statement authorized yesterday by Harold A. Moise, a local attorney said to have been retained by friends of Mrs. De Bouchelle to identify and prosecute the authors of several "poison pen" letters alleged to have been sent to Atlanta, bearing a New Orleans postmark, in an effort to slander the New Orleans woman.

It was announced that a sweeping investigation, participated in by private detectives and postal authorities, had been concluded.

Two Strong Candidates to Succeed Alexander

NEW BASEBALL RULE TO RESTORE OLD ROMANCE

By BILLY EVANS
Is baseball losing much of its color? If you are willing to take the word of many veteran managers and players, it is.

The veterans mean that romance has filtered out of the game and that it has become a hard, cold business proposition. Recent deals by the two New York clubs have caused much comment. Some of the fans feel that the magnitude with the biggest bank roll can command the best team in these modern days.

Such a feeling makes the fans think that color, or romance, or sentiment, is fast drifting out, and the sports becoming a highly commercialized institution.

I understand the American league is thinking seriously of putting through a rule that will make it impossible to trade or buy star players during the actual playing season.

Does Seem Drastic
On the surface that may appear too drastic a measure, yet I am sure the fans would welcome it. Incidentally it would rest to the credit of the game and kill off some of the feeling that now exists relative to commercialism in the sport.

Now, when some major league club buys a star player the fact is widely heralded, but the dollar mark plays the most prominent part in the publicity given to the minor league star. Last fall New York paid the San Francisco club \$75,000 for Player O'Connell. It was the highest price ever paid for a minor league star, a fact much dwelt upon. In reality it was about the only news given to fans concerning O'Connell.

Recently the Chicago White Sox management paid \$100,000 for Third Baseman Kamm. The fact that Kamm cost more than O'Connell was the news that was spread over the country.

High-Priced Beauties
No doubt of any account was broadcast about the habits, hobbies or the unusual ability of the players concerned. They were simply high-priced beauties.

In striking contrast to the cases of O'Connell and Kamm is that of Cobb, when he broke into the majors. It was not through the dollar mark, but because he did things differently.

When Cobb came to the American league columns were printed about his crazy antics on the base and at the bat. As a matter of fact, Cobb attracted attention from the Detroit club in a most unusual manner.

Got a Good Laugh
Here is a story that is credited to the late, but not forgotten, Captain Navin of the Detroit club. It was back in 1905 when the Tigers trailed at Augusta, Ga. Navin was with the club.

"Say I got a big laugh for you here," said Schaefer to Navin.

"What's the laugh about?" asked Navin. Schaefer explained.

"They have a crazy kid on this Augusta club that will give you enough laughs to last out the season. He tries to stretch every single into a double and every double into a triple. He starts for second when the pitcher is holding the ball. He beats with his right foot. In fact, he does everything differently from every other ball player."

Navin watched the crazy kid that afternoon. At the close of the season he bought him for \$750. That kid was Tyrus Raymond Cobb.

Alex. Chase, Johnson
Cobb's case is remarkable, but no exception. Alexander cost the same amount of money as did Chase. Walter Johnson was picked up for practically nothing.

There is still color in baseball, but the dollar mark and less of the dollar mark and they will be better pleased.

GOLF TOURNAMENT
BIRMINGHAM, Mich., Aug. 25.—The western open golf tournament went into the final round today with the title apparently resting between Mike Brady, Oklahoma Hills professional, and Jack Hutchinson, of Chicago.

Brady started today's play with a total of 135, while the 32nd qualifying holes and Jack was trailing with 145.

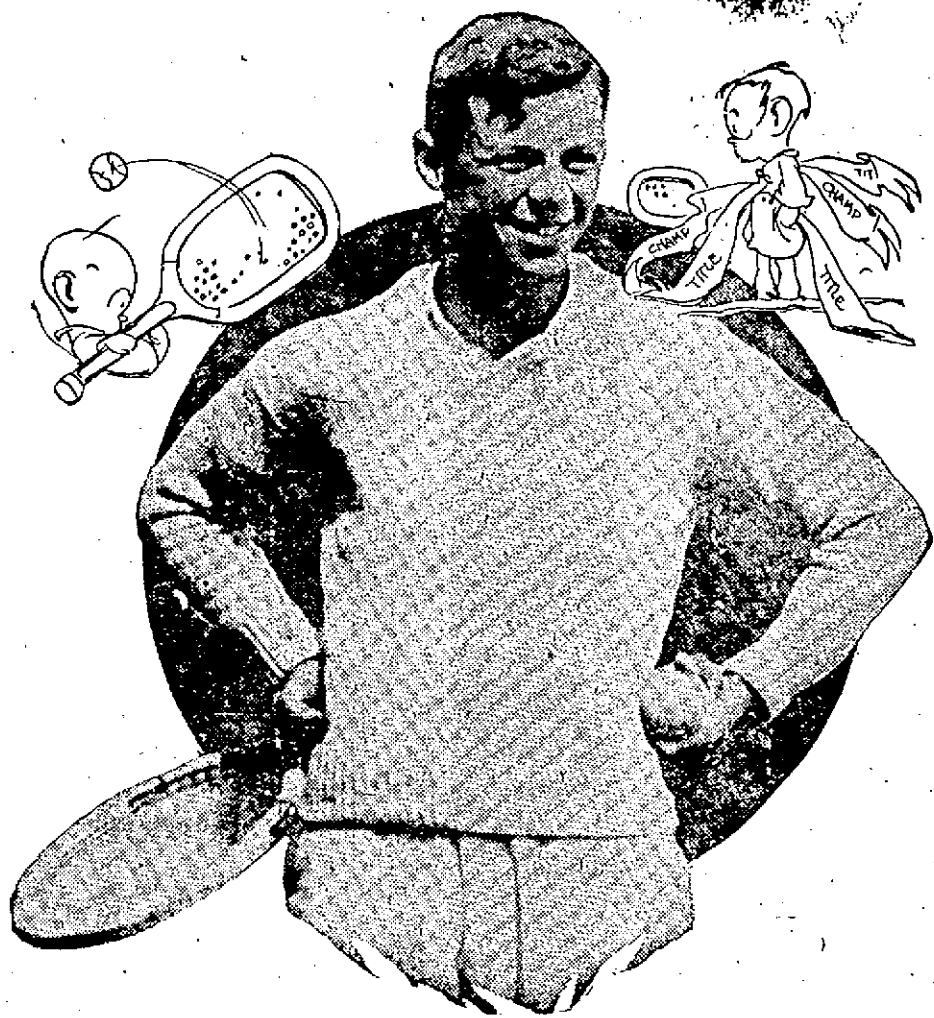

A fan who signs himself Charlie Conroy, sends in his version of the best Twilight league teams. In his communication "Charlie" says he has communicated the two lineups without prejudice and intentionally omitted Loftus, Spilane and Lawrence because they are not bona fide residents of Lowell. The selections follow:

First team—J. Liston, Y.M.C.A., of Gleason, Broadways, 17; Tyler, Centralville, 18; Cawley, Y.M.C.A., 20; Ford, H. D., of C. 21; Duffy, of C. 22; Crook, K. of C., 23; Sullivan, H. D., of Peterson, Mass. 24.

Second team—Buckley, Centralville, 25; H. Jenkins, Y.M.C.A., 26; Green, H. D., 27; Daley, K. of C., 28; Freeman, H. D., 29; Green, H. D., 30; Smith, H. D., 31; W. Foye, Centralville, 32; Cawley, Y.M.C.A., 33.

And still another All-Twilight league team has been suggested by a Sun reader. It follows: W. Foye, of Peterson, 1; Tyler, 18; Williams, 20; Green, 21; Cawley, 22; Gleason, 23; Bringsford, 24; James Liston, 25.

New Tennis Star Rising in West

ARMAND MARION

In Armand Marion, only 17 years old, but already three times northwest junior title play in Boston. The boy, who began his career of triumph when he was only in knee breeches, has gone right up through the grade school, high school and sectional junior tournaments, winning from everybody he played with, until

others by his showing in the national junior title play in Boston.

In addition to the northwest championship he now holds the British Columbia Junior and Washington state titles.

Young Marion and Leon de Turenne, former Harvard not star, are the Pacific international doubles team. They will represent the Pacific northwest at the Longwood tournament.

PIVOT GAME IN TWILIGHT LEAGUE TONIGHT

The "crucial" game of the Twilight league season is on the card tonight when the Highland Daylights meet the K. of C. in a game which will settle or "unsaddle" the championship of the league. If it settles matters, the first game of the inter-city series will take place at O'Sullivan park, Lawrence tomorrow afternoon, with the Highland Daylights and the Lawrence K. of C. as the contestants. If the K. of C. puts it over on the Daylights in tonight's game, the Middlesex street outfit will have to play off the tie with Centralville at Spalding park tomorrow. Such a situation will, therefore, cause the postponement for one week, of the Little World Series. The first game, in that event, will be staged in Lowell, the second in Lawrence and the third wherever the toss of the coin decides.

BOXING FEDERATIONS IN AGREEMENT

PARIS, Aug. 25. (By the Associated Press).—A contract has been signed between the French Boxing federation and the National Boxing Association of America, whereby each body recognizes the other as controlling boxing in their respective countries.

The agreement binds the federations to recognize each other's decisions, regulations, suspensions and disqualifications, a delegate of each attending the meetings held by the other. The contract is signed by Paul Rousseau for the French federation, and Walter Lagimodiere for the American.

FULTON-MISKE BOUT TONIGHT
ST. PAUL, Minn., Aug. 25.—After having been postponed twice, the ten-round, no-decision bout between Fred Fulton, Minneapolis heavyweight, and Billy Miske, of St. Paul, is set for tonight at the local American association baseball park.

The fight will be one of the most important heavyweight affairs held here for several years and the winner is expected to obtain a bout with Jack Dempsey, world's champion. Fulton and Miske met here in January, 1918, but Twin Cities sports writers disagreed on the verdict.

FOSTER'S LAST SEASON
BOSTON, Aug. 25.—Third baseman Foster, of the St. Louis Browns will not be at his old position next year. Before leaving Boston yesterday at the conclusion of the Red Sox season, he said that this was his last season as a regular player. Foster's services, however, will be utilized on the spring training trip as coach of the Brown infielders, according to the present plans of Manager Lee Fohl, the player said.

K. OF C. DEFEAT MASS. MILLS BY RALLY IN LUCKY SEVENTH

"Casey's" Come From Behind and Convert Apparent Defeat Into Victory by Score of 3 to 2—Classy Fielding Stunts by Crowe, Condon and Souza

The Knights of Columbus came back strong last night and with the aid of the lucky seventh defeated the Massachusetts Mills outfit by the score of 3 to 2. The Massachusetts Mills held a precarious 2 to 1 advantage up until the seventh, but the Knights put the tying and winning runs over with the assistance of the semi-darkness which made its appearance extremely felt by the millmen. The encounter was decided in the seventh, only four bingles being collected by each side. Souza and Allen, with a double and triple, respectively, were the best destructive forces in this respect, while Joe Duffy and O'Connor secured one clean bingle apiece for the Knights. In the final department, Crowe snatched a fly off the outfield, while Condon and Souza pulled down flies in spectacular fashion.

Franko, Purcell showed his versatility for the "Casey's" by taking up the pitching duties and did surprisingly well. He was opposed by Peterson who was his own reliable self, but the seventh when two hits, a sacrifice and a hit batsman were productive of two runs and the Knights won.

The first two innings were fruitless for both contestants, but in the third, the Massachusetts got to Purcell for two runs. Souza and Allen opened up their heavy artillery, the former with a double and the latter with a home run. Souza counted the first run on "Orrie's" three sac to left. "No. 1" Ganley, playing right field for his "own" team, was out on the technicality of bunting out on his third strike, after which Kintka came through with a neat sacrifice fly to Condon, who incidentally made a beautiful running catch of the sphere prior to a marathon from deep center. He could not recover his equilibrium, however, and Allen trotted across.

The Knights scored a lonesome tally in the fourth. Purcell walked and went to second on a passed ball. Daley also walked and Duffy advanced, with him almost converted into a hit. Purcell scored while Allen was throwing out McGowan via Cheswick at first. In the next three innings the Massachusetts practically went out in order, as did the Knights. The seventh brought victory out of seeming defeat for the latter, however, when McGowan singled and McElroy was hit by a pitcher's ball. Condon laid down a made-to-order sacrifice and both men took a step forward. Barron struck out, but O'Connor proved he was there in the pinch by singling sharply to left, bringing home McGowan and McElroy and making his team favorite, 3 to 2. The Massachusetts went down fighting in their eighth, and Peterson being extinguished at first, and O'Connor pocketed the pellet for the last out when Souza

COMMUNICATION
Sporting Editor, Lowell Sun.
Dear Sir:—I am writing a few lines to let you know that my man, Jim Christo, has just arrived from a successful tour of New York state. He has begun training and during the winter expects to meet the best wrestlers in the country at one hundred and forty-five pounds. His training camp is at 865 Varian avenue, city. Hoping that we shall hear from this topknotcher, I remain,
Yours truly,
LOUIS SARIS
Christo's Manager.

JOE LYNCH KAYOS LEVY
FORT WORTH, Texas, Aug. 25.—Joe Lynch, of New York,bantamweight pugilistic champion, knocked out Benny Levy, of Chicago, in the fourth round of a scheduled 12-round bout here last night. Lynch kept Levy on the defensive throughout. He sent the Chicago boy down for an eight count early in the fourth round and then finished him.

Gene Sarazen No Flash in the Pan

BOSTON, Aug. 25.—Boston followers of the royal and ancient game today were satisfied that Gene Sarazen, United States open and professional golf champion is no flash in the pan. He scored a 72 yesterday for the Charles river course, lowering by three strokes the record made by Francis Ouimet.

WORCESTER TEAM TO PLAY MASS. MILLS

The famous Clontion & Knowles ball team of Worcester, regarded as the best semi-professional team in that city, which has won 17 games out of 19 played thus far, will come to Lowell tomorrow as the guests of the Massachusetts Mills.

The visitors will reach Lowell about noon and will be entertained at the Massachusetts Mills, where luncheon will be served and other features carried out. The team will be accompanied to the Spaulding city, by the officials of the mill, and a number of royal rosters.

In the afternoon the scene of action will shift to the South common where the Worcesterites will meet Bob Ganley's Massachusetts Mills outfit. In the Worcester lineup will be found several well known players. Flynn, the Holy Cross player, will catch; Cliff, of the Commerce college, will play left field; Thyden, formerly of the Worcester New England league team, and Keyes, will do the pitching; Nawn of the Trade school team and King, formerly of Albany, will work at the hot corner; Campbell will play second; Molloy, center field; Burns, first base; Croft and McNabb, right field, and Scott, shortstop.

The Braves defeated the Universalists Thursday by the score of 4 to 1. This is the third victory for the Universalists in the county at one hundred and forty-five pounds. His training camp is at 865 Varian avenue, city. Hoping that we shall hear from this topknotcher, I remain,
Yours truly,
LOUIS SARIS
Christo's Manager.

CENTRALVILLE LEAGUE BROWNS AND YANKS CLASH

Leaders of the Centralville Twilight League Defeated by the Dixwells

With a rejuvenated lineup, including Bradbury, McCarthy and Cawley of the Centralville, the Dixwells defeated the Centralville Twilight league last night by a 3 to 2 score. The game was the best played of any this season. The ending resembled that of the famed "Frank Merriwell" stories, for with the score 2 to 1, two on and two out, and Noel, the Dixwell pitcher fast weakening, Lawson caught a dizzy, skyscraping foul behind the plate and the game was history. This game was a battle of nerves and nerves were four hard fought, and picking three men off second. Bill Farley, playing first for the Dixie boys, who is the star of the Centralville Twilight league, was very much in evidence during the game and played a stellar first inning. This was the first time the Dixwells more firmly in second place and is the first defeat that the Crescent Hill team has undergone this season.

In the very first frame, the Dixwells opened up their siege guns and drove a run across the rubber on a passed ball. Donnelly opened for the Dixwells in the first with a two-bagger, caught with the bases empty, and Cawley called a high one on the dead run in center. From the 20th century ball instead of a 21 one, as previously proposed. The Arrow lineup follows: McCaughy, c; Martin, 1b; Brown, 2b; Welch, 3b; Cuth, ss; Purcell, 2b; Carroll, 1b; H. Cogan, p; W. Cogan, c. These players are requested to be present Saturday afternoon at 1:30 in Pleasant street.

The Braves defeated the Universalists Thursday by the score of 4 to 1. This is the third victory for the Universalists in the county at one hundred and forty-five pounds. His training camp is at 865 Varian avenue, city. Hoping that we shall hear from this topknotcher, I remain,
Yours truly,
LOUIS SARIS
Christo's Manager.

BROWNS AND YANKS CLASH

Open Series at Polo Grounds That May Decide American League Pennant Race

New York Giants Continue to Widen Gap as Cards Lose to Braves

NEW YORK, Aug. 25.—Twenty hits of three Red Sox pitchers enabled the St. Louis Americans to defeat the Bostonians, 13 to 2, and keep pace with the New York club, which found its batting eyes after two days and took the final game of the Cleveland series, 7 to 3. Today the Browns with only half a game lead, and the Yankees meet in a series at the Polo Grounds that may decide the league race.

Walter Johnson, Washington's veteran twirler, another shutout to his long record, holding the White Sox to five scattered hits and winning 11 to 5. His mound command, however, though allowing but four hits, was hit for two in the second frame, which coupled with a stolen base by Shanks and a wild pitch, accounted for the only score.

Gene Sarazen No Flash in the Pan

BOSTON, Aug. 25.—Boston followers of the royal and ancient game today were satisfied that Gene Sarazen, United States open and professional golf champion is no flash in the pan. He scored a 72 yesterday for the Charles river course, lowering by three strokes the record made by Francis Ouimet.

GIRLS' CHAMPIONSHIP TRACK MEET

Children from every playground in the city gathered at the South common yesterday afternoon when the girls' championship track meet, conducted by the park department, was run off.

The races were very closely contested, but it was necessary to call the meet off, before the antiro program was ended, because of a heavy shower. The remainder of the races will be run off at the same place on next Monday morning. The winners of each event and the highest point getter will be awarded medals by the playground department.

With the bat, run in a high height of 4 feet, 2 and one-half inches, the high jump was the most interesting event of the afternoon. Four contestants were tied for first place in this event, they being Queenie Douglas, Sheila Parks, Florence Goodell, Hilda Gertrude McClosky, Fayette, and Grace Wilbur, Varian. This jump is an exceptionally fine one for girls under 15 years of age.

The other event, a 60-yard dash, under 12: First, Mabel Greiner, Greenhalge; second, Noella Bailer, Greenhalge; third, Peter Larence, N. common. Under 12: First, Christine, Lakewood; second, Florence Goodell, Butler; third, Rose Martin, Lakewood avenue. Under 16: First, Queenie Douglas, second, Florence Goodell, third, Sheila Parks, third, Evan-Elaine Kearns, Varian.

WILL PLAY BENEFIT GAME

Exhibition Game by Twilight League Team for Benefit of Strikers

At a meeting last night of presidents and secretaries of all crafts affiliated with the American Federation of Labor in Lowell, it was announced that the Centralville and Highland Daylights, of the Twilight League, will give an exhibition game for the benefit of the strikers at the close of the present schedule. A special committee reported that it had interviewed Ray Royce and Louis Lord, the rival managers, and that both men had consented to the proposition. The date will be selected and announced later.

A discussion of the dance, to be held at Lakewood on Monday next, was also in order. Harry C. Kittredge, owner of the pavilion, has generously donated the dance hall for the occasion, while the street carmen have contributed ten \$1 tickets which will be awarded to the holder of the lucky ticket in the dance. Railway officials have assured the committee of good service to and from the park and expect to handle comfortably the two or more thousand who will be expected to attend the dance.

The Permanent Firemen's association and the "union" was the organization which recently donated \$50 to the strikers' fund.

Gene Sarazen No Flash in the Pan

BOSTON, Aug. 25.—Boston followers of the royal and ancient game today were satisfied that Gene Sarazen, United States open and professional golf champion is no flash in the pan. He scored a 72 yesterday for the Charles river course, lowering by three strokes the record made by Francis Ouimet.

MISS IVY LAWKE
Miss Ivy Lawke is the daughter of (England) girl of 12 who recently tried to drown herself in the English channel. She has been training for several months and awaits only good weather.

From Dover to Cape Gris-Nez in an air line is only about 20 miles, but the route is a long one. The Channel is a breast. These necessitate zigzagging.

ABBOTS DEFEAT HAVERHILL TEAM
With the Haverhill Professionals and the mighty "King" Bader, a pitcher extraordinary, traveling at high speed, the Abbotts of Lowell, of Graniteville, on their home grounds, annexed a 2 to 1 victory last night, in which the pitching was done by Al Davidson, the most conspicuous factor. The quality of the game itself drew huge numbers of spectators, and the game was a tactical underrated during the season. Davidson, well supported by his teammates, worked himself out of some dangerous holes.

During the contest, although Davidson pitched winning ball, he struck out 12 of the opposition and gave but a hit. He issued only one walk, however, while nobody walked as a result of Baker's delivery. So well secured were the passes, however, that Davidson resulted in but one inning, the eighth, when a duo of them combined with a base hit gave the visitors their only run. Although the game went the regulation distance, consuming but one and one-half hours, the fourth inning saw the winning run scored. During the first three innings neither team could do anything, but in the fourth Dempsey, first up for the Abbotts, singled, advanced on a sacrifice, and after Greenhalge walked scored on Loftus' hit to right center. Shannahan, scored Greenhalge by another clean hit, and Sullivan made the second and third outs.

In the eighth the Haverhill made a desperate try for a win or tie score. Bader led off with a fly to the outfield. Armstrong got a free pass and Harkins singled. Powers walked and filed the only double. The Haverhill team proceeded to strike out Leary. On the very next play, however, Henry van had a passed ball, rookstering Armstrong. Harkins, attempting to tally on the same play, was a life saver, and ended the rally when he was out at home by a narrow margin. The score:

HOUSE OF DAVID HERE TOMORROW

On the Textile campus tomorrow afternoon, the C.M.A.C. will engage the House of David team, which is making its second appearance in this city. The C.M.A.C. will present its usual strong lineup and look forward to victory. The Salem town team will appear at the campus Monday evening.

On their first visit to Lowell the Davids played George Tyler's Lowell Independents at Spaulding park and put up a fine game, but lost by the score of 4 to 6. Several of the regulars were unable to appear in that game, but it is said they will be on hand tomorrow afternoon.

If you want to buy, sell, rent or exchange anything, try a Sun classified ad.

THE FIRST PRINTING PRESS EVER USED IN THE UNITED STATES

front of The Sun building in noon today to view an antiquated but interesting printing press, the first ever used in the United States. It is the old Stephen Daye press and was brought to Boston in 1638 and set up in Cambridge. Later it passed into the hands of Samuel

to New London, Conn., where it remained until 1773. It was then taken to Norwich, Conn. Five years later it was removed to Dresden, now Hanover, N. H., for a 100-mile trip. These precautions were taken in view of the fact that this was only the second time in its history that the press has been taken from its home.

It is revered by the Green Mountaineers as much as the Liberty bell in Philadelphia. The only other time it departed from its resting place was during the Jamestown exposition, and unfortunately it was tampered

The press was transported to this city from Nashua where it was on exhibition earlier in the year. The printer is Arthur E. Ham, treasurer and director of the Boston exposition, which is the present destination of the piece, the "printer" arrived in Lowell on board a special Packard truck, donated for the purpose by the official Packard agency in Boston, and is now en route to the fair, and will be on hand to insure against any possible breakage to the press.

chassis, a 5 ton motor and a set of huge 10-in. tires were provided by the Packard people. A regulation platform body was constructed in such a man-
